THEY'LL HAVE TO KILL THIS COP TO STOP HIM

Deputy Sheriff Frank Schaefer Doesn't Let Dislocated Shoulder Blade Stop Him

Deputy Sheriff Frank Schaefer, former north shore motorcycle policeman, racing through Niles Wednesday night on his motorcycle in pursuit of a speeder, struck a rut and was pitched into a snowbank. He emerged with a dislocated left shoulder. He stepped into the Niles garage and a mechanic snapped the arm back into place. "Just then another automobile shot by a forty miles an hour. Schaefer jumped on his motorcycle and gave chase. The driver put on more speed when the command to halt was given, but Schaefer succeeded in getting in front of the car and flourished his revolver. The automobile swerved into a farmyard. As Schaefer went back he heard a feminine voice shrieking: "Help! Police!" "I'm coming!" yelled Schaefer. "Are you a policeman?" asked R. D. Leffingwell of Des Plaines, an advertising man and owner of the car. "I thought you were a robber when you pulled your gun!" He showed Schaefer where he had hid his watch and diamond ring in the car. Schaefer served a summons, anyway.

BANNING OBNOXIOUS NOISES
Operatic singing in German has been prohibited in New York. Local patriots are declaring exultantly that eating German will be next to go.—London Punch.

ASSURED PROFITS

At the age of sixty-one, one of America's most notorious swindlers applies for admission to the poorhouse. Now, if he'd turned his talents to ordinary profiteering things would have been different.

Fair and Honorable

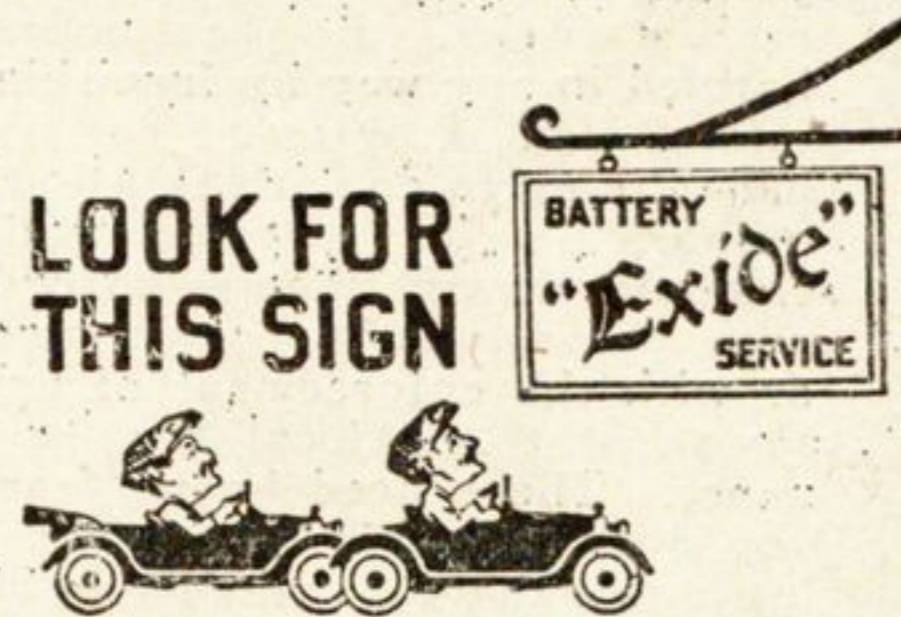

The ambition of this *Battery Service* institution has always been to deal fairly and honorably with all with whom we come in contact—directly or indirectly.

We will never unwittingly handicap ourselves by incessant and vicious attacks on those with whom we are in competition.

We admit—and cheerfully—that there are other good batteries—but the unusual service and satisfaction that *Exide Batteries* are rendering several hundred North Shore folks tends to substantiate our belief that we are handling the "Best Battery Known to Science."

What's Bone Dry — What's Not?

Not every storage battery that is called "bone dry" is really shipped and stored in bone-dry condition.

Some have solution put in at the factory, and poured out again before shipment.

Some are shipped with plates dry, and insulation wet.

These batteries are not bone-dry.

Come in and get straight from us the story of Willard Threaded Rubber Insulation, the only form of insulation that permits of bone-dry shipment and storage of automobile starting, lighting and ignition batteries.
