A Pot of Ink

'Tis much better to be on the road "hitting on all four" with an "Exide" Battery in your car than to be leaning over a counter arguing about an adjustment on a battery that you were told was "Just as Good" and "Fully Guaranteed." We believe that you would rather spend your money, not in the expectation of adjustments but in the expectation of service. You'll agree that what a manufacturer failed to accomplish in the factory can't be repaired with a pen and "A Pot of Ink."
