

# Social Happenings on the North Shore by Ruth Risley

**I**NDPENDENCE DAY this year has a significance more profound than at any time since July 4, 1776. A great number from the north shore have planned to attend the soldiers' athletic carnival at Camp Grant, others are going to the Great Lakes, although their big celebration was held on Wednesday afternoon. At Camp Grant there will be a great military spectacle, unique of its kind, serving as a sort of "send off" to the Eighth-sixth Division, an army corps, which will probably soon be on its way to France, under command of General Charles Martin.

The proceeds from this affair will be devoted to providing this division with athletic equipment for use over there. There will be a parade, by the entire division, an exhibition of "broncho busting", a baseball game between Camp Grant and Fort Dodge, boxing contests, the Illinois Centennial pageant, and fireworks, as attractions; and aside from all of those highly exciting things the soldiers will be at liberty to escort their visitors around the trench area, rifle range, Y. M. C. A. and K. of C. huts, bakeshops, and other points of interest in the camp.

**A** PRETTY JUNE WEDDING was that of Miss Charlotte Atlee Black, daughter of Mr. and Mrs. Irving Cunard Black to Louis Livingston, son of Mrs. Robert Cambridge Livingston of New York, on Saturday at high noon at Christ church. Reverend E. Ashley Gerhard read the service. Miss Black's only attendant was little Miss Nancy Jane Atlee of New York, and Robert Sanse, also of New York, served the groom as best man. The bride wore a lovely gown of white satin, and carried a shower bouquet of white lilies and sweet peas.

Mr. and Mrs. Livingston are spending their honeymoon in New York where they will make their home permanently.

Beautiful Ravinia Park opened last Saturday afternoon with a patriotic celebration. Instead of the customary concert by the Chicago Symphony Orchestra, the park was given over to our boys from Fort Sheridan and the Great Lakes, who presented their own program.

The Great Lakes band played dashing military music for two hours, then the jacksies gave a drill and sham battle, followed by a corking good baseball game between the Army and the Navy. At six o'clock the women of Ravinia club served supper to the 1800 men in uniform, who had responded to the club's invitation to enjoy the park. The baseball game between the Army and the Navy will be repeated next Saturday and the public is invited to be present and furnish the applause.

The women of the various north shore towns are taking turns entertaining men in uniform on Saturday and Sunday at Ravinia Park during the season. Supper will be served to about 1000 men each day, at a cost of \$200 for the two days, each town to provide the food it serves. On Saturday and Sunday, July 13 and 14, Winnetka will be hostess and the bills must be met by private contribution. Any patriotic person who wishes to contribute to this fund may send a check to Miss N. Josephine Landon, chairman of the supper committee.

The lovely lawns and gardens of the John Nash Ott residence were converted into attractive carnival grounds last Friday afternoon, where several hundred children with almost as many mothers revelled in the delights of fairyland. The proceeds were turned over to the Infant Welfare fund.

Society women were for the afternoon, ice cream vendors, theatrical producers, booth saleswomen, drink dispensers, and engaged in every sort of work essential to the success of a carnival.

In the evening the "kiddies" gave place to the older folks, who watched Miss Genevieve Fitzgerald and a group of dancers present the "Pipes of Pan" in the moonlight. Jane McKinney, Charlotte Picher and Judith Boddie, all of Winnetka, assisted in this production.

The Student Artist's recitals at Ravinia Park will be given on Friday afternoons in conjunction with the usual orchestral concerts. Next Thursday, at 2:30 o'clock, will be given the first Children's Day program, little Joan Peers being the chief attraction. Children's programs will be given during the season on Thursdays, all children of twelve years of age and younger, admitted free.

Joseph Wood, son of Mr. and Mrs. James Wood, 1082 Spruce street, enlisted at the Great Lakes naval training station today.

Dr. and Mrs. P. W. Poff of Winnetka announce the birth of a daughter, July 3.

The Winnetka Branch of the Infant Welfare society feel very gratifying to announce that \$1,150 was taken in and approximately \$1,000 was cleared at the Children's carnival held at the home of Mrs. John Nash Ott last Friday afternoon and evening. They are very grateful to the people of Winnetka for their hearty and generous support, and in return we feel much more satisfied to know that the "kiddies" of the tenement district at the Welfare station at the Chicago Commons, which is entirely supported by Winnetka, will fare so much better next year. The efforts of every one who helped, have been deeply appreciated.

The hostess for Sunday, June 13, at the Jolly Tar club at Waukegan was Mrs. Frank R. Fuller of Winnetka. She was assisted in entertaining the two hundred and more boys who were there, by Mrs. Barrett Conway, Mrs. Paul Noyes, Mrs. Korn and Mrs. Clarence Morse.

Hostesses from Winnetka are to serve at the club on the last Sunday in each month. Any one who would like to volunteer for this very necessary service, will please telephone Winnetka 136, Mrs. Morse.

A volley ball, and indoor baseballs, either new or used, are needed at the Jolly Tar. Such a gift would be much appreciated.

## THIS RECIPE SHOULD HELP SAVE THE WHEAT

Have you pledged yourself to use as little wheat flour as possible until the next harvest? The following tables of equivalents will help you to conserve:

Equal measures of flour differ in weight. For this reason use the following table: for one (1) cup of white use

- 1 1/4 cup of barley flour.
- 1 3/4 cup of cornmeal.
- 3/4 cup of buckwheat.
- 1 cup of corn flour.
- 3/4 cup of oat flour.
- 3/4 cup of rice flour.
- 2/3 cup of potato flour.

Oat flour is made by grinding oatmeal in a coffee mill or food chopper.

A combination of flours gives a better flavor and texture than when one is used alone.

Example: Barley and oat; rice and barley.

Substitute flours require more salt and longer cooking than wheat flour.

Thickening. Corn starch, rice flour and potato flour have double the thickening power of wheat flour in making white sauce, etc.

Barley, rye and corn flour have about the same thickening power as wheat flour. Corn flour must be cooked longer.

Leavening. Rye and barley flour contain less gluten than wheat. Other flours have little or no adhesive substance. This lack may be furnished by white of egg.

More baking powder must be used with substitute flours.

## COME ACROSS!

By James J. Montague

Don't stand around and wish that you knew how to make The days of autocracy shorter; We are doing that now, and the army knows how! Your job is to dig up your quarter! And when you have done it, keep up the good work. It's easy when once you begin it. When the big war is won we'll be done with the Hun, And maybe your thrift stamp will win it.

We all wish the soldiers the best of good luck. But wishes don't ever win battles. While the cash you can spare helps a lot over there, Where the good Yankee musketry rattles. They've gone there to fight, and they'll fight till they win; They're keen for the job that's assigned them. And, while licking the foe, it will cheer them to know That you stand a unit behind them.

Whenever you look at a War Savings sign (And you'll see 'em in every direction) Go in right away (you can do it today) And add to your thrift stamp collection.

Invest all the change you can manage to spare, Get into the stamp-buying habit; You never can use what you keep, if we lose, For the Kaiser will come here and grab it.

## Office Building Up in 24 Days

Three temporary office buildings, providing working space for 6,250 persons, have been built in 24 weeks in Washington, D. C., by the construction division of the Army, without the employment of a contractor. One, a 3-story structure, 491 feet wide, with a floor space of 270,000 square feet, was ready for occupancy 24 working days after the first spadeful of earth was turned.

If you will think more of saving than of spending you will be surprised to learn that there are many things which you do not need after
