

HOW UNCLE SAM TELLS FOLKS OF CASUALTIES

Notifications Postponed Only when Publishing of Lists Might Lend Military Value to Enemy

Relatives of soldiers named in casualty lists forwarded from France ordinarily are notified within 24 hours after receipt of the lists, according to a statement authorized by the War Department.

Have Roster Copy
A copy of the roster of each contingent sailing to join the Expeditionary Forces is filed in card index fashion, each card bearing the name of the soldier, his organization, and the name and address of parent or other relative or friend designated by him to be notified in emergency.

Word Sometimes Delayed
While relatives are generally in receipt of information within 24 hours after the cables are received, delays are sometimes due to clerical errors caused by the fact that names must pass through so many hands in France and in America.

Aside from these four causes of delay the only reason for the failure of relatives to receive word at once is military consideration.

RECTOR STEWART TO SAIL EARLY IN JULY

Dr. George Craig Stewart, rector of St. Luke's Episcopal church, Evanston, which counts many north shore residents as communicants, last week received his orders from the American Red Cross to report in New York for sailing the first week in July.

He believes he will be attached to the staff of Major McCormick, bishop of Western Michigan, who is in charge of all Red Cross chaplains and who is a fellow member with Dr. Stewart of the war commission of the Episcopal church.

As the war commission meets in New York on June 25 and 26, Dr. Stewart plans to leave Evanston on the 24 to attend this meeting. The days remaining between then and embarkation will be spent in securing the necessary equipment so that he will not return to Evanston.

BOYS IN BROWN AND BOYS IN BLUE

Fling out our flag; then see her float Landward and seaward, free and wide,

Our boys in brown and boys in blue, They go, Oh- France, they go to you.

They go through shouting, laughter, tears; Through stinging silence and through pain;

For love, for love and not for gain, They go, Oh! France, they go to you.

Then boys in brown, in khaki brown Who soon will sail upon the tide, Stand there in honor by her side, Great France, she holds her hand to you!

And boys in blue, in sea, sea blue, With watchful eye on roving ship, Watch warily that none shall slip Between you and the lives you guard.

So fling Old Glory out and out, Landward and seaward, free and high,

While boys in brown and boys in blue, Oh- France, they go, they go to you.

Marion Graves Day.

Farmers Boost Loan

Next to the aggregate number of subscribers, perhaps the most striking feature of the third Liberty loan was the support given it by the farming and rural populations of the country, according to a statement by the Treasury Department.

Tangelo, New Fruit, Produced

A new type of fruit, which has been named tangelo, has been produced by the Bureau of Plant Industry through a cross between the tangerine orange and the grapefruit, or pomelo.

DON'T SHOOT THE CARRIER PIGEONS

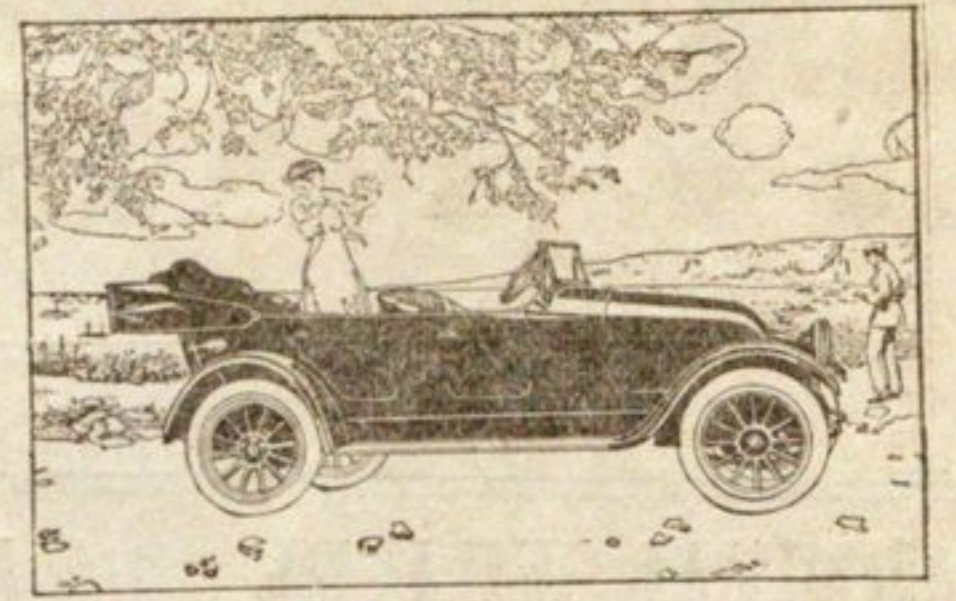

The raw recruit who takes out the maximum amount of government life insurance upon enrolling in the Army or Navy has nothing on the homing or carrier pigeon, for these valuable birds are now protected by law from being shot by ambitious hunters.

Owing to the important part homing pigeons are playing in the war, with respect to carrying government messages, thousands of the birds are being specially trained by the Pigeon Department of the Signal Corps and every effort is being made to protect the winged messengers from injury or death.

In view of these conditions a law was recently passed by Congress making it unlawful to "knowingly entrap, shoot, kill, possess or in any way detain an Antwerp or Homing pigeon which is owned by the United States or bears a band owned and issued by the United States, having thereupon the letters U. S. A. and a serial number."

Tin Cans Valuable

Many letters in regard to the advisability of collection and sale of old tin cans are being received from private persons by the U. S. Department of Agriculture. The Department has been informed by a company engaged in detinning work that cans practically free from rust and foreign matter are worth \$12 a ton f. o. b. its factory and that there are from 7,000 to 8,000 cans in a ton.

It May Not Win the War

But you'll agree, it would be more patriotic for you to drive a light, economical Ford car in place of your "money eating" limousine.

You will enjoy it more—it will relieve your chauffeur for more necessary employment, and before the war is over, you'll wonder why you ever bought that heavy car.

Wealthy families are showing their patriotism by conserving—they are buying FORD CARS.

Discontinuance of Credit

In order to meet conditions brought about by the war we are forced to change our policy in extending credit.

We very much appreciate the courtesy extended to us by the majority of our customers in meeting their bills with a reasonable promptness in the past. However, having laundry work charged and carried on our books for a period of thirty days entails a considerable expense in keeping up the office detail.

In order to meet the abnormal conditions, over which we have no control, we shall be obliged on and after July 1, 1918, to place all of our business on a STRICTLY CASH ON DELIVERY BASIS.

This is not to be construed as a reflection on your credit of financial standing, but actual necessity compels this course, which is in accord with the request of the Government in its conservation policy. We are relying on your co-operation.

For your convenience we are issuing coupon books in denominations of \$3, \$5 and \$10, which may be purchased from our representatives or at our main offices.
