

## Yankees and Pirates Take League Openers

Indians and Tigers Fall Prey to Terrible Onslaught of Rival Aggregations

The powerful attack of the powerful Yankees was the cause of the downfall of the Tigers Wednesday evening at the Community House 15-10.

It was the first game of the new league season and was won by the pitching arm of Flossie Voltz and the batting ability of the entire squad.

Hostilities began in the opening session and continued to the last inning. The losers made a game up-hill fight in the last two innings but could not overcome the big lead.

Flossie struck out two-thirds of the batters who faced him in the seven innings.

The second game was a tight battle resulting in a victory for Paul Kreger who hurled his team to victory over the Indians, piloted by Nash Cazal. The principle cause of the Indian downfall was the absence of Fritz Eckart, reputed to be the leading receiver in the league.

Nash pitched a good game but the absence of players resulted in hits for the victors several times. Ilg performed in Eckart's position and did well throughout.

As a result of the "flu" Mr. Clark, who usually umpires, stayed at home. Kreger umpired the first game while Goody performed similar functions during the second game.

Standing:

|         | W. | L. | Pct.  |
|---------|----|----|-------|
| Pirates | 1  | 0  | 1.000 |
| Yankees | 1  | 0  | 1.000 |
| Tigers  | 0  | 1  | .000  |
| Indians | 0  | 1  | .000  |

## Communication

Where are the parents of the school children of Winnetka that they do not take up the question of enlarging the school accommodations?

Perhaps the west of the Village is improving enough to warrant a school in that vicinity but I believe if a thorough investigation is made, that the conditions in the north and northeast sections will be seen to need the schools enlarged at once.

As to the centralization plan it seems that it would come as near as possible to the days of the "little red school house" to give a child a little tin dinner pail and send him a mile and a half or two miles to school.

I can remember my grandfather tell about going two miles to school through snowdrifts, dear old man, I do not believe he knew any more for that experience.

The principal reason advanced for the projected site seems to be the acreage to be obtained for a small price. I attended a school in Chicago where two good sized buildings occupied one half a square block. At recess the whole number of pupils were turned loose for fifteen minutes, yet I could mention four or five representative men of the city who graduated from that school. In those days the brain was developed not the arms and legs.

The system of a child from ten to fifteen years is at a low ebb, their health in after years depends upon the watchfulness and care bestowed upon them during those years. Let us not do them injustice to send them so far.

After a child has walked as far as some would be obliged to, both to and from, at the proposed distance, he would not require any playground exercise.

It seems that Winnetka can afford to have three or if need be four district schools well equipped so that pupils can have the facilities for a good complete up-to-date education, fitting them well for higher schools and developing their minds in a progressive manner for the years when they will have to cope with those who have had the best legacy, a good education.

If the Village can raise funds to beautify the business district and otherwise improve the town, the same means can be employed to have good schools. Where there is a will there is a way if there is interest enough to find it.

Let each district have its school and not be so primitive as to send children a mile and a half or two miles to school. If there are any who are so interested in improving the west part of the town and must have the proposed site, let them purchase and build a reform school, there are boys about town, that a school of such nature would be a blessing, and also remove them from other schools where they are a menace to others.

This is the most important matter the Village has to handle. Parents, wake up and solve this problem. Many of you will kick later—why not now.  
—A Parent.

Did they select June 28 for the Democratic convention because it is the anniversary of the peace treaty or because it's the anniversary of the Frisco earthquake? — Washington

## Interchurch World Movement Prepares for \$1,320,000,000 Church Fund Drive

The greatest financial drive in the history of the world for any charitable, philanthropic or religious program will be staged in America from April 21 to May 2, when \$1,320,000,000 will be sought to carry the message of evangelical Christianity around the world, this amount being the budget for five years. Forty-two of the leading protestant denominations of the nation, representing many millions of members, in convention at Atlantic City during the first week of the new year, voted for a united movement that is expected to mark a new epoch for Christian civilization.

The campaign for raising the funds that will send thousands of college-bred young men and women to the farthest points of the globe to serve as teachers, medical missionaries, nurses, preachers and social workers, and place other thousands at work in institutional churches, social settlements, churches, colleges and other fields of service in the cities and country of America, will be organized on so vast a scale that it will be comparable to one of the war-time Liberty Loan drives. The money will be raised to cover all of the home and foreign missionary activities of the various denominations included for a period of five years.

The seventeen hundred delegates to the Atlantic City convention have returned to their homes, on fire with the contagion of success and inspiration that swept the convention. They began immediately a campaign to carry to the members of their home churches and cities the news of this new program which many thousands of churches are embarking on under the name of the Interchurch World

Movement. The Interchurch Movement already has accomplished a vast organization, and is making preparations to acquaint the 110,000,000 people of America, through newspaper articles and advertising, moving pictures, billboard posters, minute men, and other methods of publicity, with the meaning of the movement. Conventions of pastors and laymen are to be held in every state. College men are being enlisted, and every agency possible will be secured to help put across the great financial drive and the missionary effort to follow. The Interchurch Movement means the Protestant churches of America in co-operative action to carry the benefit of Christianity to the whole world.

### LADIES! YOU'LL FIND SOME REAL BARGAINS

R. H. Schell and Co., Holds 30th  
Semi-annual Clearance Sale; A  
Chance to Whack H. C. L.

Women of Winnetka who are keen about taking a full-swing whack at Old Hi Cost of Living will be interested in the 30th semi-annual Clearance Sale of the department store merchandise opening at the R. H. Schell and Co., store, 800-802 Elm street, on Monday, January 26 and continuing through Saturday, January 31.

This sale probably offers the best opportunity for bona fide bargains presented to Winnetka shoppers in many months. It is altogether probable shoppers will find some remarkable bargains, fully as enticing as any in Chicago shopping districts. Clip the Schell Ad from this issue and carry it along when you make your trip to the store.

### KEEP THOSE PET CANINES OFF THE STREETS—POLICE

Dogs running at random through the Village street, becoming suddenly voraciously inclined, executed a mass attack on a certain pet canine Wednesday and police, who arrived to scatter the pack, found the defendant in a miserably battered condition. It was found necessary to summon the services of a veterinary.

"Too many dogs are running loose," says Chief of Police Peterson. "They follow the children to school. They have been discovered annoying the children while at play on the school grounds. Residents are asked to keep their pet canines on the premises lest a dog muzzling order be placed in effect to curb the prevalent nuisance."

### LIKE U. S. CARS

While famous for such fine cars as the Rolls-Royce and Sunbeam, England is in the market for high-priced American automobiles. The London distributor for the National Motor Car & Vehicle corporation has 100 Sextets on order, and recently cabled an urgent request for a shipment of twenty by express. The automobile makers of the "tight, little isle," who built no cars during the duration of the world war, have had their plans for peacetime production shattered by the extended strike of the British foundrymen.

In the first nine months of 1919 imports from France to England nearly doubled in value, and exports from England to France amounted to \$40,000,000, as compared with \$30,000,000 for the same period in 1918.

In Paris the prefect of police has opened an office in the Bourse de Travail, where commercial travelers in France, as well as agents of foreign firms, must register and obtain an identity card before being allowed to transact business in the country.

Both strikes and lockouts are threatened in the Swedish engineering industry.
