read the fifty or more typewritten pages of the survey as I have that the article in question was written either by someone who had not read it or who was actuated by hostility to the present school administration of Winnetka to misinterpret by a garbled version of quotations Mr. Bobbitt's very impartial conclusions on education in general.

I do the intelligence and fair-mindedness of your readers the justice to believe that when they are informed from an authoritative source and in a signed letter that the article of August 24 does not convey either the facts or the conclusions to be drawn from the facts in Mr. Bobbitt's survey, about any of the schools in the township, they will disregard the statements and implications of that article and will wait to draw their own conclusions by an early perusal of the survey when published.

Very truly yours, Ruth W. Porter.
