

POLLARD STARS JOLT LOCALS IN FAST TILT

Superior playing at all stages of the game was the cause of the Wilmette defeat Sunday afternoon by the Evanston colored team, Pollard's Stars, by the score of 2 to 1.

The colored lads played "rings" around the locals who were never in the running. Wilmette garnered only two hits during the entire pastime and contributed three errors to the Pollards' victory. Rosberg was the chief miscreant with two errors chalked against him. His costly bobbies enabled the victors to score their two runs. Borre was in a batting slump, as he struck out three times. The last time he whiffed with two down and the bases loaded. He had a chance earlier in the game to drive in a run but fanned the air.

His pitching was good but not up to the standard displayed by Cliff Adams, the colored hurler. Cliff hurt his arm and "Quality" Harris, a lad of 17, took his place in the eighth when the sacks were loaded with one down. Golbach forced the runner at third and then Borre allowed himself to fatten "Quality's" pitching record by striking out.

Golbach dropped a fly in the second inning but no damage resulted. He and Robinson caught men stealing at different times.

Schaefer also was in a batting slump as he struck out three times. He failed to strike out the fourth time as he walked. Strike outs were plentiful however and Virginia home runs were as thick as bees in a swarm. Adams' speed was so great at times that the locals found it hard to see the ball coming.

Wilmette won the game on Labor Day 8 to 7 from the Leewood A. C. of Chicago. The Leewood pitcher was spiked early in the game. Before the game A. M. Schaefer, score-keeper and announcer, resigned. He will begin duties next Sunday as score-keeper for another north shore nine.

GOVERNMENT SOON TO MAKE ARMOR AND HEAVY FORGINGS

The new naval ordnance plant at South Charleston, West Virginia, is now about to begin the manufacture of armor plate, and forgings for guns of large caliber, entirely new lines of work for government plants. The South Charleston plant is a \$19,000,000 enterprise occupying more than 200 acres of land. It will be ready for making armor and heavy forgings as soon as the assembling of the necessary working force can be completed. Disturbed labor conditions incident to the war have been responsible for a delay in getting the work started. The new plant is equipped with every modern appliance for the manufacture of its specialties, and will turn out annually 50,000 tons of armor plate, guns, projectiles, and miscellaneous ordnance forgings.

Engineers, metallurgists, and mill and machine shop men will be interested in the positions which are to be filled in the supervisory and subordinate forces. The United States Civil Service Commission has announced for this plant the need of a superintendent of melting shops at \$5,000 a year, a superintendent of forge shops at \$5,000 a year, foremen of heat treatment of armor plate at from \$10 to \$14.40 a day, foremen of heat treatment of large guns at from \$9 to \$12.56 a day, foremen of 14,000-ton presses for armor and large caliber guns at from \$11.84 to \$13.28 a day, foremen of small guns at \$8 a day, and foremen of heat treatment of projectiles at \$8 a day. Applicants for these positions will not be given scholastic tests in an examination room but will be rated on their training and experience, weighted at 90 per cent, and their physical ability, weighted at 10 per cent. Detailed information and application blanks may be obtained from the United States Civil Service Commission, Washington, D. C., or from the secretary of the local board of civil service examiners at the post office or customhouse in any of 3,000 cities. Journeyman workmen and helpers should apply direct to the labor board at the South Charleston plant.

BLANCHE SWEET LEADS AT HOYBURN NEXT WEEK

Olive Thomas, the "Hoyburn favorite," is the attraction at that theater on Friday of this week, appearing in her latest success, "The Spite Bride." Saturday's program leads with, "The Heart of Youth," featuring Lila Lee.

On Monday and Tuesday, September 8 and 9, Blanche Sweet will be the drawing card in, "The Hushed Hour." Wednesday's leading film will be, "Cock O' the Walk," with Lila Lee. The main attraction for Thursday and Friday is Eugene O'Brien in, "The Perfect Lover." On Saturday Dorothy Gish appears in, "Nobody Home."

One of the most important events billed at the Hoyburn for the near future is Douglas Fairbanks in his first "Big 4" film, "His Majesty, the American." Mr. Fairbanks, it is said, gathered the material for this film

in travels in this country, through Europe and Mexico. It is heralded as his supreme effort in the silent drama.

Bob O'Link Has Big September Program

The September program of golfing at the Bob O'Link Golf club, of which many residents of the Village are members, is announced as follows:

September 13—Semi-finals Lucian M. Williams Trophy. Eighteen holes, Medal play, three quarter handicap.

Eighteen holes, Medal play, handicap. Prizes for first low gross, second low gross, first low net and second low net.

Open only to those who have not won in any of the regular scheduled events during the season. This trophy remains the property of the club. Name of winner each year to be engraved on the trophy and such winner to receive an appropriate emblem commemorating the event. Eighteen holes, Medal play, 16 to qualify.

September 27—First round Consolation trophy. Eighteen holes, Match play, three quarters handicap. Blind Bogey event. Prizes. Choice score contest ends.

COMPARES DORRIS TO THE EXCLUSIVE EUROPEAN MODELS

"For fifteen years Mr. Dorris, president and chief engineer of the Dorris Motor Car company of St. Louis, has been building high grade motor cars with the utmost success," remarked Frank Beck of the General Motors. "The secret of this success has been the careful and thorough manner in which each detail in the construction of the Dorris car has been cared for.

"The material used and the workmanship one finds in the Dorris plant is unsurpassed in any of the American or European automobile factories.

"The motor and all other units are constructed by hand by men who have learned their trade after a long apprenticeship. You will find very few automatic tools in the Dorris factory.

"This careful building and use of high grade material brings to you a motor car that is both durable and dependable.

"An owner recently sent his Dorris car to us to be looked over," he said. "Not because the car shows any signs of wear, but because I have run it 75,000 miles in five years and naturally suppose it needs some attention." At our service shop our men could find little to do to it. In a day it was returned to the owner, marked O. K. and ready for 50,000 miles more. This is an eloquent tribute to the fineness of Dorris material and workmanship.

"In addition the beauty exclusive body creations reminds one of the cars seen in pre-war days in the Bois at Paris or Hyde Park, London.

DRISCOLL IS MADE FOOTBALL COACH

Paddy Driscoll, known to the north shore as one of the greatest football players in the history of Northwestern University, quarterback on the all-American service eleven last year, was named assistant football coach of the university last week.

Director James Lee further announced that the athletic committee of the board of trustees approved this appointment and the appointment of Norman Elliot as basketball coach and tutor of the freshman football team. Elliot is a graduate of Illinois Wesleyan and coached the Northwestern quintet two years ago.

Delightful Trips for Week-Ends

It is delightful now at the beautiful resorts of Wisconsin and Michigan. Why not take this opportunity at the lagging end of the summer to enjoy a short trip into this famous resort district.

Resorts like Oconomowoc, Cedar Lake, Beaver Lake, Waukesha, Watertown, Plymouth, Crystal Lake, etc., afford splendid opportunities for a short vacation. Most of these vacation spots are within easy reach by electric lines from Milwaukee.

Or if you want to reach the resort district of Michigan, you can make convenient connections at Milwaukee with the lake steamers.

Travel Via the North Shore

Use the North Shore when travelling to Milwaukee where connections can be made for Wisconsin or Michigan resorts. Fast all-steel limited trains for Milwaukee leave Winnetka every hour daily, beginning at 6:29 A. M. on week days and every 30 minutes on Saturday afternoons, Sundays and Holidays. Splendid dining car service is maintained.
