

New Trier Sport Notes

ALUMNI TO BE OPPONENTS FOR NEW TRIER SATURDAY

New Trier will receive its first grilling Saturday afternoon when they play the Alumni at 3 o'clock at the school field.

Coach Schneider is confident of giving the graduates a stiff battle and intends to beat them if such a thing is possible. His boys have been working hard all week to get into a presentable shape and seem to be able to hold their own against the elder players. They have the real New Trier spirit and all they ask is a big crowd to come out and root in the good old way.

The Alumni seem to be more than sure of romping away easily with the game. It is expected that Jimmy Patterson, who was formerly a star player with New Trier and who is playing full-back for the freshman team at Northwestern, will be in the line-up.

Swimming Practice

Coach Jackson is well pleased with the host of material that appeared for swimming practice this week. A good number of last year's squad are back and he expects them to be the nucleus of the team.

Tennis Tournament

Contrary to a story on this column last week the tennis tournament failed to open Monday owing to several delays. It opens today with some of the stars competing in fast tilts.

Football Schedule

The schedule for New Trier in the football line is as follows: October 4, Austin at New Trier (practice); October 11, Waukegan at New Trier (practice); October 18, Deerfield at New Trier (first league game). Besides the Deerfield game the following league games are scheduled: October 25, Oak Park at Oak Park; November 1, La Grange at New Trier; November 8, Proviso at Proviso; November 15, Evanston at New Trier.

As New Trier has the most promising team seen for several years the students feel confident of a majority of victories if not a complete "slam."

Fast Soccer Team To Represent New Trier

The soccer team is a good one according to present indications. The boys, although some of them are inexperienced, were practicing patiently this week for the first game with Lake View today. Although it will only be a practice game they are going to play their best in order to be ready for the Saturday game with Carl Schurz, another preliminary. With Patterson coaching, and the New Trier spirit imbued in them they feel certain of showing up a bold front during the entire season.

It is the fastest team that has represented the school in some years.

METHODIST BIBLE SCHOOL GRADUATES 68 STUDENTS

Graduation exercises at the Wilmette Methodist Church Bible school, will be held Sunday, September 28, at 9:45 o'clock. The following is a list of graduates.

Glass Tells People To Save

"There are just as compelling, if not more pressing, reasons than during the war for urging our people to conserve and augment the capital resources of the country by prudent spending, systematic saving and wise investment," said Secretary Glass.

ORGANIZATIONS TO AID CO-OPERATE TO AID STRICKEN PEOPLE

In accordance with an agreement made between the National Tuberculosis association and the American Jewish relief committee, the two organizations will co-operate with each other this fall and winter in campaigns for funds to aid stricken people.

The drive of the American Jewish relief committee, which is for \$25,000,000, will be held in the fall. The National Tuberculosis association campaign, which is for the sale of Red Cross Christmas seals, will be held in December just before Christmas.

The Jewish relief committee aims primarily to help Jewish people in the zones devastated by the Europe-

United States. Over one hundred and fifty thousand deaths in the United States each year are due to tuberculosis. The white plague claims most of its victims between the ages of 16 and 45. Those are the years in which the average person is a paying factor in the economic life of the nation. Tuberculosis kills producers.

Through this co-operation, the Red Cross Christmas seal, which for ten years has stood for the battle against tuberculosis and the educational campaigns against the disease, will carry its influence across the seas, because the American Jewish relief committee will be called upon to help stamp out tuberculosis in Poland, Serbia, France and other maimed countries.

The success of the Red Cross Christmas seal sale will mean greater activity than ever before in the fight to save the army of tuberculosis men, women and children in the

United States. Over one hundred and fifty thousand deaths in the United States each year are due to tuberculosis. The white plague claims most of its victims between the ages of 16 and 45. Those are the years in which the average person is a paying factor in the economic life of the nation. Tuberculosis kills producers.

Flea in Amber

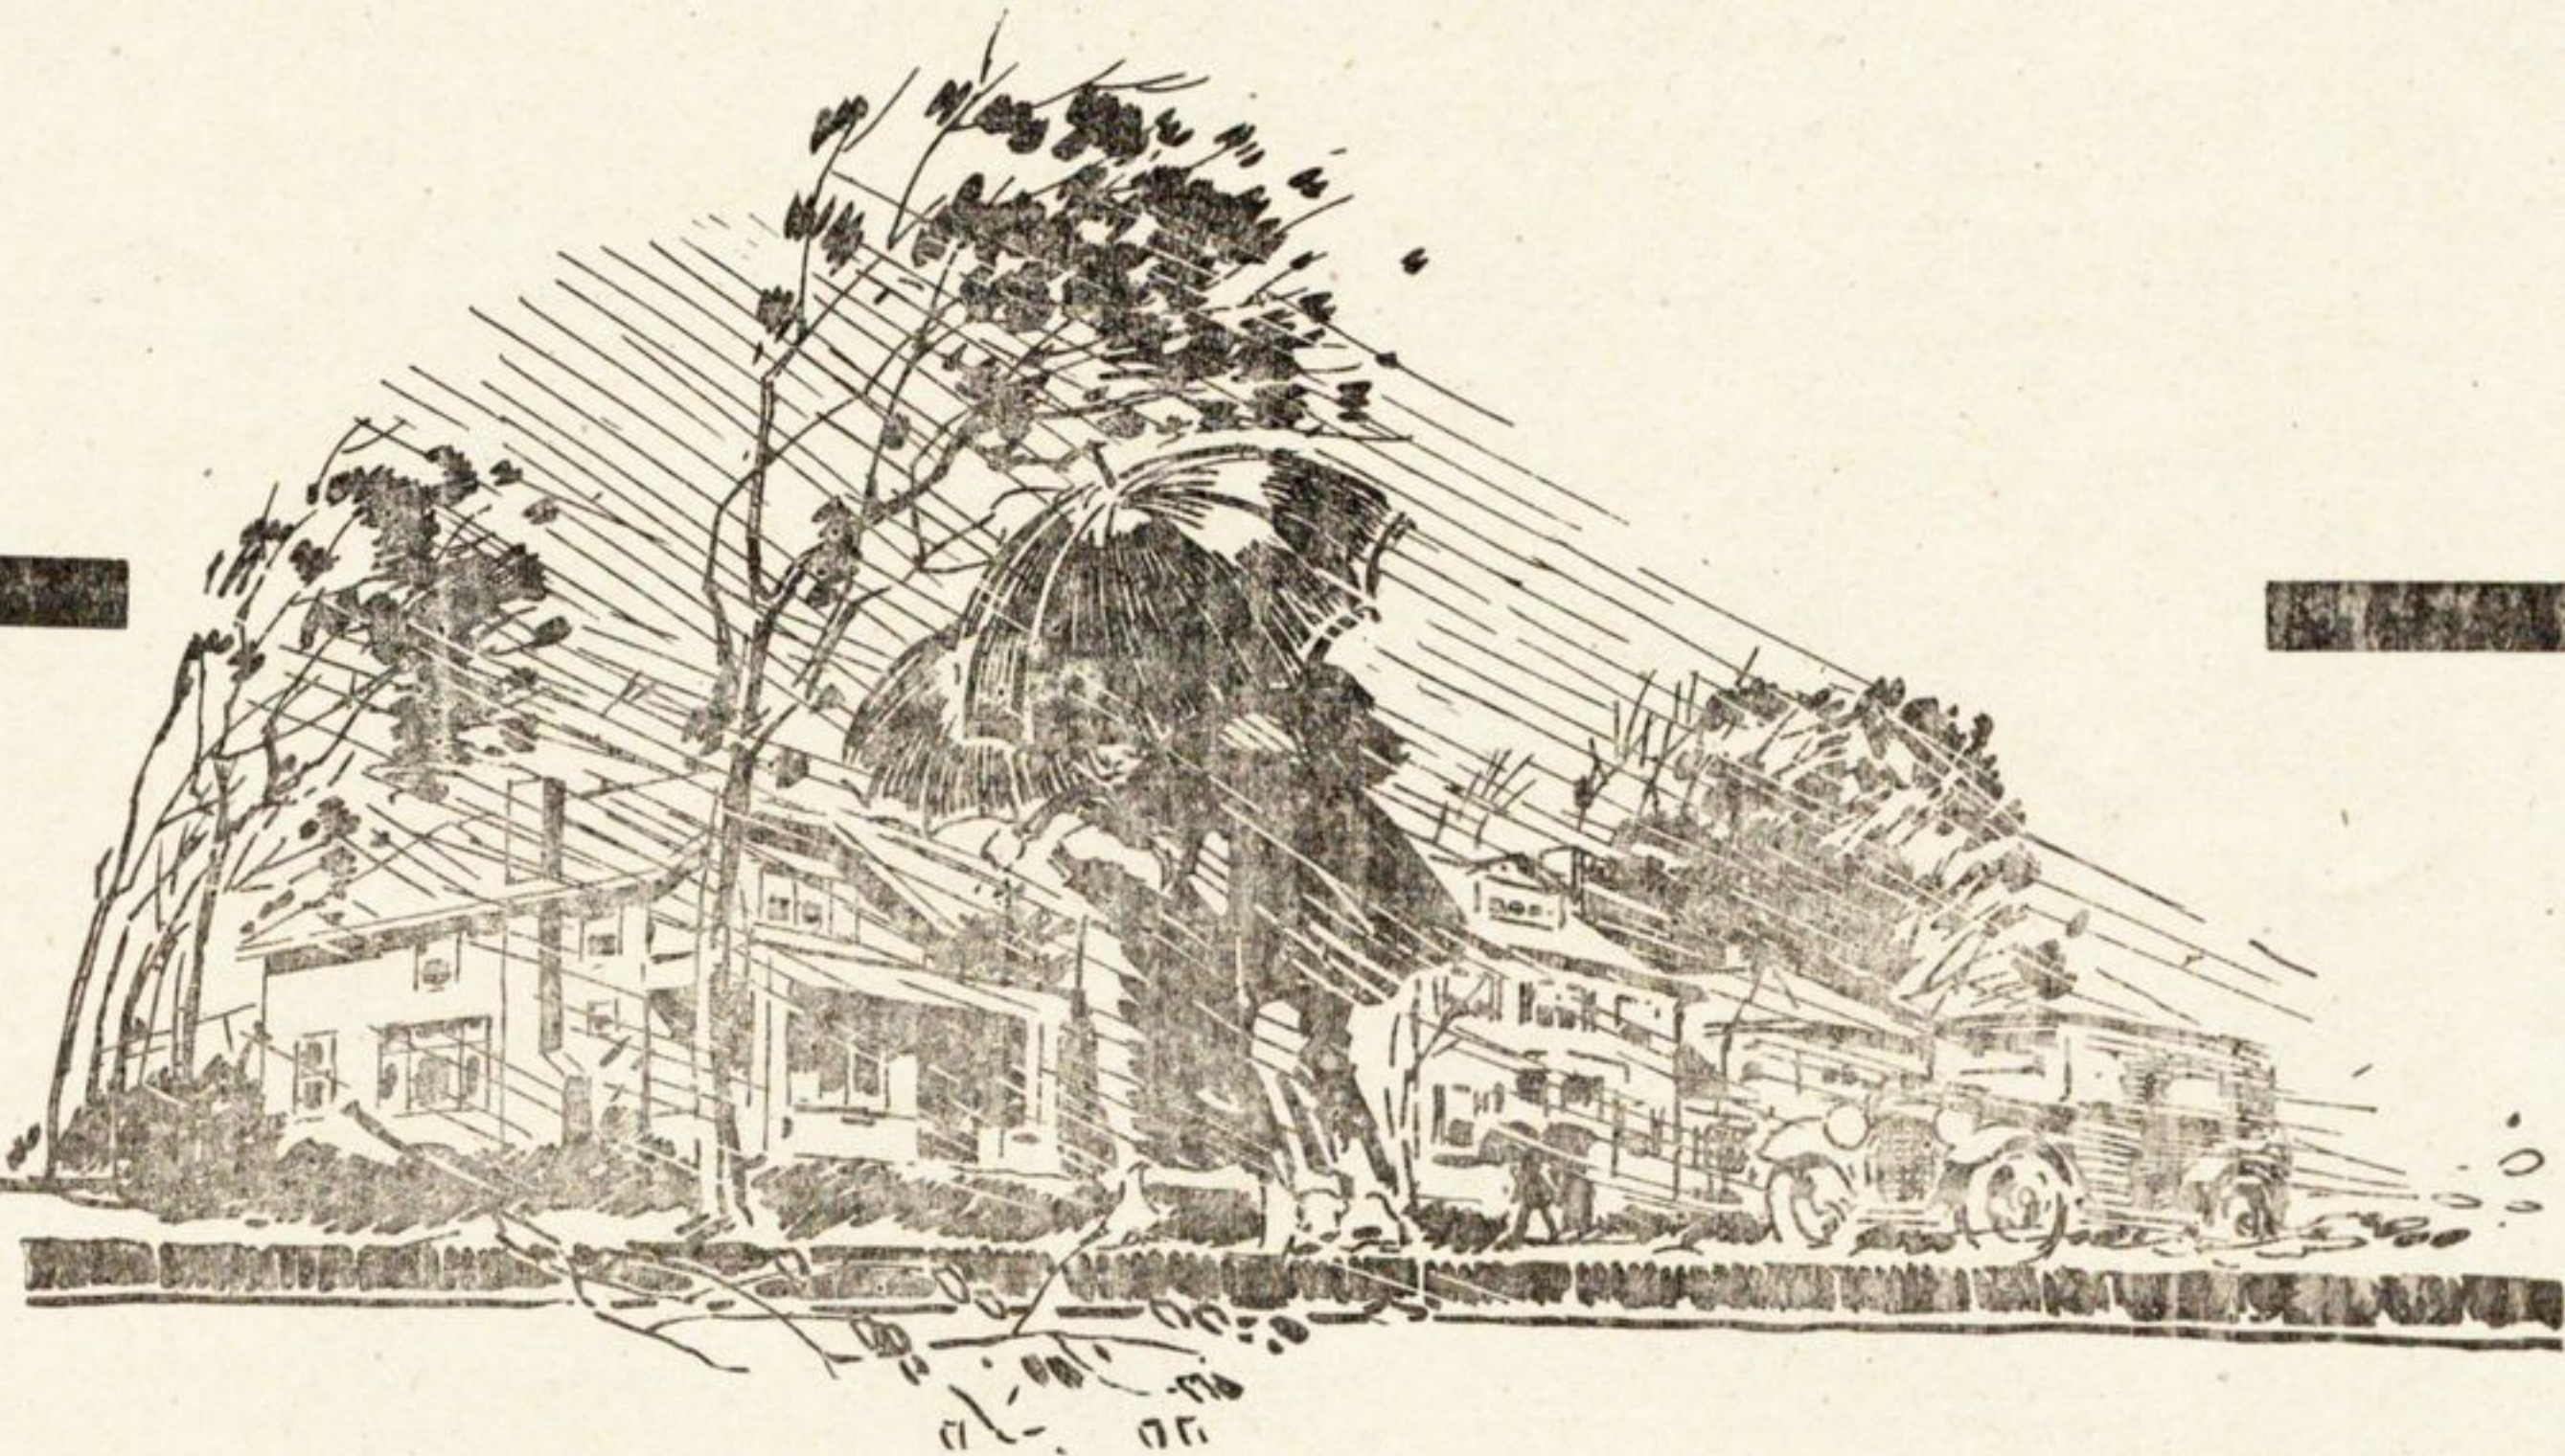

The history of the flea would seem to go back many centuries, but the only fossil remains of a flea that have so far been found is a single insect in a bit of Baltic amber. The flea is admirably preserved by its semi-transparent surroundings, and is in the collection of Professor Clebs.

"THE straw that broke the camel's back,"
How well the motto bears
Upon the housewife's daily life,
Its burdens and its cares.
But, that is not the case with me;
Like chaff my burdens blow
Into a state of peace and ease,
Before—

SAPOLIO

"Foul Weather"

These Are The Days Of Heavy Stress,—days of big changes that reach every business, every home. The phrase "normal conditions" has been made meaningless. Practically all business and home finances are in a state far from what was "normal" before the war. What peace-time "normal" will be nobody knows.

But In Spite Of Discouraging Uncertainties which multiply our difficulties in serving the public well, we are coming up out of the cyclone cellar into which the war forced all peaceful pursuits:

In These "Foul Weather" Days there are some features of our service which are under our control; and some which are not. High costs and labor unrest are conditions beyond our control. They affect our business vitally. Our job is to prevent them from interfering with the high standard of service which it is our ambition to maintain.

We Are Going To Try To Tell You something about this "job",—nothing technical or complicated,—just a short series of simple printed talks with our customers in the good cause of mutual understanding. We are constantly striving to understand and provide for your needs. We want you to know something about ours.

Our next statement will appear in this newspaper next week.
