**SCHOOL CHILDREN TO HEAR SAFETY FIRST LECTURES**  
 Safety First principles will be brought to the attention of Wilmette school children Monday, October 13, when Mrs. Florence Riddle, lecturer on public safety, will speak at the Village schools. The lecture is in connection with a Safety First campaign now being conducted at the joint expense of the Chicago, North Shore and Milwaukee Electric railway and the Elevated railway of Chicago. Mrs. Riddle travels throughout the United States speaking in schools and at public gatherings in the interest of public safety. The Monday lectures will be the second to be given in Wilmette schools. Mrs. Riddle spoke in Evanston schools this week and will in the near future address the children of Kenilworth, Winnetka, and Glencoe. Lectures will also be given in the Wilmette parochial schools at a later date.

## Elgin Wrist Watches

The quality of the Elgin speaks for itself. You are sure to find the one you want in our selection.

**A. Rodelius & Son**  
**JEWELERS**  
 827 Davis St. Evanston

**Not Your Money But Your Good Will**

We want the good will of every car owner in this town.

We want everyone to say what lots of folks say now—“Willard? That's where you get a square deal and value for every dollar.”

We'd rather have your good will than an extra dollar or two on a repair job.

We'd rather sell you a battery that will give longer and better service than to make a living by repairing poor batteries.

Of course good repair work and good batteries cost more, but we believe they make friends and buy good will.

Let's get together.

## Rotating System and Supervision of Play Important Factor in Winnetka School Work

“The children nowadays seem to go to school just to play,” remarked a passerby the other day as he saw the perpetual recess going on in one of the school playgrounds. The remark was repeated by a friend to Superintendent C. W. Washburne. He laughed and replied:

“I do not wonder the man thought so. He sees a considerable number of children outside of each school playing all day long. He doesn't go inside and see that the great majority of children are inside quietly at work. Neither does he see that the group of children that is playing is a constantly changing one. The children in the Winnetka schools get no more play time than in any good school system, not much more, in fact, than the old fashioned recess of the district school of fifty years ago. But instead of getting it all at once one group or grade gets its recess at one period, another the next period, and so on through the day.

This system of rotating the recess

makes it possible to supervise the children's play much more adequately, and makes physical education adapted to the needs of individual pupils a possibility. Every child has the opportunity of entering into the games that are played and the physical exercises which are prescribed. These games and exercises can be adapted to the particular grades which are out at any one time. The system is therefore much better than the old time one of turning the whole school loose for twenty minutes in the middle of the morning and again in the middle of the afternoon.

“Moreover, the play period is not merely a recess. It consists of actual work in physical education. No part of education is more important than the training of healthy, capable bodies. It is with this aim in view that our physical education supervisor, Mr. Clarke, and his staff have organized their rotational play periods and their carefully worked out courses in physical education for the children on the playgrounds.”

## MEMORIAL WINDOWS TO HONOR 3 HEROES

Franklin Bellows, Purcell Macklin and Manierre Ware, three of Kenilworth's heroes who lost their lives in the Great World War, are to be honored by the Sunday school of the Kenilworth Union church where they attended before enlisting. Three Memorial windows are to be erected in the church Sunday school room as an expression of appreciation of their valor and splendid character and as an inspiring reminder and incentive to the school members to

aspire to the high ideals established by them.

### Select Beautiful Designs

Three beautiful and appropriate window designs have been approved by a committee in charge of the movement, parents of the children in the Sunday school and officers of the church. The cost of the three windows is estimated at \$500. The Sunday school has already contributed \$25 from its treasury. The balance is to be secured by voluntary contribution from church members.

Miss Virginia Ridgway, treasurer of the Sunday school, is receiving contributions.

The committee in charge of the project is composed of Mrs. S. Y. Ball and Mrs. Roy C. Hulbert.
