

GO OVER YOUR AUTO THOROUGHLY BEFORE ITS SPRING DEBUT

Many of the harbingers of spring are with us. The kids are playing marbles, the department stores are crowded with women buying spring and summer finery, the sap is running in the trees and, last but not least, motor cars stored by their owners during the winter months, are like the chrysalis from the cocoon, emerging from thousands of garages. C. H. Briggs, north shore dealer for the Columbia Motors company, offers the following suggestions to all car owners as to what should be done to the car to make its spring debut a smoothly-running success.

Go Over Car

"The entire car should be gone over," says Mr. Briggs, "to see that all wearing and bearing parts are properly lubricated after all-winter storage. Proper lubrication of the car at the right time will insure the owner against many troubles to say nothing of expense and days without a car at all.

"All the grease and all oil cups

should be given proper attention. The old grease should be removed from the cups, the cups cleaned and new, fresh grease put in the cups. Screw each cup all the way down to replace the old, dried-up or frozen up grease in the running or wearing part.

Watch Lubrication

"Particular attention should be given the valve stems before the motor is started. See that they are well lubricated. This will prevent

the valve stems from sticking, breaking or bending.

"The battery should be removed, taken out and sent to a battery service station. If it has been neglected during the winter it is possible that the plates are buckled or cracked, rendering the battery worthless.

"And last but not least go over the car from one end to another. Tighten up all loose nuts, bolts, and examine cotter pins and brakes."

A SPRINGTIME QUANDARY

Another sign of spring is the worried efforts of young fathers to de-

cide whether it will be a new baby carriage or a second hand motor car—Indianapolis News.

People you meet first judge you by the clothes you wear. In business or society, good raiment is a good recommendation. Nothing is so expensive as wearing old clothes or poor clothes. If you are out of a job, dress up or you can't get one; if you've got a position, put on a better "front" if you want better pay.

We've got the good "front" for you, and OUR PRICES, as well as our clothes, will "make a hit" with you.

Wear our good "nifty" clothes

"I Wish I Had" and "I'm a Going To"

"Wish I Had" and "I'm Going To," were members of an ordinary, every day family.

"Wish I Had" was always seeing things that he wanted, but never had the money to get them, because he had never done anything about a bank account, but "wish he had" it.

"I'm Going To" was his sister. She, too, saw many things she wanted,

and it was her real intention to have them "sometime," but always failed to get them, because when the matter of starting a bank account was mentioned, she always said, "I'm a going to," and let it go at that.

MORAL—A bank account, while not a cure all, can heal a lot of financial "aches" and "pains," and give a fellow that pleasant "easy" and "comfortable" feeling.
