Village manager H. L. Woolhiser has just issued a circular letter to all business establishments, pointing out the restrictions placed on commercial illumination, and requesting co-operation in their enforcement.

The complete text of the order follows:

"It appearing to the United States Fuel Administrator that it is essential, in furtherance of the national security and defense, the successful prosecution of the war, and the support and maintenance of the Army and Navy, to lessen and prevent waste of fuel, and to secure an adequate supply and equitable distribution and prevent, locally and generally, scarcity thereof, and that to these ends, it is necessary that the use of fuel shall be limited and restricted in the manner hereinafter set forth.

HEREBY ADJUDGES that in his opinion the use of fuel or of light generated or produced by the use of consumption of fuel for any of the purposes hereinafter described, except as hereinafter provided, is wasteful, and that any person using fuel or light for such purposes, except as aforesaid, is engaging in a wasteful practice or device in handling or dealing with fuel, and that the use of fuel or light for such purposes except as aforesaid is prejudicial and injurious to the national security and defense, and a cause of scarcity locally and generally; and said United State Fuel Administrator.
