

## Episcopal Churches of North Shore Boost Annual \$500,000 Church Work Fund

Announcement that the annual sum of \$500,000 for the next three years is to be spent in Chicago diocese by the Episcopalian church, has been received with interest by church and social service workers of the Village. The official quota just made public by Bishop Charles P. Anderson, reveals a budget which covers development and extension of social service, new missions, charitable work and religious education.

Fifteen separate projects are to be financed by the campaign in this diocese. An original feature in community service which is expected to cost approximately \$100,000 will be a community house in the nature of a "social clinic" in connection with the Western Theological Seminary at 2720 Washington Boulevard, Chicago.

The full budget as finally approved by the two Bishops, the Diocesan campaign committee and the Diocesan Board of Missions includes other social service work such as that in the penal institutions of Cook county, and follow up activities among discharged prisoners. Seven thousand dollars a year for three years is sought for this item.

Building projects in both urban and rural missions will take \$34,350 a year over the three year period. Additional rural work, specially planned to interest farming communities and small towns will be given \$24,000 as its total share of the funds to be raised.

Rescue work among men is to be given new impetus by the erection of a \$36,000 building to shelter the work of the Cathedral Shelter of the Episcopal church now at 937 West

Randolph street, Chicago.

Rescue work among girls and women under the charge of the Sisters of St. Mary in the Mission House at 850 Washington boulevard is to be augmented by the erection of a \$51,000 addition. Planned work among orphan girls is planned on a similar scale, at St. Mary's Home for Children at 2822 Jackson Boulevard.

Fifty-seven thousand dollars a year is to be devoted to the following: support of the Church Home for Aged Persons at Ingleside Avenue and Fifty-fourth place; St. Mary's Home for Children; Providence Day Nursery at 3052 Grattan Avenue; Girls' Friendly Society Lodge, St. Mary's Mission House, and to the building of a house for the Suffragan Bishop. A part of this fund also will be devoted to the church's share in the upkeep of St. Luke's hospital and Lawrence Hall, the home for boys at 2850 Lawrence Avenue.

It is also planned to devote \$16,000 a year to raising the salaries of missionary clergy to a minimum living standard. Smaller amounts will be accorded to additional work among the negroes of the city; additional clergymen for new fields; trained social workers; additions to staff and equipment in a few parishes; and support of the Western Theological Seminary.

The intensive drive for total pledges of \$1,500,000 in the Chicago diocese to be paid up at the rate of \$500,000 a year will occupy the week of December 2 to 14. The funds will be divided equally between the diocese and general work of the church, outside the regular annual budgets of the parishes.

D. C. To establish a successful carrier pigeon system it will be necessary to lay plans during the coming winter to have the posts properly located and get the birds acclimated and begin their training. Flights of 600 miles in a single day have been made, while a distance of 120 to 200 miles means a two or three hour flight for the average bird. The distance which would be covered in forest service work are considerably less than this, in most instances the flights from fire fighting areas to headquarters being less than fifty miles. The value of the birds in mountainous regions where travel is difficult would be especially great.

### JOHN QUINCY ADAMS ESTATE CUT INTO LOTS

The need for housing is no longer respecting historic sites—an old estate in Quincy, formerly owned by John Quincy Adams, is to be cut into house lots, thus inaugurating a land development scheme which will call eventually for the construction of about 1,000 houses. This is called the Adams estate development, the property involved having been originally owned by the former president and was sold by a descendant after being in the family for generations. It contains more than 240 acres of land with two miles frontage on Quincy bay, part of Boston harbor, assessed for \$267,000. The proposition involves five miles of new streets with the usual accessories.

The Constitution of the United States requires that a census of the United States be taken every ten years. It is by this means that the apportionment of members of the House of Representatives is made as to states.

An enumeration of the mines and quarries of the United States was made for the first time in 1840.

## Notice of Election

Notice is hereby given that on Saturday, the Sixth day of December, 1919, a special election will be held at the Horace Mann School for the purpose of electing two members of the Board of Education for District No. 36 of Township Number 42, Range 13 East, in Cook County, Illinois. The polls will be opened at one o'clock P. M., and closed at six o'clock P. M.

By order of the Board of Education.  
Dated this 25th day of November, 1919.

GERTRUDE C. LIEBER,  
Secretary of the Board of Education.

## NEW TRIER HIGH NOTES

### "DUKE'S" SCHEDULE FOR BASKETBALL TAKES FALL

After going to all the trouble of composing a preliminary basketball schedule and getting everyone excited thinking of the good times they'd have at the games "Duke" Childs made a statement this week to the effect that his improvised schedule is "spurlos versenkt".

"Duke" was willing to play all the games and so were his proteges. But it seems that the particular dates handed to each team that was honored by a challenge from "Duke" was filled by some other event. Of course most of them are willing to battle the New Trier quintets but they find it impossible to fill the pre-arranged schedule.

Lake View will not appear Saturday evening and no other games have been or will be scheduled for the evening. But games are being arranged for next Saturday, December 6, which is some consolation both for "Duke" and the prospective spectators.

### PROMISING TRACK TEAMS

New Trier will have a representative track team this year and at present the outlook is for a strong team wearing the school colors.

The heavyweights are crippled at present due to the football games which temporarily disabled some of them. The lightweights and featherers are in good shape, however, and no doubt will show up pretty strong when the big test comes.

### FRESHMEN ECHOES

The first issue of the ECHOES came out Wednesday and was edited by the freshmen who filled the pages with bright and interesting matter throughout.

### Says Women Must Have an Avocation

A plea to the women of the north shore to "attend the movies rather than spend too much time with their children or go to dances rather than be too much the slaves of their households," was given recently by Miss Helen Bennett, who spoke at the Woman's club of Evanston.

Miss Bennett is manager of the Collegiate Bureau of Occupations, and chose as her topic "Vocations and Avocations." She told the club women that they do not play enough.

"Men are far wiser in this matter," she declared. "They know the value of recreation and it does not take them long to join a golf club if they see that it is going to do them some good. Women are inclined to be too much bound up in their homes, which are essentially their vocations, so they should choose something for an avocation. The home is man's avocation and his business is his vocation."

"College women do not know how to play in great many cases.

### PATTERSON AND SNYDER GIVE IMPRESSIVE TALKS

Accompanied by impressive and dignified speeches by their coaches, Snyder and Patterson, 14 football men and 17 soccer players were presented with the school emblem Monday morning. The audience of over 800 students and the faculty witnessed the ceremonies.

Coach Patterson's speech made a notable impression upon the audience and he has been kept busy all week accepting and thanking people for the compliments which he deserved.

His commendable showing may be laid to the fact that he will occupy his new home some time this week. He even beat "Andy's" time, 'tis said.

### NEW TRIER NATATORS TO SWIM AGAINST DETROIT

New Trier's natators will journey to Detroit Saturday morning, December 6, and in the evening will compete against the Detroit Northern High school swimmers.

The meet promises to be interesting and, as the New Trier boys have not lost a meet for several seasons, prospects are bright for more laurels at the Michigan tank.

The Michigan tank will make the trip are W. Schmedtgen, W. Weld, R. Low, W. Kerr, H. Jones, D. Carpenter.

### INTRA-MURAL SOCCER

The Suburban league football and soccer schedules ended recently but that will not prevent the annual Intra Mural games which begin Monday.

Eight teams will compete in the event which will run on the "elimination system". The winning players will each be awarded a gold medal for their prowess.

"Unless they have regular hours of recreation they do not give this the proper time.

"When I began my collegiate bureau work six years ago I thought that the college girls were receiving a very unsatisfactory education. Then I traced the trouble to the high schools, then through the grades to the kindergarten and found the source in the home.

"We have not been giving proper attention to the after-school ambitions of our boys and girls. Most of the college young women thought they had no time for play. When I asked them when they play they looked blankly at me. Now they are being taught the value of organized play."

### NAVY CARRIER PIGEONS FOR FOREST FIRE FIGHTING

The carrier pigeons and equipment of the navy department will be available for the department of agriculture next season for conveying messages from forest fire fighters "at the front" to headquarters, says a recent communication from the department of agriculture, Washington,

The ideal way of washing delicate things is the way the Eden washes everything.

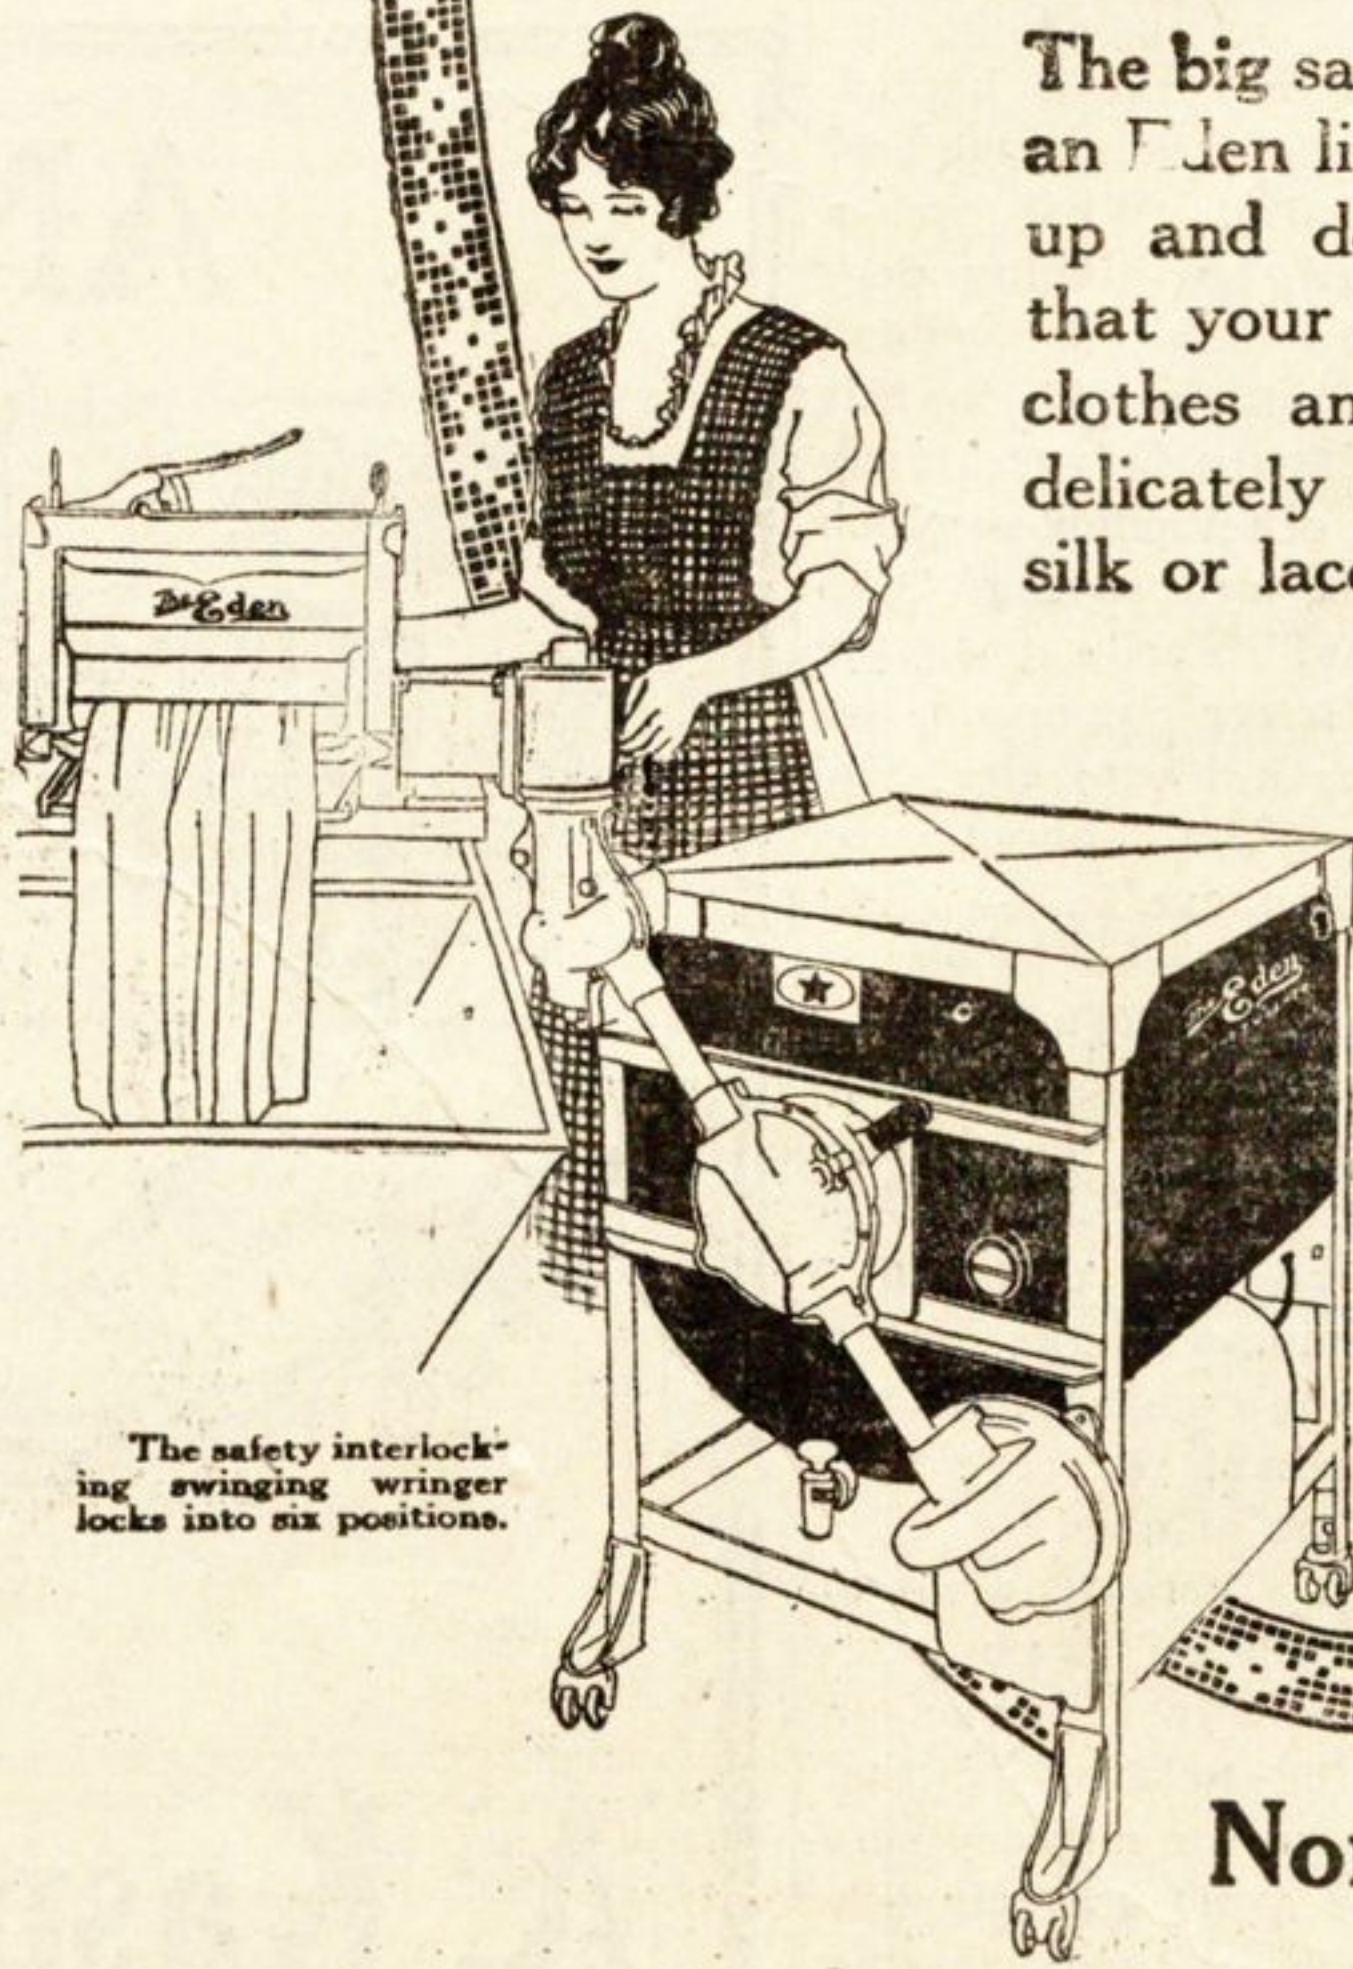

# Free Trial in your own home

## The Eden

Try an Eden in your own home next wash day without obligation or expense. Try an Eden with your own washing. There's not the slightest obligation to buy it after you try it unless you want to.

Whether you do your own washing or hire a laundress, you need an Eden to make your clothes wear longer.

The big sanitary zinc cylinder of an Eden lifts everything so gently up and down through hot suds that your heaviest blankets, your clothes and your linens are as delicately cleaned as the bits of silk or lace you wash by hand.

The safety interlocking swinging wringer locks into six positions.

Try this great labor and money and clothes saver in your home. Phone or write or see us for free demonstration. After trying an Eden at home you can buy one in the same easy time-payment way that Liberty Bonds were bought.
