

Illinois Teachers Favor Compulsory Thrift Classes for School Children

Establishing of compulsory courses in thrift and savings in the schools of Illinois was unanimously indorsed by the Illinois State Teacher's association at the recent convention held in the House of Representatives at Springfield. The teachers arranged for the appointment of an advisory board of five to be named by the president of the association, D. Walter Potts. This board will work in conjunction with the county superintendents of schools in framing the course in thrift which will be made a part of the state and by many of the schools in the smaller cities.

In addition to taking this action for the actual teaching of thrift the teachers at their convention also indorsed the savings program of the government, which was outlined to them by J. Stanley Brown of Dekalb, principal of the Northern Illinois Normal school, who spoke as the representative of the Savings Division of the Treasury Department at Washington.

The text of the resolution passed by the Teachers' association was as follows:

"Whereas: In view of the fact that extravagance is becoming more and more a national characteristic, and that its increase and practice will tend toward national weakness, we believe that it is imperative that the practice of thrift should become a national characteristic and that to this end teaching of thrift must become a serious and universal part of our educational system.

"Therefore, be it resolved: That we shall combat extravagance and profiteering by giving in our regular classroom work training in intelligent methods of saving; and

"That the teachers of Illinois shall give aid to the Government in its educational program for the inculcation of the habits of thrift and the development of a higher type of citizenship, which shall represent true Americanism, not only in ideal, but in fact; and

"That a committee of five be appointed from this body to act as an advisory board to the Government Savings organization so far as Illinois is concerned."

The Public Health

By Harriet Fulmer

SLOGANS FOR 1920

"An equal chance for equal health."
"Health and happiness for all!"

Public Health nurses have taken the above slogans for 1920. Let us hope that every person in Cook

County Outer Belt territory will back them in their efforts.

Total returns from the sale of Red Cross Christmas Seals in Cook county are not all in, but indications are that the sales are unprecedented. This successful sale was managed by James Phillips of the Chicago Tuberculosis Institute which is the agent for the sale of seals in Cook county—Keep on buying!

A christian obligation resting upon

every community is to see that no little child or young person of irresponsible age goes another day without the correction of physical defects, which, if neglected, may handicap him for life. Parents, guardians and Public Health Workers are the custodians of childhood

happiness in Adaptability.

He is happy whose circumstances suit his temper; but he is more excellent who can suit his temper to any circumstances—Home.

RULES FOR FILING THAT INCOME REPORT

Here Is a Brief Bit of Information To Those Who Must Pay Income Tax

For information concerning payment of tax upon incomes it may be stated that if you are single and your net income exceeded \$1,000 this year you will have to file an income tax report. If you are married and your income amounted to \$2,000 this year you will have to file a report. These amounts are exempt but you will be taxed on what you earn or receive in excess of those amounts. If you are married you are allowed further exemption of \$200 for each minor child actually dependent upon you.

If you are married and not living with your husband or wife your exemption will be \$1,000, just as if you were single. The penalty for failing or refusing to file an income tax report is a fine of not more than \$1,000 and in addition twenty-five per cent of the tax due. The penalty for filing a false return is \$10,000, or a year's imprisonment, or both.

All corporations and firms are required to report to the internal revenue department the names and salaries of all employes receiving \$1,000 a year or more.

All net income up to \$4,000 a year after deducting your exemption is taxable at four per cent and all over that figure at eight per cent.

The surtax is a gradual tax imposed on all net income in excess of \$5,000. Between \$5,000 and \$6,000 it is one per cent. From \$6,000 it increases one per cent for each additional \$2,000.

IMMIGRATION MAY MEAN MORE MAIDS

Cheering news for north shore women who long ago gave up the search for maids comes from New York, where it was reported recently from the immigration bureau that 100,000 immigrants are expected to arrive this month and that among them are many girls who will come to Chicago to seek employment as maids. They are said to be like the young women who used to come here before the war—the kind who will do hard work, all the housework, and not merely answer doorbells and telephones.

Miss Elizabeth Moynihan of the Travelers' Aid society said this week that a great many of these girls are from Scandinavian countries, Ireland, England and Italy and that already they are arriving in Chicago and are looking for situations.

WILMETTE A. C. QUINTETS WILL BATTLE CHICAGOANS

The Independent Arrows of Chicago will appear at the Central school gym Friday evening for light and heavy weight games with the Wilmette A. C.

The Arrows hail from the North Side and are reputed to be strong in both teams.

The first game will begin about 8 o'clock between the lightweights, with the heavies in the wind-up.

The local lightweights lost to the State Bank of Evanston Tuesday evening, January 30, 17-7. The heavyweights lost to the team bearing the same name 20-13. The games were return engagements the lights losing the first game also while the heavies defeated the bankers 14-12 on December 26.

EXTRA PATHE NEWS

Snow—Cold Shortages—Strikes

Through them all your grocer supplies you with food. Many of us have thoughts above food--- but without food we cannot live.

Your grocer's work is hard. His hours are long. His profit is small. Because he is the only point of contact with the production and distribution of food that many people have, he is often charged with blame for conditions and prices of which he is as much the victim as are his accusers.

He works early and late. He swallows his feelings and gives the soft answer to wrath that is unjustified.

He searches and bargains for the best a disorganized market affords so that his customers shall be satisfied.

Then he pays out his money so that what you may fancy will be available when you want it.

His share of each dollar you pay him is about three cents, after the cost of conducting his business is paid. He pays for his children's shoes the same price that you pay for yours.

It isn't an easy life. A living and the doing of service are all his work offers him.

Only by serving all of the people in his neighborhood can he sustain himself. The occasional bargain elsewhere may be attractive to your sense of economy but you need your grocer for everyday wants.

Your prosperity is bound up with his, for a town without stores would be town without realty values and without comfort or security of living.
