

**Social Activities**  
and  
**Personal Mention**  
by  
Nettie Kaufman

ONE of the most unique and attractive social affairs of the season will be the party given by Mr. and Mrs. Allan Ira Wolff, Saturday evening, March 24, to celebrate Mr. Wolff's birthday. Invitations in the form of car tickets have been issued to about sixty guests to a trolley party from Winnetka to Libertyville. Mr. and Mrs. Wolff will have two special cars for the use of their guests for the evening.

The last of a most popular series of subscription dances under the auspices of the social committee of the Parent-Teacher association was given at the Winnetka Woman's club Friday evening. Miss Elizabeth Kultchar was in charge of the dancing. Much credit is due the members of the social committee who have been instrumental in making these affairs among the most successful social events of the season.

The West Elm Street circle met at the home of Mrs. Charles Ashley, 969 Elm street, Monday afternoon, to celebrate the birthday of Mrs. M. H. Lieber, who is one of its most faithful members. An enjoyable afternoon was had, Mrs. Robert Walpole entertaining the guests, with solos. Many unique greetings, brought to Mrs. Lieber by the members, were read.

The work department of the Woman's society of the Congregational church announces that next week, owing to the fact that the church dinner comes on Wednesday, the all-day sewing meeting will be held on Tuesday, March 20, in the women's rooms of the Community house. Sewing will be started at 10 o'clock and as large attendance as possible is earnestly requested as there is a great deal of work to be finished. There will be a box luncheon with coffee served and it is hoped a large number will remain all day.

The matinee to be given under the auspices of University circle and the woman's club Saturday afternoon at the Strand theater will contain no reels for small children because of the puppet play to be given by the Dramatic club at the Evanston Woman's club that day. The Little Theater people will present "Alice in Wonderland" at a performance 10:30 o'clock the morning and an afternoon performance at 2:30.

The Pine street circle met with Mrs. Charles Altschul, 1004 Spruce street, this afternoon. Mrs. George Farnsworth spoke on the work of the Red Cross society. Some sewing was done for the Red Cross and the Infant welfare societies. Mrs. Marc Newman was the assisting hostess of the afternoon.

The Home Mission Study class of the Congregational church was entertained at the home of Mrs. Forbes Denhead, 848 Lincoln avenue, Wednesday afternoon. About thirty members were present. Mrs. Edwin F. Bell played several piano selections, after which Mrs. J. W. F. Davies read from the study book "The Southern Mountaineers."

The civic department of the Winnetka Woman's club will hold a meeting Monday afternoon, March 26, at 8 o'clock. Mrs. Ira Couch Wood will speak on "Village Affairs" and there will be a free discussion of this subject. After the program tea will be served. All who are interested are cordially invited to attend.

The East Willow Street circle will meet next Tuesday, March 20, at the home of Mrs. Miles Whitney, 416 Wilcox street. Mrs. James Morley will be the assisting hostess for the afternoon.

The engagement of Miss Margaret Chaelson to Joseph Luchesi, son of Mr. and Mrs. Ralph Luchesi, has been announced. The wedding is to take place some time in June.

The East Elm Street circle will be entertained by Mrs. Frank T. Crawshaw and Mrs. A. Miller Belfield at the home of the latter, 475 Cedar street, Saturday, March 20, at 2:30 p. m.

Miss Henrietta Hulme will go to Rockford, where she will give a lecture on "Home Sanitations" and "Nurturing the Child" at two of the public schools, Friday, March 30.

Miss Louise Thorne will return this week from Westover school to spend her spring vacation with her parents, Mr. and Mrs. George A. Thorne of Rockford.

**NEW TRIER FIVE CHAMPS**

Lightweight Basketball Boys Annex Suburban Title Saturday Night by Defeating Oak Park 32 to 8.

New Trier lightweights won the Suburban league basket title by beating Oak Park, 32 to 8, in the deciding game at Patten gymnasium last Saturday. The teams shared victories in two previous contests. New Trier centered efforts on guarding Uteritz, Oak Park pivot player, and Right Forward Phalen was chased from the game for rough work in a passage at arms with the losers' star. The two players met again in the locker room, but a renewal of the scrap was prevented.

The Kenilworth boys began scoring from the start, while Oak Park was puzzled by the unfamiliar baskets and glass backstops. Reynolds refereed.

**H. R. ABBOTT DESIGNS MUNICIPALITIES SEAL**

Artistic Creation That Symbolizes North Shore Association and Its Members Work of Local Man.

The Association of North Shore Municipalities has one of the prettiest and most attractive official seals that could possibly be designed. The work of Herman R. Abbott, chairman of the drainage committee of the association, the seal is in every respect symbolic of the organization and its membership.

Within the double circle carrying the name of the association has been drawn a reproduction of the shore line of Lake Michigan, behind which, in regular sequence, the names of the towns and villages holding membership have been placed. It is a beautiful design and one of which Mr. Abbott can be justly proud.

**POWER**

Power is the most important factor of automobile performance. It means speed, flexibility, quick acceleration and hill-climbing ability. These features are not possible in a car which does not have plenty of power.

Sufficient power is your best insurance against disappointment. It enables you to throttle your car down to one mile per hour on high gear, or to pick up quickly to better than a mile a minute. It gives your car the ability to climb the steepest hills on high, or to go through the deepest mud and sand. It means maximum performance in a motor car.

The Haynes "Light Six" motor, with cylinders 3½ x 5 inches, will develop more power than any other motor of equal bore and stroke.

Let us demonstrate the Haynes to you, actually show you what it will do. It will not obligate you in any way, but will prove to you that the
