

Activities of North Shore Clubs

by Ruth Risley

THE meeting of the Wilmette Woman's club on Wednesday, Feb. 25, is under the direction of the Art and Literature department. Mrs. A. Starr Best of Evanston will give a short talk on the Drama Movement, followed by Franklin Bliss Snyder of Northwestern university, who will lecture on "Lincoln the Prophet of Nations." Mrs. Cornelia Delafontaine will give two groups of songs, accompanied by Miss Eloise Bedlan. The hostesses for the afternoon will be Mrs. George C. Murdock and Mrs. H. J. Smith.

The Wilmette Catholic Woman's club will hold its regular meeting Friday, February 27 at the Woman's club. The speakers will be Mrs. D. R. McCauley who will have as her subject "Americanization of Music and American Composers" and Mrs. Edward Fleming who will speak on "Rosary College." Several other interesting speeches will be made.

North Shore women have been following closely the reports of the various meetings of the National Woman Suffrage association which was held in Chicago these last few days. A plea for the eight hour working day for men and women alike, for suffrage fixed by law on a basis of educational requirements, and for the staunch support of the ideals and principles of Americanism, was made Tuesday night by Mrs. Carrie Chapman Catt before an assemblage at Orchestra Hall, Chicago.

It was in the nature of a farewell address to the members of the National American Woman Suffrage association, which is passing out of existence. Mrs. Catt, who has been its leader since 1916, leaves within a month's time to preside at the international suffrage convention, which meets in Spain. It was the keynote of the message which all the suffrage leaders, assembled on the platform last night, are expected to carry back to the 20,000,000 women who will be given the right to vote when the federal suffrage amendment is finally ratified.

Mrs. Catt urged her hearers to affiliate at once with the political parties, but cautioned them against "stand pat" politics, and the role of followers in the political party. "There is too much dust at the rear of the procession and too much

tion, today in talking of the convention last week of the south central division of the W. C. T. U. in Fort Worth, Texas, from which she had returned.

"The next step will be the eradication of that ancient superstition that alcohol has value in medicine," said Mrs. J. R. Shepard of Virginia at the convention. "The surgeon-generals of the army and navy are only awaiting enough physicians to lend their co-operation to remove alcohol supplies from the naval and military hospitals," she added. "The W. C. T. U. for years opposed the use of alcohol for medicinal purposes, and it is our intention to begin a more vigorous attack to have it done away with entirely."

Thursday morning, February 26, at 10:30 O'clock comes the annual gallery tour of the Wilmette Woman's club at the Art Institute. At this time the works of Chicago artists are on exhibition. Members of the

club are admitted to the Art Institute on presentation of the club ticket. A large attendance is expected.

Every Sunday Afternoon at 4

BY THE

Rev. James M. Gray, D. D., Dean

N. B.

The purpose of this hour is not for preaching in the usual sense of the term, nor for addresses about the Bible, but rather for the explanation of the text of the Bible itself.

crowding in the middle for you to be there," she said. "Your place is at the head where the air is clear and stimulating. I have heard some criticism that we have been a little radical in some of the things we advocate. I don't think we've adopted a single radical thing.

"Some have said an eight hour law for women is asking too much. Then let us make it an eight hour law for men and women together. Is there any one today who doubts that the eight hour day is coming all around the world?"

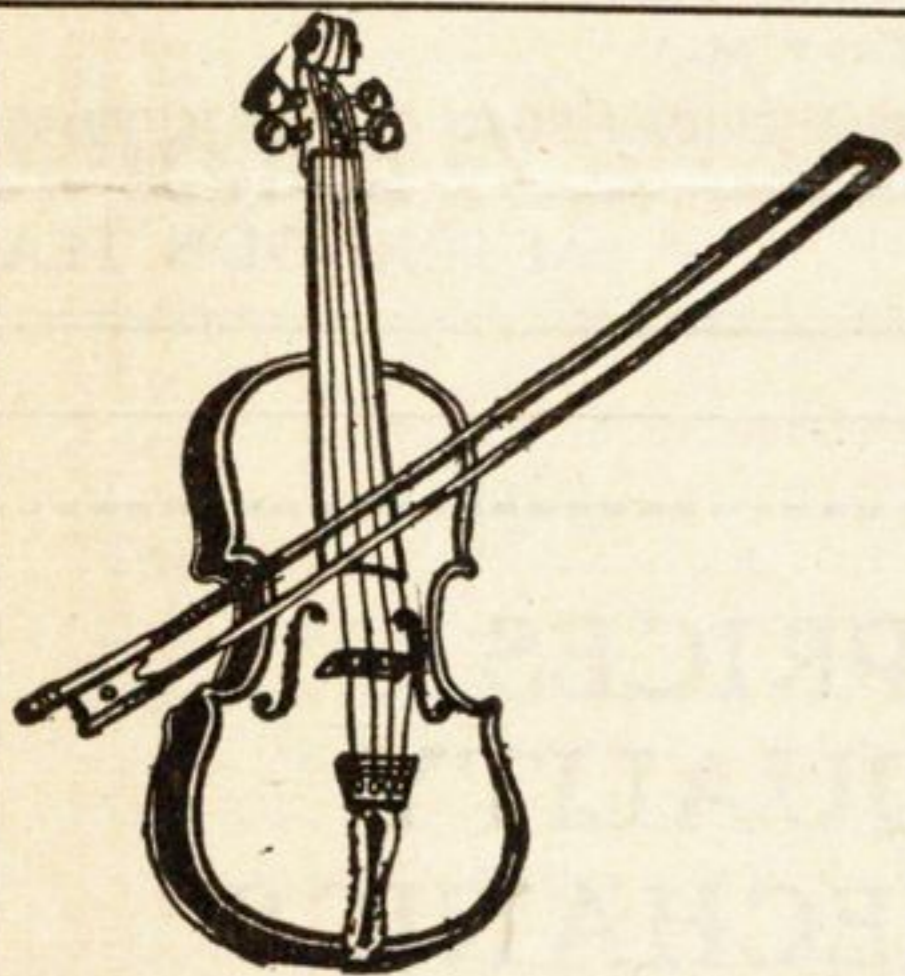

"Legislation banning alcohol in medicine is one of the most important problems of the future for the W. C. T. U.," said Miss Anna Gordon, national president of the organiza-

THE PUBLIC IS CORDIALLY INVITED

The Brunswick

Beauty of
Design

Quality of
Tone

The Brunswick combines the finest craftsmanship of master cabinet workers with the genius of a great idea — The Brunswick Method of Reproduction.

Hear this great phonograph played, and you will agree that for quality of tone it has no equal. This has been achieved by the Brunswick Amplifier—a delicate, vibrant throat of moulded wood. The tones are built up and projected from this chamber—full, round, true. Metallic harshness is gone.

Another great feature of The Brunswick Method of Reproduction is the Ultona. By a turn of the hand, this simple device presents the proper needle and diaphragm to any make of record. It enables you to select your records from the lists of all makers.

We shall be glad to play The Brunswick for you and explain its remarkable method of reproducing and projecting musical tones. You will be delighted by its superiority over old methods.
