

# Social Happenings on the North Shore by Ruth Risley

A SMALL REPRESENTATION of the membership of the Winnetka Woman's club was in attendance at the business meeting held on Tuesday afternoon in the clubhouse. Following reports by the chairmen of the various committees and departments, Professor William B. Owen, head of the Chicago Normal Training School, and one of a committee of five, recently appointed by the United States government, to consider "Educational Reconstruction," gave a most interesting talk on "Education," and its absolute necessities which up until the time of the war, had not been fully realized by the general public. Professor Owen presented so many interesting sidelights on this situation, as it has come before the government in the past two years, that it is impossible to begin to quote him.

Next Thursday afternoon, at the regular club meeting, the discussion of this same subject is to be continued by Superintendent Carleton W. Washburne, who will deal in an interesting way with the "Educational Problems in Winnetka."

# When You Buy a Car

AN automobile manufacturer recently announced this year's car with one hundred changes. It perhaps needed them and a hundred more as shown by usage.

There are so many different "makes" of cars now on the market and the manufacturers so indifferent to the complaints of the buyer that it behooves the individual to place his confidence in the DEALER.

I am pleased to represent a car and a manufacturer, both of which have stood the test of time, use and abuse and still give more for your money than any other. In addition to the original car you will find here the only completely equipped service station and stock of repair parts between Chicago and Highland Park.
