## To Ford Owners

Prospective owners who are awaiting delivery and to all future buyers of Ford cars:

The production of all good cars is far oversold and now even some of the so-called questionable imitations are scarce.

A word of warning at this time will not be amiss.

Think **twice** before you buy any car on which you can obtain quick delivery, that is, in less than three weeks.

It will save you from grief and expense.

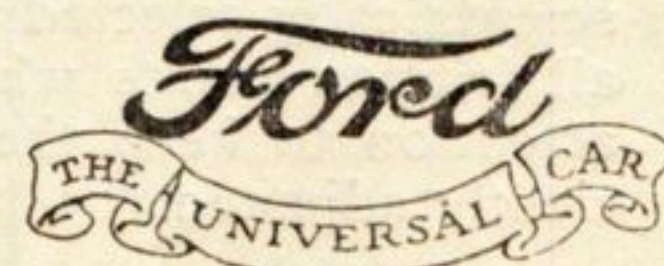

Don't let them give you more for your Ford than it cost you.

Question the value of that new car after you have owned it six months or a year.

**STICK TO YOUR FORD.**
