

### Winnetka School Problems

The Weekly Talk is establishing a question and answer column for the Superintendent of Schools. Any people who would like to ask questions concerning the policy or conduct of the schools are welcome to send them either to the editor of the Talk or directly to Mr. Washburne. Such questions as are likely to be of general interest will be answered in this column.

The following are some of this week's questions and answers:

Q.—Why is the new school building to be placed way off in the Skokie when it might be placed so much nearer the homes of most of Winnetka's children?

A.—The new school site is only about three blocks west of the actual center of school population in Winnetka. A glance at the map in my office on which a pin represents the location of each child in Winnetka will show that this is the case. The center of population is approximately at Elm and Provident streets. The only vacant space large enough for an intermediate school within a short distance of this center of population is the site chosen by the Board of Education. The Horace Mann school is almost as far east of the center of population as the new school is west. There is no place in Winnetka available for school use which is as centrally located as the site chosen.

Q.—Why do you object to excusing children from the play period when that comes at the beginning or end of the school session?

A.—The so-called play period is really physical education period. We consider physical education as important in the school curriculum as training in the three r's. To the casual observer the children appear to be merely playing upon the school grounds. But if one will take time to go over the carefully planned course of study which Mr. Clarke and his associates are putting into effect on the school grounds, he will realize that this is no mere period of idle amusement. It is an important part of the child's education.

Q.—When will the Christmas vacation begin?

A.—The Christmas holidays will last from the afternoon of December 19 to the morning of January 5.

### SHOW RESULTS OF FIRE ENGINE TESTS

Village Manager Woolhiser Announces Results of Several Tests Made Recently

Some of the readers of the Talk will be interested to learn of the results of recent tests of the new \$11,500 American La France Fire Engine Company apparatus purchased by the Village of Winnetka. The official results of the tests are set forth as follows:

**Suction from Sanitary District Canal**  
Two leads to Siamese with 1 3/4 inch nozzle. Pressure at engine 130 to 140 pounds. Average pressure at nozzle 78 pounds. Average delivery at nozzle 771 to 803 gallons per minute.

Same with 1 3/8 inch nozzle. Pressure at engine 163 pounds. Average pressure at nozzle 120 pounds. Delivery 613 gallons per minute.

Same with 1 inch nozzle. Pressure at engine 221 pounds. Average pressure at nozzle 200 pounds. Delivery 410 gallons per minute.

Pump operated 2 1/4 hours nearly continuously, without trouble.

**Tests Taking Suction from Hydrants**  
Location, Maple and Oak streets.

Three leads to Siamese with 1 5/8 inch nozzle. Pressure at hydrant when closed 65 pounds. Pressure at nozzle without pump 25 pounds. Pressure at nozzle with pump 100 pounds. Delivery with pump 783 gallons per minute.

Location, Sheridan road, at nozzle three leads to Siamese with 2 inch nozzle. Pressure at hydrant when closed 65 pounds. Pressure at nozzle without pump 18 pounds. Pressure at nozzle with pump 58 pounds. Delivery with pump 920 gallons per minute.

Sheridan road at Maple street. Three leads to Soamese with 1 5/8 inch nozzle. Pressure at hydrant when closed 65 pounds. Pressure at nozzle without pump 20 pounds. Pressure at nozzle with pump 120 pounds. Delivery with pump 816 gallons per minute.

Sheridan road at Maple street. Two leads with one nozzle, 1 inch. Pressure at nozzle with pump at both 120 pounds. Delivery with pump 968 gallons per minute.

Sheridan road at Maple street. Three leads with one nozzle, 1 inch. Pressure at nozzle with pump (at each) 80 pounds. Delivery with pump 961 gallons per minute.

The Fourteenth Decennial Census is to be taken during the month of January, 1920.

### Alumni Trim High Boys in Two Games

The New Trier High School Athletic department teaches its boys to play their different games right. It also teaches them the benefits of keeping in first class condition. Do the boys remember their lessons after leaving school? Well, after witnessing the two games at the school gym Wednesday evening we'll say they do. Two Alumni teams met and defeated two school heavy weight teams. The first tilt was a hammer from start to finish, the Old Timers winning by one point, score 15-14. Buchanan, Pierce, Cruver, Kinkaid and Mills, all from away back, put on an exhibition of fast teamwork which surprised the spectators and kept the school team on the defensive most of the game. Buchanan 2, Gruver 7, Kinkaid 2 and Mills 4, did the damage for their side, and Aspenwall 2, Kuelzow 5, Cole 3 and Claret 4, for the school. The second tussle was more one-sided the Oldboys coming out on top 20-7. Roth and Richards made the 7 points, but with Moore showing all his old time skill on the other side and dropping in 12 points as his contribution, Calhoun 4, Singleton 4, McKenzie and Paterson 2 apiece, the school quintet had no chance. Both games were fast, exciting, and played in the clean sportsman-like manner for which our High school is famous, the crowd was a surprise close to 300 being present, and although defeated "Duke" Childs and "Jack" Paterson who are handling the whole basketball situation this year both expressed belief that this is to be a great season for the game.

These games were preceded by a fast game between the probable Lights and Feathers, the last named putting up a great scrap until weight began to tell, the final score being 17-7 in favor of the Lights. With five of last years champions available, old "Jack" again has his eye on the "Baby" honors. Here's hoping.

### GO TO CHURCH SUNDAY

The Bureau of the Census is a part of the Department of Commerce. It was established as a permanent Bureau in 1902. Prior to that time the census work was done by a temporary organization known as the Census Office.

### HEAVY SHOE TIME

### HIGH SHOES

Buy good shoes, rubbers and overshoes. The best preventative from colds is dry feet.

### BOYS SHOES

We consider a boy's shoe needs just as important as his father's and mother's. As a matter of fact, a boys shoe should be made even stronger for he puts them to harder service.

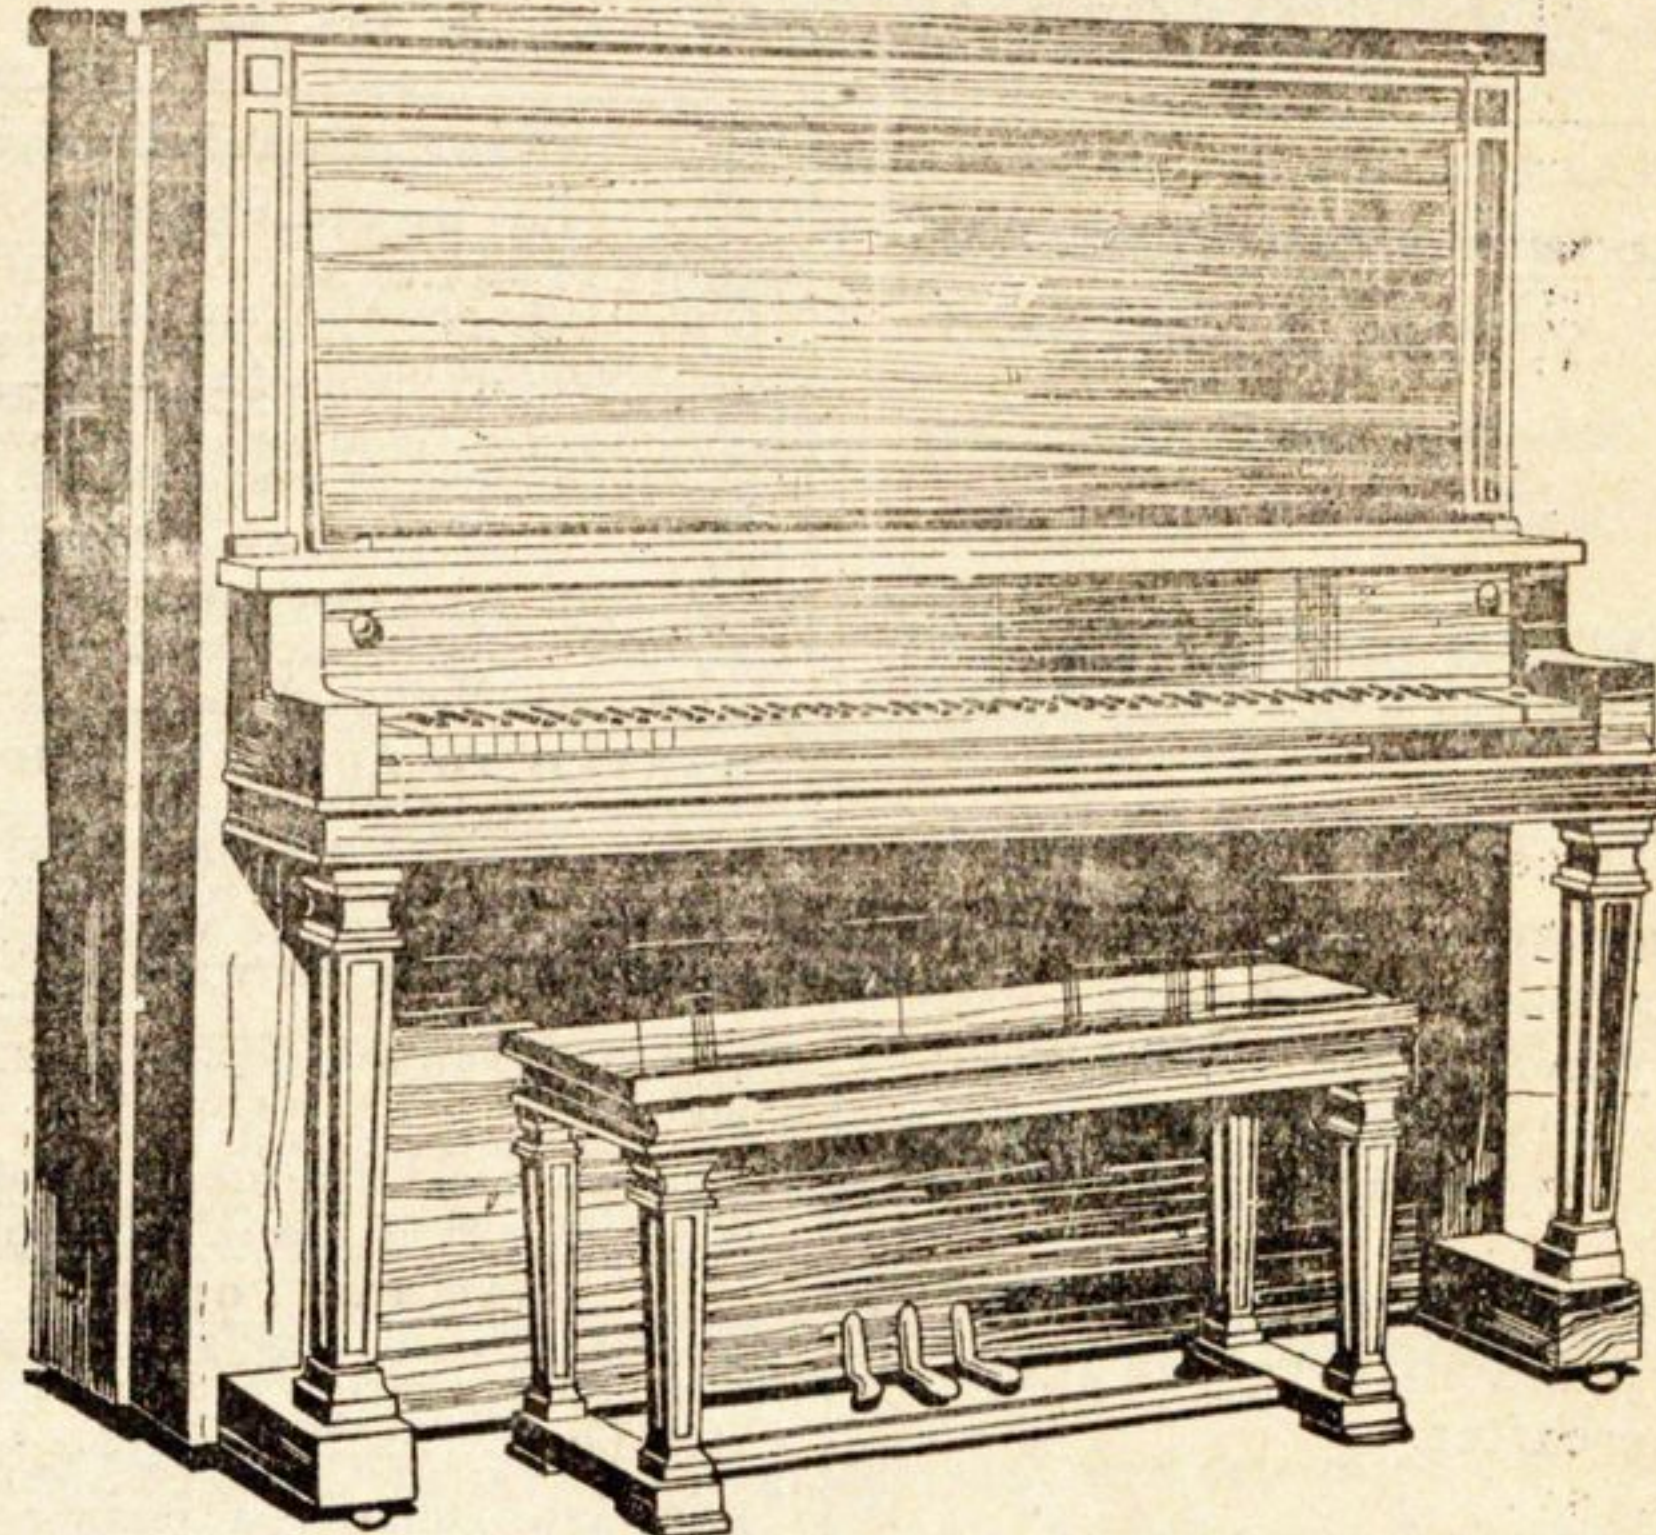

Winter footwear for the whole family at moderate prices.

HARRY M. BUTLER 1213 WILMETTE AVE.

Stores at Highland Park and Wilmette
