

Rehabilitation of Armenians in Asia Minor But Not in Caucasus

Word has been received by the American committee for Armenian and Syrian relief that the instigators of an attempted massacre of Armenians in Aleppo, Syria, in the early winter have been executed by the British military authorities after a trial, and that this application of British justice has had a wholesome moral effect on the Turks. In one place, Aintab, the Turkish authorities have surrendered the rifles in their possession.

The cablegram tells also of the work of rehabilitation and repatriation of the Armenians in the territory about Aleppo, which, since the armistice, has been greatly congested by the return of thousands of refugees deported to the Arabian desert by the Turks in 1915.

There are 80,000 Armenian refugees in the area about Aleppo, according to the message, which is signed by Dr. James L. Barton, the chairman of the American committee for Armenian and Syrian relief, and by Major Stephen Trowbridge, in charge of the relief work in the Aleppo district. Of this number of refugees, it is estimated that 6,000 are Christian girls kept in Moslem houses.

The message says that the British authorities were about to rescue these girls, and that the committee's relief workers were busy preparing shelter, bedding and employment for their reception. During the month of April 260 Christian girls were rescued from Turkish harems in the one town of Aintab. They were given shelter and employment.

The faces of many of the rescued girls are tattooed with Moslem marks to show that they were Moslem property. Some of the girls, in their shame, have attempted to eradicate these tattoo marks with corrosives.

Within a fortnight, the message says, 4,000 refugees had been re-

patriated in towns westward and northward of Aleppo. About 3,000 were due to arrive from Damascus, 1,200 were in Deirzow awaiting safe conduct, and 150 were arriving daily from Kara.

The establishment of orphanages in that territory to take care of the children whose parents were massacred by the Turks is proceeding rapidly, the message indicates. Four orphanages have been established in Aintab, six in Marash, it says; 600 orphans cared for in Urfa, 1,800 in Aleppo orphanage. Opening new boys' orphanage on 10th. Relief work also is organized in Mardin, which is farther in the interior.

Industrial work has been undertaken in the Armenian villages of the Antioch region and silk production recommended by the distribution of 100 boxes of silkworm eggs to 300 families recently repatriated. In the towns of Aintab and Marash the Armenians who have money have contributed to the loan fund inaugurated by Dr. Barton for the purpose of enabling returning refugees to buy industrial tools, materials, seed, wheat and animals for farms.

Preparations are being made for the rebuilding of a large number of houses destroyed by the Turks. Employment will be found for many men in quarries which are to be started near the cities, from which stone will be obtained for the houses. Other men will be sent into the forests in the mountains to cut the necessary timber.

The message adds that the German hospital in Marash has been taken over by the American committee for Armenian and Syrian relief, and that hospitals in Aintab and Aleppo are being prepared for the installation of units sent out by the committee. Other hospitals have been established in other towns.

tire and motor. With the wheels going at such a pace it is impossible to get any traction, even if straw or twigs are placed beneath the treads and tire chains will be slipped around idly. The effect is usually to dig a deep hole and increase the difficulty.

"The correct way is to pack cloth or twigs beneath the wheels, use low gear and only speed the motor sufficiently to take the clutch without stalling. Above all things, don't race the engine. Fine cars like the Hudson Super-Six have the power to extract themselves from any difficulty if they are only given the chance."

Be Regular in Saving

Be regular in your savings. Set aside so much a day, or so much a week for the purchase of Thrift or War Savings Stamps. If you don't save regularly the chances are you will never save at all. A Thrift Stamp a day means that at the end of the year you will have \$91.25 saved up, wisely invested and drawing good interest. A Thrift Stamp a week means \$13 at the end of a year. A War Savings Stamp a week means \$260 laid away in the world's best security.

The Cemetery Beautiful

PLANTED amidst nature's own beauty, man has created a beautiful park cemetery. The sunken gardens, the winding paths, and the imposing chapel makes this spot a vision of beauty. It is indeed a fitting final resting place for our beloved ones.

MEMORIAL PARK CEMETERY and ANNEX

Gross Point Road and Harrison St., 1/2 Mile West of Evanston

We want you to visit this cemetery. You will find it interesting and attractive. You should reserve for yourself a family lot—all lots in Memorial Park are sold with full perpetual care guaranteed. Satisfactory easy payments—no interest. Don't miss this opportunity.

YOU ARE INVITED

to call or write to the main office, 703 Marquette Bldg. and make appointment to have one of our representatives call for you in an automobile to take you to and from the cemetery. No obligation. Investigate NOW!

"THRIFT WEEK" IS FROM JUNE 22-28

Sunday, June 22, Is Designated As National "Thrift Sunday;" Pastors To Preach On Saving

"Thrift Week" in Illinois, during which 4,000,000 household budgets, thrift pamphlets, pledge cards and buttons will be distributed, will be inaugurated with "Thrift Sunday," June 22. This date has been set by the Savings Division of the Treasury Department and it fits well with "Thrift Week" of the Illinois organization, which begins June 23.

Churches of every denomination will lend their aid to the national Thrift Campaign. Pastors have promised to lay before their people on Thrift Sunday the personal and patriotic reasons for perpetuating the lessons of sane saving, wise spending, and safe investment, which the American people learned through the self-sacrifice imposed by the war.

Each congregation will receive a direct message from Secretary Glass of the Treasury Department, to be read from the pulpit, setting forth the reasons why the government is fostering the spirit of thrift as a permanent American characteristic. Pastors have been asked to devote at least a part of their sermons on Thrift Sunday to the subject of saving. A letter to the pastors of all denominations, sent by Harold Bradock, Director of the Savings Division, is in part as follows:

"We are hoping you will be able to assist the local savings director on the Savings Campaign in his community, and that you will impress upon the members of the organizations connected with your church the desirability of careful saving for some worthy object. It would seem that, in the organizations which are desirous for saving for this purpose, it would be to their interest to be enrolled as Government Savings societies. The Savings and Thrift Stamp securities offered by the government are so safe and so accessible to the investor of such small amounts that we feel that they should be well adapted to the needs of any such organizations. We also feel that if the members of these organizations begin investing their savings in Government securities it will aid the members to feel that they have a more direct stake and interest in their Government, and make them more active and intelligent citizens.

"We are counting on your assistance in this great movement for peacetime patriotism."

To Direct Thrift Study

The Savings Division of the Treasury Department has announced the appointment of Dr. J. Stanley Brown of Joliet, Illinois, to take charge of the national campaign for thrift in the schools of the country. Dr. Brown is a member of the council of the National Education association, and for years has been identified with national education activities.

Dr. Brown will work through the constituted school authorities, seek-

ing to have the study of thrift, so far as possible, made a component part of the curriculum.

CARS LIKE HUDSON PULL OUT OF HOLE

"Just remembering that the slower a wheel turns the more traction it has will enable many motorists to avoid the terrors of a self-dug grave when stuck in mud or sand," says Louis J. Sherland.

"Nine out of ten when stuck in the mud will put their cars in low gear and then race their engines for dear life, shortening the life of both
