

LAUD INTERCHURCH WORLD MOVEMENT

Episcopal Church Prelate Explains Position of Denomination In Prospective Financial Campaign

The Rt. Rev. Charles P. Anderson, Episcopal Bishop of Chicago, this week expressed his hearty sympathy with the plans and purposes of the Interchurch World Movement, the thirty denominations of which will inaugurate on April 25, an eight day campaign to raise \$366,777,572 for the world needs of those denominations. Because of the fact that the Episcopal church was in the midst of a nation wide campaign of its own when the Interchurch Movement was launched, this denomination has not become a part of the movement. Great satisfaction was expressed by leaders of the Interchurch Movement, however, over the fact that the Episcopal church has taken occasion to express its full sympathy with the aims the Interchurch has in view.

Means "Success of All"

"The success of one, is the success of all," said Bishop Anderson, at the Church Club yesterday afternoon. "Nothing will stimulate the Episcopal Church more than to see that other

denominations are being stimulated; and I feel that the stimulating influences of the Interchurch World Movement will have a highly beneficial effect in the ranks of all christianizing and civilizing agencies. Because of this, I am very glad to give the Movement my full support and to wish it every success. I have no doubt that the Episcopal Church would also have been enlisted in the Movement but for the fact that our own campaign was well under way when it was organized."

Bishop Anderson's endorsement of the Interchurch made public in New York by The Rt. Rev. Thomas J. Gailor, Presiding Bishop of the Protestant Episcopal Church in the United States of America, expressing hearty sympathy with the purposes of the Interchurch Movement. The text of Bishop Gailor's statement follows:

"The Presiding Bishop and Council have heard with interest of the progress of the Interchurch World Movement and hope that the Nation Wide campaign Committee of this church and the authorities of the various dioceses will furnish to the survey contemplated by the Interchurch World Movement, such information concerning the work of this church as may be desired. Inasmuch, however, as our own nation-wide campaign is still in progress, the Pre-

siding Bishop and Council feel that they cannot take any official part or assume any financial responsibility in the Interchurch World Movement; while at the same time they assume the leaders of that Movement of their hearty sympathy with the purposes they have in view, and of their prayers that God will bless the Movement to the extension of His Kingdom and the higher welfare of mankind."

See Active Support

The immediate result of this attitude of the Episcopal denomination it is believed, will be to bring large numbers of the rank and file of that church into active support of the Interchurch Movement. The evidence of this co-operative spirit was shown in the fact that large numbers of the episcopal clergy in the diocese of New York recently attended the Interchurch conference of pastors there at the suggestion of Rt. Rev. Charles Sumner Burch, Bishop of the Diocese.
