

To Property Owners in the Southeast Paving District, Winnetka

A Verticle Fibre Brick Pavement is

1. DURABLE. Lasts longer with less repair than any type except granite block.
2. EASILY CONSTRUCTED. A fool-proof pavement.
3. ARTISTIC IN APPEARANCE. No glare or unsightly repairs.
4. EASY ON TRAFFIC. Provides a sure foothold for horses and a grip for rubber tires under all weather conditions.
5. SMOOTH. Retains its smoothness.
6. EASILY REPAIRED. Only unit pavements such as brick, wood block and stone block can be fully restored.
7. NOISELESS. Tight joints and asphalt filler.
8. SANITARY. Originates no dust or dirt and costs least to keep clean.
9. LOW IN FIRST COST. Less than the cost of any other type that has been considered.

Attend the Public Hearing November 22 and demand that your Streets *be Paved With Brick*. A change to Brick will cause no delay.
