### Salt Superstitions

Superstitions concerning salt are among the earliest known to mankind. There is much evidence in holy writ for the ceremonial uses of it, and the old Mosaic law commands that every sacrifice of a meat offering shall be seasoned with it. Homer calls it divine, and many of the old Teuton races looked on salt springs as holy and worshiped at them. The origin of this superstition seems to be that since salt cannot corrupt it should be regarded as a symbol of immortality.
