

Village Affairs

Sunset Road Station

Residents in the South East section of the Village will be interested to know that the Council will consider at its next meeting on Tuesday evening, December 2, the question of the advisability of allowing the Chicago, North Shore and Milwaukee Electric railroad to discontinue the Sunset road station. The Council will be very glad to listen to any arguments in favor of or opposed to this proposed change.

This matter is considered to be of great importance, inasmuch as the platforms at the Sunset road station are dangerously narrow, because of the limited space between Wilson street and the right of way of the railroad. The Electric road has agreed, in case the discontinuance of this station is allowed, to improve the station facilities at Indian Hill, and agrees to replace the Sunset road station at any time in the future, when the Village so desires.

Test of New Fire Engine

The result of the test made on November 10 complies fully, with the requirements of the Board of Underwriters. It will be noted that whereas the pump is guaranteed to deliver 750 gallons at 120 pound pressure, under test the delivery was as high as 803 gallons per minute, with a pressure varying from 130 to 140 pounds.

Council Authorizes Additional Insurance

Because of the increased cost of building, the Council has decided it to be advisable to increase the insurance carried on the Village Hall from \$14,000 to \$25,000.

Bertling Lane Question Decided

At the Council meeting on Tuesday evening, the Council decided that it will be necessary to carry out the paving work at the south end of Bertling lane, in accordance with the specifications, rather than to make certain suggested changes which the property owners in the vicinity have requested. While these changes seemed very desirable, the Council took the position that to make any alteration whatever in the plans for the pavement at this time would necessarily jeopardize the legality of the entire improvement.

At the same time the Council decided it to be wise to reject the petition of William F. Tempel and company for certain changes in street lines in the vicinity of Winnetka avenue and Bertling lane. The Council suggested to the property owners in this vicinity that they co-operate in presenting a plan to the Council providing for a unified improvement in the vicinity of the Indian Hill station.

At recent Council meeting two new subdivisions have been approved by the Council. One being that of the Thorne property, bounded by Willow, Myrtle, Fir and Fairview in the South East part of the Village.

The other subdivision is known as Winnetka Heights, and is located north of Pine street between Rosewood avenue and Locust street, the property being owned by the Chicago Title and Trust company of Chicago.

PLANS FOR ENLARGING THE HAMILTON CLUB ARE OUT

North shore members of the Hamilton club will soon receive notice of the plans for additions to their club building. A five-story addition is to be made to the present ten-story part and eleven stories are to be added to the four-story part of the club. The building is to be of steel, concrete and hollow tile, with a front of pressed brick and terra cotta. Additional elevators are to be provided. It will have 130 sleeping rooms, a larger dining room and grill and at least ten private dining rooms and a large waiting and retiring room and restaurant for women.

Enlargement of the kitchen to double its present capacity, and ball courts and a large gymnasium, with running track on the top floor, bowling alleys on the entire fourteenth floor are planned. The additions are estimated to cost \$500,000. Robert W. Dunn, chairman of the refinancing committee, states that a Chicago bond house has subscribed for \$500,000 of the bonds for enlarging the club.

MARVELOUS BIRDS

"Speaking of hens," said an American traveler, "reminds me of an old hen my dad had on a farm in Dakota. She would hatch out anything from a tennis ball to a lemon. Why, one day she sat on a piece of ice and hatched out two quarts of hot water!" "That doesn't come up to a club-footed hen my old mother once had," said one of his hearers. "They had been feeding her by mistake on sawdust instead of oatmeal. Well, she laid twelve eggs and sat on them, and when they were hatched eleven of the twelve were poopedockers."

NORTH SHORE FIRST TO GET XMAS SEALS

Henry R. Hale, Cashier of the Winnetka State Bank, Has Honor of Placing First Order For Red Cross Seals

Henry R. Hale, cashier of the Winnetka State Bank, has the honor of placing the first order from Cook county for Red Cross Christmas seals, backbone of the battle against tuberculosis. Mr. Hale's order for 200 seals was received Monday at the offices of the Chicago Tuberculosis Institute, 1305 Hartford building.

Under the leadership of James F. Phillips, County Campaign director, and Mrs. Annie Peaks Kenny, formerly of the American Fund for French Wounded, the large organization which will handle the seal sale December 1 to 10 has been practically completed. It is estimated that about 2,000 women will be at work, all of them volunteers.

Establish Headquarters

Through the courtesy of the Inland Rubber company, which holds a lease on commodious space on the first floor of the Lamont building, Randolph street and Michigan avenue, campaign headquarters will be established there. A complete exhibit showing what the Chicago Tuberculosis

Institute is able to accomplish through the sale of the Red Cross seals will be installed. There will be noon meetings also, at which prominent physicians will make addresses.

To emphasize the importance of a large seal sale this year, the Institute calls attention to the fact that there are approximately 60,000 cases of tuberculosis in Cook county alone which need attention. About 150,000 persons die of tuberculosis in the United States every year, although the disease is both preventable and curable.

CALLS NORTH SHORE LINE BEST ROUTE FOR SHOPPERS

Superintendent of Transportation Simons Points Out Advantages to Patrons

Superintendent of Transportation J. W. Simons of the Chicago, North Shore and Milwaukee Electric railway, this week placed leaflets and timecards in households and offices throughout the north shore calling attention to the excellent service that railway is determined to afford the Christmas shoppers of the north shore.

The leaflet points out in brief that "trains of the North Shore line run to Chicago at 30-minute intervals throughout the day and evening, circling the Elevated Loop and discharging passengers at the doors of the big retail stores in the shopping

district, the principal hotels and theaters."

Elimination of bus-rides, transfers and change of cars is set forth as another point in favor of travel on the North Shore line, Superintendent Simons explains. "This service, he says, "should also appeal to theatergoers and music lovers during the Grand Opera season in Chicago. Persons attending Grand Opera will be discharged at Congress street at the very doors of the Auditorium theater."

WOMAN'S CATHOLIC CLUB HOLDS GUEST DAY NOV. 28

Friday, November 28, will be Guest Day at the Woman's Catholic club of Wilmette.

The program has been arranged by Mrs. Frank Jones, and promises to be most interesting. Dr. Preston Bradley, the speaker, is to have for his subject, "Joyce Kilmer, the poet", and the musical program is to be given by the Reverend J. E. Bourget, Diocesan Musical director.
