Thrift In the Schools.

The interesting of the school children in the sale of the thrift stamps will be productive of good far out of proportion to the amount of money which is thus raised. The carrying of the interest into the homes is no small consideration. The reasons for the campaign for the sale of the stamps will impress upon child and parent alike the circumstances of the times. The fact of the war will be brought home to those who have not as yet been made to realize it fully. But this is not the greatest benefit of the thrift stamp campaign among the boys and girls in the grades.

The instillation of the idea of thrift into the mind of the child when he is most open to impression is the important product of the endeavor to sell thrift stamps to the pupils of the public schools, and its importance cannot be overestimated. The great American weakness, lack of thrift and providence, will be corrected in a part of the student body at least, and a new generation given a characteristic which means much to the welfare of a nation. Everything has come so easily to the American of any attainment at all that our progress towards a high degree of improvidence and extravagance has been the natural result. If we can succeed through the sale of the thrift stamps in impressing upon the childhood of the country the fact that there is an intimate relation between the saving of the small sum and having money to invest in larger amounts, we shall have accomplished a reform of the utmost value to the nation.

THE DAY OF DAYS
New York Post

Oh, the coalless days and the heatless days,
 The meatless days and the wheatless days,
 And the days without sugar and sweet,
 And the days without ham, and the days without lamb,
 And the days with just nothing to eat.
 And the days without rice, and the days without ice,
 And the days without corn, beans, or bread;
 But we'll never despair, we'll feed upon air,
 And make soup of the old leather-bed.

DRAFTED MEN TO CAMP GRANT SUNDAY

Sixty Men Will Go Into Training at Rockford on February 24 From This District.

INSTRUCTIONS SATURDAY
 Men Will Report Saturday Afternoon at Wilmette Village Hall.

(Continued from page 1)

meals. This plan of caring for the men who live great distances from Wilmette, will give the men a good night's rest and enable them to be present Sunday morning without any great inconvenience.

As the men will make their departure on Sunday, it is hoped a record crowd will be at the station to see the getaway. The other increments left on week days, and the demonstration they received excelled the demonstrations in other communities. Every person physically able should be present to give the boys a sendoff that they will remember all the way to Berlin.

It is not believed these boys will be given the intensive training at Camp Grant that the first increments received. It is understood that the Eighty-sixth Division will sail for France about the middle of May, and that the boys who will leave Sunday will go with them. They will receive their final preparation for trench warfare behind the firing line in France.

When the sixty men make their departure, this district will have sent all of her first quota with the exception of fifty men. It is not known when the call will come for this group but it is expected it will be in the immediate future.

Reports from Washington this morning stated that an order placing the date of the second draft at May 1 awaits the signature of Secretary Baker. The new draft will call 500,000 men to the colors.

Each week, according to the new plan, approximately 10,000 men will be called to the camps for training. As they are called, equal numbers of those now in training will be sent for intensive schooling in France.

It is unofficially reported directions for the mobilization of the 500,000 men will be forwarded by Provost Marshal General Crowder not later than April 15.

The exact number of men due from each district will be designated, as will the total number of men in Class 1 that must be called for examination and the number that must be accepted for service.

It is the plan to call the men gradually, so as not to overtax the supply facilities of the army and to avoid any railroad transportation tieup.

The recruits will have the advantage of mingling with the men who have been in training for some months, as no camp will be completely evacuated.

There will be 2,500,000 men called from Class 1 and 1,000,000 who will become of age during the year ending June 5, 1918.

British subjects are included in the draft.
