

New Trier High Notes

NEW TRIER TAKES TWO GAMES IN LEAGUE MEET

Thornton lights were swept off their feet at New Trier Friday evening by the combined rush of Kershaw, Lusted and Tucker being held for more than three quarters of the game without a point to their credit. The final score was 34-1.

The lightweights were without the assistance of Rand or Smith but were too strong for the boys from the north. Tucker played the best floor game taking the jump at center with skill and following it through with a smashing attack which netted the team a number of baskets. Kershaw and Lusted also contributed their share of baskets while at guard Fleming and Parker were invincible. Until the final quarter when Thornton dropped a free throw the game was all in favor of the New Trier boys. With Rand and Smith with them the lightweights will be one of the sensations of the Suburban league. Watch their smoke!

The heavyweight tussle began with Thornton taking the lead for several minutes but relinquishing it before the first quarter was over. In the second quarter the Kenilworth boys took hold of matters and at the end of the first half led 18-9. The third and fourth quarters were repetitions of the second period the gong ringing with New Trier hanging up the first Suburban league scalp 30-20.

Richards and Varney undoubtedly were the stars of the heavy tilt. Ted played a fast game and annexed his usual share of baskets while Varney's dash and vigor swept the Thornton forwards off their pedestals. His long, snappy shots to the New Trier end of the floor brought forth applause and favorable comment a number of times. His throws were responsible for many New Trier baskets. He annexed four baskets himself and if he continues to shine in his present form will probably finish at one of the league's stellar forwards.

EDITORIALS WITH "PEP"

The editorials of the New Trier News at New Trier High school were punctuated this week with requests for class yells and more news from the athletic department. The sporting page is always filled but that is not enough. The editor also wishes suggestions as to entertainment after lunch. But the best editorial of all is the one urging everyone to back the plan for the building of the proposed memorial to Major E. J. Vatman, who was a member of the High school board for twelve years.

SWIMMING NEXT FRIDAY

New Trier's crippled natators will compete with Evanston this afternoon at the Evanston tank. The team will endeavor to hang up the shield in the offices of the New Trier athletic department as in past years. Morton will come to New Trier next Friday for a meet.

SCHOOL HANDBOOK OUT

The New Trier High school handbook, containing rules and regulations for the student body, and the school yells and songs, is being distributed among the students.

FRENCH PLAYS SUCCESSFUL

The French plays given at the New Trier High school Saturday evening were enjoyed by everyone to such an extent that requests for "more" have been made.

NO ILL EFFECTS FROM MAN-PREPARED FEAST

Men of the Wilmette Congregational church Wednesday evening played a variety of jobs associated with the business of serving at a banquet. It was the monthly Church dinner in the church halls and the men of the congregation prepared and served the "eats" to the women. The occasion was a joyous affair. Two hundred and seventy-five residents participated in the banquet and, according to latest reports, were still in the "pink" today.

Dr. Donald M. Gallie, funster, acted as toastmaster. Singing was in charge of "Charlie" Adams, Dr. G. F. Butler, noted physician and psychotherapist, spoke on the "Prophylaxis of Laughter". Miss Bertha Wheelock spoke on the timely topic, "Oh, Man".

With wood so scarce and high, maybe it would be a measure of economy to leave the ex-kaiser alone until the winter is over.—San Antonio Light.

The Public Health

By Harriet Fulmer

Health First—Low Taxes Afterward

Odds and Ends about Public Health.

An important law in Iowa—why not in Illinois?

Section 1. That the boards of supervisors, the city and town councils, and the school boards in this state shall have power and authority to employ visiting or public health nurses at such periods each year as they may deem advisable and to pay the salaries and expenses thereof from the funds in the treasuries of said boards and councils.

Section 2. That the said board of supervisors, the city and town councils, and school boards in any county in the state may co-operate in the employment of said visiting or public health nurses and may apportion the salaries and expenses thereof to the various territories represented by them.

Section 3. That the said board of supervisors, the city and town councils, and the school board shall at the time of the employment of visiting or public nurses prescribe the duties thereof which shall in a general way be for the promotion and conservation of the public health.

Some Questions and Answers Relative to the Value of Milk as a Food

Why is milk so important a food? Because it is the most complete and well balanced of any single food, and is a vital food necessity for babies and children.

How much milk does a child need a day?

At least one quart up to the age of 4 years and not less than a pint daily during childhood.

What is the food value of milk? One pint of milk contains 310 calories.

Social Happenings

A group of young married couples will give a subscription dance at the Winnetka Woman's club on Saturday evening of next week.

Mr. and Mrs. August C. Magnus, 650 Sheridan road, left last week to spend the remainder of the winter in southern California.

Miss Martha Clark, 769 Linden avenue, is ill at the Evanston hospital with scarlet fever.

CONGO HUNTER REPORTS SEEING THE BRONTOSAURUS

Meet the Brontosaurus. Some day they may have him on show in Bronx or Lincoln parks, so far as anybody knows.

A Belgian prospector in the deepest reaches of Congo saw a Brontosaurus, and shot at him and brought back this description.

The Brontosaurus is on the rhinoceros order, with large scales reaching far down its body, it has a very thick kangaroo-like tail, a horn on its snout and a hump on its back.

The Smithsonian Institution had heard of the beast from previous explores, and at one time sent an expedition in search of it, but several of its members were killed in a railway wreck.

WILMETTE PIONEER AND WAR VETERAN IS DEAD

Frederick Zolk, Veteran of the Civil War Was With Sherman on March to the Sea.

Frederick Zolk, veteran of the Civil War and pioneer resident of Wilmette, passed away Thursday, January 15, at his home, 1325 Wilmette avenue. Funeral services were held Sunday, January 18, from St. John's Lutheran church, Rev. Herman W. Meyer officiating. Burial was at Memorial Park. Mr. Zolk had been ill two weeks.

Mr. Zolk was born in 1842 at Bergero, Pomerania, Germany, and at the age of 21 years, emigrated to America, taking out his first citizenship papers at once and settling at Manitowoc, Wis. At the time the country was torn by civil war and when another urgent call for volunteers went out, Zolk enlisted, was ordered to report at Madison, Wis., and was there assigned to K company, 21st Wisconsin volunteer infantry. This regiment soon after joined Sherman's command and with it Zolk took part in the memorable march to the sea, as well as in Sherman's subsequent operations in the Carolinas. The deceased related that in one engagement only 90 men out of 900 in his regiment returned from the battlefield.

At the time of President Lincoln's assassination Zolk was stationed at Alexandria, Va. He had often related that while he was not present at the actual capture of Booth, he and other members of his company, who were under orders to scour the country, arrived upon the scene shortly after Booth's capture.

After sixteen months in the army, Zolk was given his honorable discharge on July 18, 1865, and shortly after settled in Tolleston, Ind. In 1888 he moved to Wilmette and built the home at 1325 Wilmette avenue, which he occupied until his death at the age of 77 years. Surviving him are his widow, three sons and one daughter.

In the funeral address, which was based on Ps. 73:24: "Thou wilt guide me with Thy counsel, and afterward receive me to glory," his pastor, the Rev. Herman W. Meyer, pointed out that Mr. Zolk had been a "veteran" in more ways than one—a veteran of life whose age and judgment we respected, a veteran of the Union army for which we duly honor him, a veteran in God's army, whose memory we hold sacred, a veteran cross-bearer, whose Christian patience we ought to imitate, a veteran and founder of the local Lutheran church and a veteran citizen of Wilmette, who rendered long and faithful service to his church and to his state.

1,250,000 DEPENDENTS; FAIL TO SAVE

There are 1,250,000 dependent wage earners in the United States because they could not or would not save during their working days. The support of these costs \$220,000,000 a year. Save!

Even the old artifice of making faces at the coal-cart driver fails of its purpose in these degenerate days.—Louisville Times.

PUBLIC NOTICE

Notice is hereby given that the partnership known as the Reliable Taxi Service operated by Robert F. Hudson and Adam Scott has been dissolved and that I will not be responsible for any debts contracted by the Reliable Taxi Service after this date. The business will be continued by Mr. Hudson. The dissolution of partnership was made necessary by other business matters which will take all of my time and not by any controversies between Mr. Hudson and myself. We request that our patrons kindly make prompt payment of all bills due before this date.

SELLER OF RADIATORS BUYS A FRANKLIN CAR

The American Automobile company of Tacoma has recently sold a Franklin automobile to O. Neikirk, head of the Tacoma Radiator & Fender Works. Mr. Neikirk for years has made his living repairing radiators and supplying new ones to automobiles. In purchasing his Franklin he said: "I know something of the grief that comes from radiator trouble, and it has long been my ambition to own a Franklin car, even though a general imitation of my action would force me out of my business."

radiators and supplying new ones to automobiles. In purchasing his Franklin he said: "I know something of the grief that comes from radiator trouble, and it has long been my ambition to own a Franklin car, even though a general imitation of my action would force me out of my business."

First Cost

We can't compete for battery business on price.

Willard service does cost more, so does a Willard Battery. But isn't it true that if you hire a real engineer, or architect, or contractor, or carpenter, or mechanic, or doctor, or lawyer, that it saves in the long run?

We're in business to do the job right the first time—and that costs more than to fix it so it has to be done over again soon after.

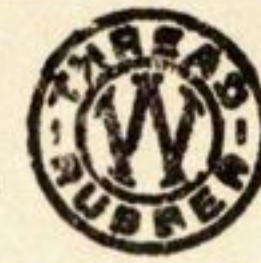

When we sell a Willard Battery with Threaded Rubber Insulation we charge more for it, but, it doesn't come back for re-insulation with a big bill to you. It stays on the job till it has delivered all the service you bought—and generally a lot more than you'd believe possible.

Try it once—and you'll feel the same as 99% of all who own Willard Batteries with Threaded Rubber Insulation. Drop in, glad to see you.

The Man Who Plans Ahead—Gets Ahead

The majority of successful business men will tell you that they got ahead by "planning ahead" Saving money was the first item in their program. They built up a reserve fund which enabled them to take advantage of a good business opportunity when it arrived.

The rewards of industry and thrift are just as great today as they ever were, and the best way to prepare for a time of opportunity is to start a Thrift Account at this bank and add to it regularly.

Are you preparing yourself for opportunities by saving part of your income?
