

**A LECTURE**  
ON  
**CHRISTIAN SCIENCE**  
BY  
**PAUL STARK SEELEY, C. S. B.**

Mr. Paul Stark Seeley, C. S. B., of Philadelphia, Pa., member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., delivered a lecture on Christian Science, Tuesday evening, April 20th, under the auspices of First Church of Christ, Scientist, Wilmette, Ill., in the Church edifice, Central avenue and Tenth street.

The Lecturer was introduced by Mrs. Ernestine Schmidt.

Mr. Seeley in his lecture spoke substantially as follows:

The fact is as the Bible makes very plain that the one true and enduring man, God's man, is as stated in the first chapter of Genesis made in the likeness of God, that is he has the character and nature of God, and why should this not be so? Does not a cause produce an effect like itself? Jesus made it plain that this is the fact when he said, "I and my Father are one" (John 10:30), one, that is, in quality an nature. Often he referred to the Father which dwelt in him, in other words the Mind of good or God which was his consciousness.

Man is predestined to be the living witness or evidence of God, His expression and consciousness, and to Phillip he said, "I am in the Father and the Father in me" (John 14:10). Man is predestined to be the living witness or evidence of God, His expression and consciousness, even as the sunbeam is ever the witness and evidence of the presence of the sun. God's one agency of expression is the spiritual universe and spiritual man.

Christian Science not only presents the true concept of man but shows that it is attainable in some considerable measure right here and right now. It shows that in each and every one of us, and there is no exception, no, not one, there is a natural ability and competency to mentally work our way out of the wilderness of material beliefs, out of the net of material falsehood into out natural unity and agreement with ever present good, Mind, the consciousness which is God, our real life and being. The process is wholly mental, as Paul indicated when he said, "Be ye transformed by the renewing of your mind" (Romans 12:2).

Only forty years ago the first Christian Science church was organized in Boston. Since then nearly eighteen hundred organizations have been formed throughout the world. A publishing society employing more than seven hundred people is supplying the ever increasing demand for literature explaining the teachings of Christian Science. Christian Science is offering to the world today a volume of testimony as to the efficacy of its healing work unexcelled in the history of therapeutic systems. From business men, educators, lawyers, judges, physicians, ministers, and men and women of all trades and classes it is offering evidence of health and happiness restored to the individual. These testimonies may be heard in the Wednesday evening meetings of the church or read in The Christian Science Journal, the Christian Science Sentinel or the Herald, which is published in French and German.

It was in 1866 that Mrs. Eddy overcame a serious injury through reliance on spiritual, as wholly apart from material, law and became convinced of the present availability of this law for suffering humanity. For three years thereafter she studied the Scriptures most diligently and from them derived a fuller understanding of this spiritual law of life and its applicability to every need of men. The results of these and the preceding years of consecrated study and research were given to the world in 1875 through the Christian Science textbook, "Science and Health with Key to the Scriptures," which has become, next to the Bible on which it is founded, the most widely read book in the Christian world.

**NEW TRIER COMMITTEEN AT DES PLAINES MEETING**

Sixteen New Trier Township precinct committeemen at a meeting of Cook County committeemen this week assisted in the election of Coroner Peter Hoffman as central committeeman to represent the third committeemen's district. The meeting was held at Des Plaines on Monday, April 19.

New Trier committeemen present were: Martin Culver, Gordon Ramsay, Harry McLane, W. H. Gruver, Allen Wylie, Carlton Prouty, W. H. Carey, Earle Barber, Jonas Madsen, Henry R. Rathbone, Oscar Schmidt, Harry Fowler, Joseph Schantz, Nick Waymer.

**FIND TOO FEW CIVIL SERVICE APPLICANTS HERE**

The Civil Service commission invites special attention to the fact that in examinations held recently in Chicago and other cities throughout the country for assistant examiners, Patent Office, addressograph operators, calculating machine operators, operatives (card-perforating machines), and physical laboratory helpers, departmental service (Washington, D. C.), apprentice fish culturists, Bureau of Fisheries, veterinarians and lay inspectors, Department of Agriculture, local and assistant inspectors of boilers and of hulls, Steamboat Inspection Service, and domestic science teachers, Indian Service, applicants were not secured in the number desired, and that these examinations will again be held May 5.

Persons interested in these or other examinations should apply to the Secretary of the U. S. Civil Service Board at the local post office for detailed information and application blanks.

**USED CAR EXHIBIT IN CHICAGO ON APRIL 28**

Chicago and north shore motor car dealers are again to stage a used car show, the date having been set as April 28 to May 5. The promoter is the Chicago Automobile Trade association through a special executive committee.

The used car show was not held last year, the first and last being two seasons ago. This initial affair was in every way a success both from the standpoint of the trade and the buying public. The great demand for new cars and the scarcity of good used machines leads the show promoters to believe that every car offered for sale will find a ready purchaser, soon after being offered. When the doors of the Coliseum are thrown open for the show, the

public will see a splendidly decorated place and in keeping with the automobile shows that have been held in this historic building for the past twenty years.

**ERECTS \$16,000 GARAGE**

A tile garage said to cost \$16,000, is now under construction at 224 Birch street on the old Higginson estate, one of the landmarks of the north shore. Hathaway Watson, owner of the estate, is also proceeding with generous alterations on the Higginson homestead, it is said.

**DRIVEWAY INSPECTION**

Superintendent of public works Gibbon and assistant H. L. Clark this week completed an inspection of private driveways in the village for the purpose of insuring adherence to ordinance regulations in the matter of building driveways.

**PROFESSIONAL INSTRUCTION**

If revolution is to become a popular outdoor sport in Europe, Europeans should import a few Latin-American experts and learn how revolutions are conducted.
