

Activities of North Shore Clubs

by Ruth Risley

THOUGH the links are still decidedly soft, and mushy, golf fans are out in great numbers these gloriously warm spring days. Due to the fact that many repairs and additions are being made on many of the clubhouses the clubs as a general thing are not opening until the middle of next month or even later.

Indian Hill club is still in the hands of the carpenter, for an addition to the kitchen is now in the course of construction. The opening has been postponed until May 1.

The opening of the Skokie Country club is announced for Saturday evening, April 10. On that date there will be a dinner at 7 o'clock followed by dancing and bridge whist. All reservations should be in the hands of Mr. Neigelsen not later than Thursday, April 8.

The golfing season at Westmoreland, though not formally opened, is on in full force. Social activities will not begin until early in May. The opening dinner dance will be given on May Day.

A rare treat is in store for members of the Glencoe Woman's Library club and their friends for on Thursday evening, April 8, an entertainment, along the lines of private theatricals is to be given by local talent from the Library club. The affair is to be given in the school gymnasium.

Modern industry has attained such extensive proportions that oftentimes in great plants the employer and the employe are total strangers having no point of contact with each other and no feeling of common interest exists between them.

Naturally, misunderstandings arise, then suspicion and mistrust follow and oftentimes this leads to great injustice being done to either or both parties. The great industrial world has recognized this unhappy state of affairs for years and many solutions have been suggested, some of which are being tried out in a most satisfactory way.

At the meeting of the Winnetka Woman's club on Thursday, April 1, Mrs. Philip Post of Winnetka told of an interesting experiment that is being worked out in one of the largest industrial concerns in the country. She has given a great deal

of thought and time to this subject and the members of the club were afforded a real opportunity in hearing one of the most interesting papers ever given at the club. This paper was discussed a few weeks ago at the Fortnightly club. The subject chosen was "Industrial Councils: A Significant Example in Industrial Co-operation."

R. E. Pattison Kline will be the speaker at the meeting of the Wilmette Woman's club on Wednesday afternoon, April 7. His subject "America's Strategic International Position," is of interest to all of us in these days of peace treaties and elections. Some delightful musical numbers will be presented by Carl Rupp, pianist, and Ceafar Linden, violinist.

Of interest to club women is the announcement that the three meetings of the Tenth District Federation

of Women's clubs are to be held on the north shore next year. The first meeting in November will be held in Kenilworth, the second, in December, will be at the Edgewater Woman's club, and the third, in March, at the Glencoe Woman's Library club.

The annual luncheon and meeting of the Neighbors of Kenilworth will be held on Thursday, April 15. Annual reports of the various committees will be read, and there will be an election of officers for the ensuing year. The ticket, which has been presented by the Nominating committee, and which will be voted upon at this meeting is as follows:

President, Mrs. Calvin S. Case.
Corresponding secretary, Mrs. G. M. Spangler.

Chairman of Music committee, Mrs. Warren Pease.

Chairman of Education committee, Mrs. Mark Cresap.

Chairman of Social committee, Mrs. Edwin Hedrick.

Delta Gamma sorority of Northwestern university entertained at a tea Monday in the parlors of Wilbard hall. The guests of honor were the national officers of the sorority who have been staying at the Edgewater Beach hotel over the week-end while attending council meetings of the organization. Representatives from all organizations on the campus were present. The Delta Gamma officers are: President, Mrs. Ralph

J. Wilbur, Evanston; vice president, Mrs. Albert Vandenberg, Detroit; secretary and editor, Mrs. G. H. Hawley, Minneapolis; historian,

Mrs. James Kingory, Boulder, Colo.; treasurer, Miss Leonore Richards, Lincoln, Neb. Many north shore alumnae were in attendance.

In these times of substitution it is gratifying to buy

WAYNE KNIT
Hosiery

Its standard worth and quality have not been lowered, and its distinctive superiority appeals to people of refinement and discrimination. Don't accept flimsy or inferior grades, but insist on having *Wayne Knit*.

THE RUBBER STORE

Proof--

When you purchase equipment for your motor car it is with the belief that it will compare favorably with what you have used in the past, or it is going to cut down your operating cost.

In the latter instance, until it is in operation, the only evidence you have that you are making a wise investment is its past performance for somebody else.

In advocating the use of "Exide" batteries, we do not ask you to take our word alone; our opinion is naturally prejudiced. But we will refer you to any number of north shore folks who have proved that "Exide" batteries do lower operating costs.

If you will consult a few of them, no doubt the only question you might ask yourself is, "How much longer can I afford to be without an "Exide" in my car."
