

Activities of North Shore Clubs

by Ruth Risley

CNTHUSIASTIC golfers are not letting the grass grow under their feet these days. The golf links and the galleries were enlivened on Wednesday at Indian Hill and on Monday at Skokie with everybody wearing the nattiest kind of bright colored sport clothes.

On Thursday afternoon and evening Indian Hill club entertained with a mixed foursome followed by an informal supper dance. Only two supper dances are given each month, and these are exceptionally well attended.

At Skokie Golf club a dinner dance has been announced for Saturday evening, and there will also be the usual affair at Bob O'Link club.

The Highland Park Garden club have a motor trip planned for June 22, when they will visit the various beautiful gardens in that vicinity and Winnetka.

Among those that will be viewed in Highland Park are the J. McGregor Adams, William Ruffner and Samuel Hastings. At Winnetka the artistic landscapes of James Houghteling, Lorenzo Johnson and August A. Peabody will be some of the stopping places.

Tea and refreshments will be served in the garden at the residence of Mrs. Roland Hastings, president of the club.

The closing W. C. T. U. meeting of the season will take the form of a luncheon followed by a program on Wednesday of next week at 12:30 o'clock, in Community House, Winnetka. The proceeds will be used for Americanization work in Chicago. The program consists of addresses by Mrs. Fannie Overturf of Barrington, on the "Work of the Flower Mission"; Mrs. Villa Cole Case will talk on "Law Enforcement"; Mrs. Schumacher on "Scientific Temperance Instruction in our Schools" and Mrs. Richard B. Walsh and Prof. W. A. Hadley on "Americanization". Mrs. Walsh will confine her talk to the work as applied to

an immigrant woman. Mrs. A. A. Bryant of Grand Crossing will sing and Miss Dorothy Madsen, accompanied by her mother at the piano, will give violin solos. Piano duets will be rendered by the Misses Leama Fisher and Lillian Norton.

Mrs. Mary Ware Dennet of the Voluntary Parenthood league of New York, spoke before a joint meeting of the Woman's Library club of Glencoe and the Winnetka Woman's club on Tuesday afternoon, in the parlors of the Winnetka club. Her subject was "Voluntary Parenthood and Child Welfare."

est to the housewife as well as to the producer.

Fats and Oils
Lesson 10. "Fats and Oils." Their use and abuse.
Lesson 11. "Beverages and Food Accessories." Are they necessarily evils?
Lesson 12. "Proving Whether the Food Supply Is Adequate." Malnutrition exists among the rich as well as the poor. Do you know why?
Lesson 13. "Food for the Young."
Lesson 14. "Feeding the Much Neglected 'Pre-School' Age."
Lesson 15. "Special Diets."

AWKWARD PLACE FOR AN ECHO

An extraordinary echo is produced by the high hills surrounding a golf course in the south of England, and it is feared that a three-mile limit may have to be fixed for children and clergymen. —From Punch, London.

SELL THROUGH WANT ADS

HUNCH—IF ATTACKED BY SNAKES, WHISTLE; THEY'LL DIE SHAKING

The shimie is fast becoming the popular indoor sport of cockroaches. This fact was divulged at Reed College, Portland, Oregon, recently when Dr. Helen Clark, head of the Reed psychology department, described the effect of dance music upon the lower organisms.

Miss Clark says soft, tuneful music will send a healthy cockroach into an emotional trance which finds expression in a rhythmic dance. High strains produce an ecstatic response which has every semblance of the shimie.

Similar results have been observed in the angleworm, which has wriggled and shivered in perfect cadence with a popular dance step. Experiments, carried on by a Reed junior student, showed similar response in a captive mouse, which danced a "fox trot" to a tune whistled in its ear.

LIGHTLY CLAD; MUST DON OTHER COSTUMES

The cure in the town of Villeneuve Saint-Georges, France, has added something new to the church's campaign against indecent dress by purchasing a white dress and announcing that all brides who come to this church to be married, lightly clad, will be escorted into a room and required to don the more suitable costume. The cure's announcement is made in the latest number of the parish bulletin.

SAFETY FIRST

Driving an automobile without being covered with full Insurance, Fire, Theft, Collision and Liability, is like jumping into the Lake unable to swim; no one in sight and you expect to be rescued. Come in and investigate The Continental Auto Insurance Association. Claim paid at the drop of the hat.

COURSE COMPLETED IN HOME NURSING

Certificates To Be Awarded Soon To The Women Who Have Completed the Course

Last week 191 women completed the course in home nursing which has been carried on by the Evanston branch of the Red Cross since last November. Certificates will be awarded to all those successfully completing the course in the near future.

According to Miss Ada Murray, secretary of the branch, the course in home nursing will again be given next fall. In addition to this the Red Cross will offer a course in home dietetics, or "Food in Its Relation to Health" to those who have taken the other course. These courses are open to all the women of the north shore.

Asked to Register

Miss Murray requests that all those wishing to enter the course next fall register at once.

"It was due to the fact that many failed to register in time that the course was late this season," she said. "If the women will register for the new course this spring, we will be able to start on time."

The new course will include the following subjects:

Lesson 1. On "Planning the Day's Food," shows that it is possible to plan attractive menus without monotony even in these days of the high cost of living, on a small sum.

What Food Does for Us

Lesson 2. "What Food Does for Us"—what part does it play in the health of the family?

Lesson 3. "Vegetables and Fruits" are better than pills and sanitariums. Preventives are taking the place of cures.

Lesson 4. "The Body's Need for Protein." Various ages require varying amounts of this essential which you know more familiarly as meats, peas, milk, cheese, etc.

Lesson 5. "Meat and Meat Substitutes" naturally follow. Whether we substitute or not is largely a matter for our pocketbook to decide.

Milk Is Invaluable

Lesson 6. "Milk the Indispensable Food." As a protection to health milk is invaluable.

Lesson 7. "Cereals, the Best Return for Your Money"—yet how many of us use them?

Lesson 8. "Bread, the Staff of Life," to both the poor and rich can be varied in many ways for the appetite of the sick or well.

Lesson 9. "The Use of Sugar." Its food value, its production and distribution should be a matter of inter-

Bracelets

Bracelets are steadily becoming more popular and are now the most acceptable gift in jewelry. They are made flexible with all diamonds, sapphires or emeralds, or alternating diamonds, sapphires and emeralds.

They are also made in green gold, platinum top, engine turned or engraved with a few stones spaced an inch apart.

Priced at \$25.00 and upwards.
