Rileys Move.

The Thomas Rileys have moved into their new home on Blackthorne road.

(Continued from page two)

heals individuals of sin and iniquity, but it corrects the world of such a thing as sin and iniquity. "Ye shall know the truth, and the truth shall make you free." As the problem in mathematics is found after the solution to be not only perfect and correct, but always to have been perfect and correct, likewise man in Christian Science is found after the solution of the problem not only to be perfect like the Father, but always to have been perfect; that the errors of human belief never were true any more than the errors of the mathematical problem were true.

Christian Science is not essentially iconoclasm. It does not break images, tear down altars, and break up churches, clans, and societies; neither does it use the old as a foundation upon which to construct the new. It educates out of the old into the new; out of the lower into the higher; out of the false into the true. The Science of Truth, like the garment of Christ, is a seamless robe, woven throughout from top to bottom; complete in itself. Nothing can be added to it and nothing taken from it; and nothing can be true that is not included in it. In it mankind and the world will find all their needs supplied, and all their real desires fulfilled.

But the laws of God are not the laws of mortal mind or of matter. The so-called laws of health are no more the laws of God than the laws of evil are the laws of good, or the law of wrong is the law of right. The so-called laws of health which civilization makes and breaks, and yet builds upon, are as changeable and unreliable as the wind that blows. They are all built upon the shifting sands of physical observation, conjecture, doubt, and fear, having no principle or foundation in fact. The divine law of health, which is the law of Life, that is the law of God, is as changeless, immutable, pure, and perfect as the eternal God Himself.

Christian Science shows that the error of the ages is in having two powers, one of good and the other of evil; and this belief beclouds the eye of reason, shuts out the true sense of being, and seemingly robs man of his God-given inheritance. This belief, in belief, makes man mortal instead of spiritual; makes man subordinate to every beast of the field, every fowl of the air, and every thing that springs out of the earth; makes man a slave instead of a master.

When man begins to see himself as a child of God, a child of Spirit rather than a child of the dust, then he begins to take possession of himself in the name of Almighty God, and to claim his birthright of health,

happiness, harmony, and immortality. He then begins to take dominion over the beast of the field, and over the fish of the sea, the fowl of the air, and over every thing that "creepeth upon the earth;" but this dominion is not expressed in the power of might, of physical strength and mortal cruelty, but in the power of love, kindness, gentleness and helpfulness to all that is below him.

Christian Science, ever loving, ever gentle, and ever kind, will never take away one single thing that you hold dear without returning more than it took away, and that which you love better. Christian Science turns the searchlight on animal magnetism, mesmerism, hypnotism, and mental suggestion, and shows them to be dealing entirely with the mortal or finite mind, so called, which is but the negative of the divine Mind, or God, and has no more existence, compared with the divine Mind, than darkness has, compared with light.

Christian Science is the wonder of the finite world, and the light of the ages; it is the grandest gift of the nineteenth century to the twentieth. Its donor, the Rev. Mary Baker Eddy, whom we lovingly call "our Leader," was indeed a most wonderful woman. To write such a book as "Science and Health with Key to the Scriptures," and write it in the darksome days of the world's history, when heaven was a far-away place, and God a tyrannical personality, sitting on a throne in some unknown and unknowable locality, and the dark abyss of hell was yawning for the souls of men, and when matter and mortality, sin, sickness, and death, the devil and even damnation itself were all the works of a great and good God,—to write such a book at such a time, and under such conditions is the wonder more and more of all who love its teachings.

As time goes on and the great facts of eternal Life as taught in Christian Science are more clearly seen and more perfectly demonstrated, and Christian Science, the Science of Life, is better understood and comprehended, the name of Mary Baker Eddy, the Discoverer and Founder of Christian Science, will stand out in the world's great history like a star of the first magnitude; and she herself will be honored and loved for what she has done for mankind and for the world.
