World-Famous Singers Coming for Festival

Galli-Curci, Muratore, Gogorza and Other Stars to Appear at Patten Gymnasium

Galli-Curci, Muratore, Gogorza, Middleton, Althouse, Sundelius.These are among the world famous artists who will sing in the Chicago, north shore festival association concerts in the Patten gymnasium this summer, and whose appearance will swell the receipts of the 1918 series.

Orders for the course tickets are now being taken, stated Carl D. Kinsey, business manager, today. He said the tickets are going so rapidly that within a few weeks he expects the entire gymnasium to be sold out.

Persons ordering tickets by mail are cautioned to include a war tax of ten per cent in making their remittances.

The course will open May 27, with "Caractacus". May 28, will be artists' night. There will be no concert on Wednesday but Thursday night the attraction will be "The Rhapsody of St. Bernard." Saturday afternoon, June 1, the children's concert will be given and the evening will be, operatic night.

Crops fall off

The Australian wheat crop for the season of 1917-18 is estimated at 114,020,000 bushels, compared with last year's yield of 152,565,000. The 25 per cent decrease is a result of reduced acreage and unfavorable conditions.

KEEPING HOUSEHOLD ACCOUNTS

is a simple matter to the woman wise enough to pay her bills by check. The stubs and cancelled checks tell her to a penny where her money has gone and furnish receipts as well. We have a special department for women's accounts and will be very glad to explain to housekeepers and others the advantages of making use of it.

LEGAL EVERYWHERE

TO EVERY MOTORIST

The new state law which went into effect Jan. 1st, forbids the use of glaring headlights on the country roads, there is also a city ordinance which declares glaring headlights to be illegal. City and State authorities will enforce this law to the letter and motorists are subject to arrest and heavy fines unless they comply with the law.

Why Wait to Be Arrested

Unless the motorist equips his car with lenses or dimmers his arrest may come at any moment and this spring will find the authorities very active to do with the glare. Dimmers are tive as ley

NEWLITE LENS

"THE 100 PER CENT LENS"

Passes Every Legal Requirement

The Newlite Lens has passed every test to which it has been subjected, including the test under the Missouri State Law, which is the most stringent in the United States. It has been endorsed by public officials, motor clubs and the motoring public everywhere

Produces Artificial Daylight

An exclusive feature found in this lens is its refractive and diffusive action. This is obtained by the multitude horizontal mitre cuts and the fine-ground perpen- refracting grooves located in the center. These remove the glare, but at the same time project , white light straight ahead, securing the longest range. The rays which light the side of the ches, fences, etc., are produced by the horizontal its. The white etched portion of the lens are d as to intensely whiten all the rays, producing daylight.

LEGAL EVERYWHERE

LIGHT RESTRICTIONS

There is no light restriction with the Newlite Lens. It refracts and diffuses a strong white light and has no equal for night driving. Every detail of the road, ditches and contiguous territory is sharply defined. The motorist finds a new pleasure in night driving. His entire range of vision is lighted, instead of the roadbed only. The oncoming motorist gets no glare from Newlite Lenses.

CLASSY EQUIPMENT

The Newlite Lens in addition to its performance forms a most attractive part of the cars equipment. The diffusive mitre cuts and the refractive ground grooves, together with the etched portions of the Lens, combine to produce a silvery shimmer over the entire surface and is exceedingly attractive.
