DOES TRICK UNDER WATER

At the Kenilworth swim last Friday night Arthur Fox, clever water performer, turned some unusual stunts in the tank that held the spectators enthralled. Incidentally he broke the National record for staying under water (4 minutes 12 seconds), by remaining submerged over four and one-half minutes.

LUKE DOYLE WILL TELL OF WAR

Fresh from Battlefields of France with Story of American Ambulance.

Luke C. Doyle, former Yale man and late member of the American Ambulance corps doing duty in France, will give a lecture at Winnetka this Sunday night. Mr. Doyle, who has been decorated with the Croix de Guerre (Cross of War), was wounded while in the performance of his duty as an ambulance driver and invalided home to recuperate. He has been lecturing throughout the country in behalf of the Red Cross and so far has succeeded in raising \$45,000 for the relief of the European wounded. His lecture at Winnetka will be illustrated with a series of motion pictures, taken on the battlefields of the old world, and just received in America.

The lecture will be given in Community house and, due to the limited capacity of the hall, no children will be admitted.

TAYLOR DEPARTS FOR FRANCE

Hubbard Woods Boy Left New York Monday to Join Ambulance Corps.

Wilberforce Taylor, son of Judge Taylor of Hubbard Woods, sailed from New York Monday en route to join the American Ambulance corps on the firing line in France. Mr. Taylor, who volunteered for service long before the American ambulance unit was first suggested, was prevented from going earlier to Europe by unavoidable circumstances. He will pay his own expenses while in France, believing, like many other patriotic Americans, that it is small return to the French

people for the invaluable service at one time rendered this country.

EACH CLOUD HAS SILVER LINING

The Cheerful Side of Life Helps to Bear His Burden More Easily

Look on the bright side. It is the right side. The hour may be less and somber with clouds, but will be no better to wear a sad and sad countenance. It is the shine and not the clouds that the flowers. The sky is blue where it is black once. You troubles—so have others. None free from them. That would dull sea and the sailors would get skill were there nothing to turb its surface. There is more tne in a sunbeam than in a hemisphere of cloud and gloom.
