

## SALVATION ARMY TO DEDICATE "HOSTEL"

Plan Special Service at Waukegan For Men at Great Lakes Naval Training Station

Waukegan—Service men have not been forgotten by the Salvation Army now that the war is over. The same character of activities that brought the organization so powerfully and favorably to the front while hostilities were on continues at permanent military and naval posts. Some time in September there will be dedicated in Waukegan a Salvation Army institution guaranteed to serve indirectly every county in Illinois. It is a new hostel for active and former service men, specially designed to give them many comforts and much home atmosphere.

The building which will supplant the hostel that now stands at 222 Washington street is already up, and the interior finishers are busy. It has been planned to give adequate service especially to the boys of the Great Lakes naval training station here, who come from every county in the state, as well as from various other states.

Captain and Mrs. R. H. Rhoda, who have charge of the present hostel, and who served with the A. E. F. in France, know the service men well, and they agree that it is especially important to look well to the happiness of the soldier or sailor during the recruit period. It is then that he ordinarily suffers most keenly from homesickness and a general weakening of the spirit.

In the new hostel there will be 84 private rooms with hot and cold running water, steam heat, clothes closets, reading lights and modern sanitary furniture; dormitories with accommodations for 250; recreation room, with piano, victrola, magazine racks, games and bowling alley; lunch counter and cafeteria; sun parlor and winter tea room; reception room, 30 by 60 feet; library, writing room and music room; a wing where rooms will be set apart for visiting friends and relatives of service men.

### Kenilworth Legion Men Win Big Swim

In Tie For First Place With Score of 21 in Field With Six Competitors Sunday

Swimmers representing Kenilworth Post tied for winner in the first annual American Legion aquatic meet at the Chicago Yacht club Sunday afternoon, with the Hyde Park vets giving them an even fight. The Hawaiian swimmers from Great Lakes were prominent in the two open events, Kaehu taking the 100-yard swim and his teammate, Kabele, winning the 440 race. A crowd of about 2,000 witnessed the various events, which included canoe races and tilting in addition to the swims.

The Kenilworth paddlers tied the South Siders, making a clean sweep in the fancy diving. The work of F. Allen of the North Shore team helped materially, as Allen took first in the breast stroke and fancy diving and third in the 100-yard swim. Crawford of Hyde Park was close behind him for individual honors, with a first in the 100 and second in the 50. In the canoe events, Packer of Hyde Park, who took the one-man race, the class B sailing and, with Dorsey, took the canoe tilting and finished third in the two-man race.

Dixon of the Evanston Post won the 880 with a 50-yard length over Miller of the I. A. C., and Allen won the breast stroke by fifteen feet from Cary of Oak Park.

The Great Lakes swimmers made a clean sweep in the 440 open, Kaehle having an easy time in beating his teammate, Kaehu, who had previously been the winner of the 100-yard open.

### "WHEN A FELLER NEEDS A FRIEND"—ONE MIGHT SAY

Wilmette kiddies are most awfully mad this week over the fact that the mean old village trustees went and passed a curfew law right over their heads and without any warning.

Under the new regulation enacted this week the children of Wilmette will not be permitted on the streets or in public places, unless accompanied by a responsible adult, after 9:30 o'clock P. M. from May 1 to October 1 and at 8:30 P. M. from October 1 to May 1.

### CITY OF NEW YORK BUYS MANY FORDS

Commissioner Whelen, of New York City, announced that he has received the first 25 Ford cars on their order to replace the various makes of cars now used and standardize upon Ford cars.

This was done to reduce operating costs and to insure immediate replacement of parts when necessary.

### FORD SEDAN APPEALS TO ALL CLASSES AND HAS MANY ADVANTAGES

(By R. D. Cunningham)

We have watched with considerable interest the increasing popularity of the "Sedan" car.

The open car will of course always have its vogue and we never expect to see it done away with, but the increasing frequency with which one meets the neat, compact and comfortable little Ford sedan not only on our city streets but in the smaller places and even in purely rural districts, denotes that there are substantial and universal reasons for its adoption.

As a result of our investigation we have come to the conclusion that there are several arguments in its favor and while there might appear logical preferences for a closed car in special cases, the general run of purchasers are just as logical in their reasons.

#### Doctors

We can readily realize, for instance, that a doctor would find the closed car the most practical one for his use especially in inclement weather, when it is desirable that he should be able to go in at once to his patient without first ridding himself of the effects of rain or snow. In cold weather his hands are warm and on windy days he will not be powdered with dust.

#### Lawyers

We find also that lawyers are becoming more numerous as buyers of the sedan, practically for the same reasons that the doctor has. These are, however, a more or less limited few and their preference for a car of a closed type is readily understood and appreciated. What we are especially interested in are the reasons actuating the general run of Ford owners in deciding their selection.

#### The Fair Sex

Women with their perishable millinery, their elaborate coiffures also prefer the closed car, especially when making social calls. It has also many advantages for them when shopping particularly since the introduction of the cash and carry system. It is a handy machine for taking the children to or bringing them back from school in inclement weather. It is invaluable for the matinee habit and is an all-the-year-round car in every sense of the word.

#### Real Estate Dealers

The sedan is especially adapted to the requirements of the real estate dealer, particularly it is almost a necessity for one handling subdivisions or suburban lots. Formerly, when the weather was in the least inclement, it was absolutely impossible to get a prospective customer to go out

and see what he had to sell, but now his sedan is an insurance against rainy and nasty days and he can take both Mr. and Mrs. Purchaser, and, in the friendly proximity of his car, can be enthusiastically boosting his proposition.

#### Owners of Higher Priced Cars

There is, however one particular class of customers to which we want to draw attention—that is the purchase and use of the Ford sedan by the wealthier class. In tabulating the sedan sales we were surprised to find that men who owned one or more of the higher priced cars had bought a Ford sedan. It is used by them as an auxiliary car for theaters and on occasions when they do not need a big limousine or touring car; its neat, appearance and economy of operation all have their appeal to these people.

## FEDERAL INSURANCE CONDITIONS NAMED

Announce Many Ex-service Men May Reinstatement War Insurance Up to January 1, 1921

New conditions governing the reinstatement of war risk insurance, liberal in their application, and of such extent as to affect the greater number of north shore ex-service men, have been recently issued by the treasury department.

According to the new ruling the opportunity is offered for a very large class of service men to reinstatement any time up to January 1, 1921, without medical examination by simply paying two monthly premiums on the amount of insurance they wish to reinstate and making their own statement of health with their application. The conditions are substantially as follows:

1. In all cases the applicant must tender at least two monthly premiums on the amount of insurance to be reinstated with his application.

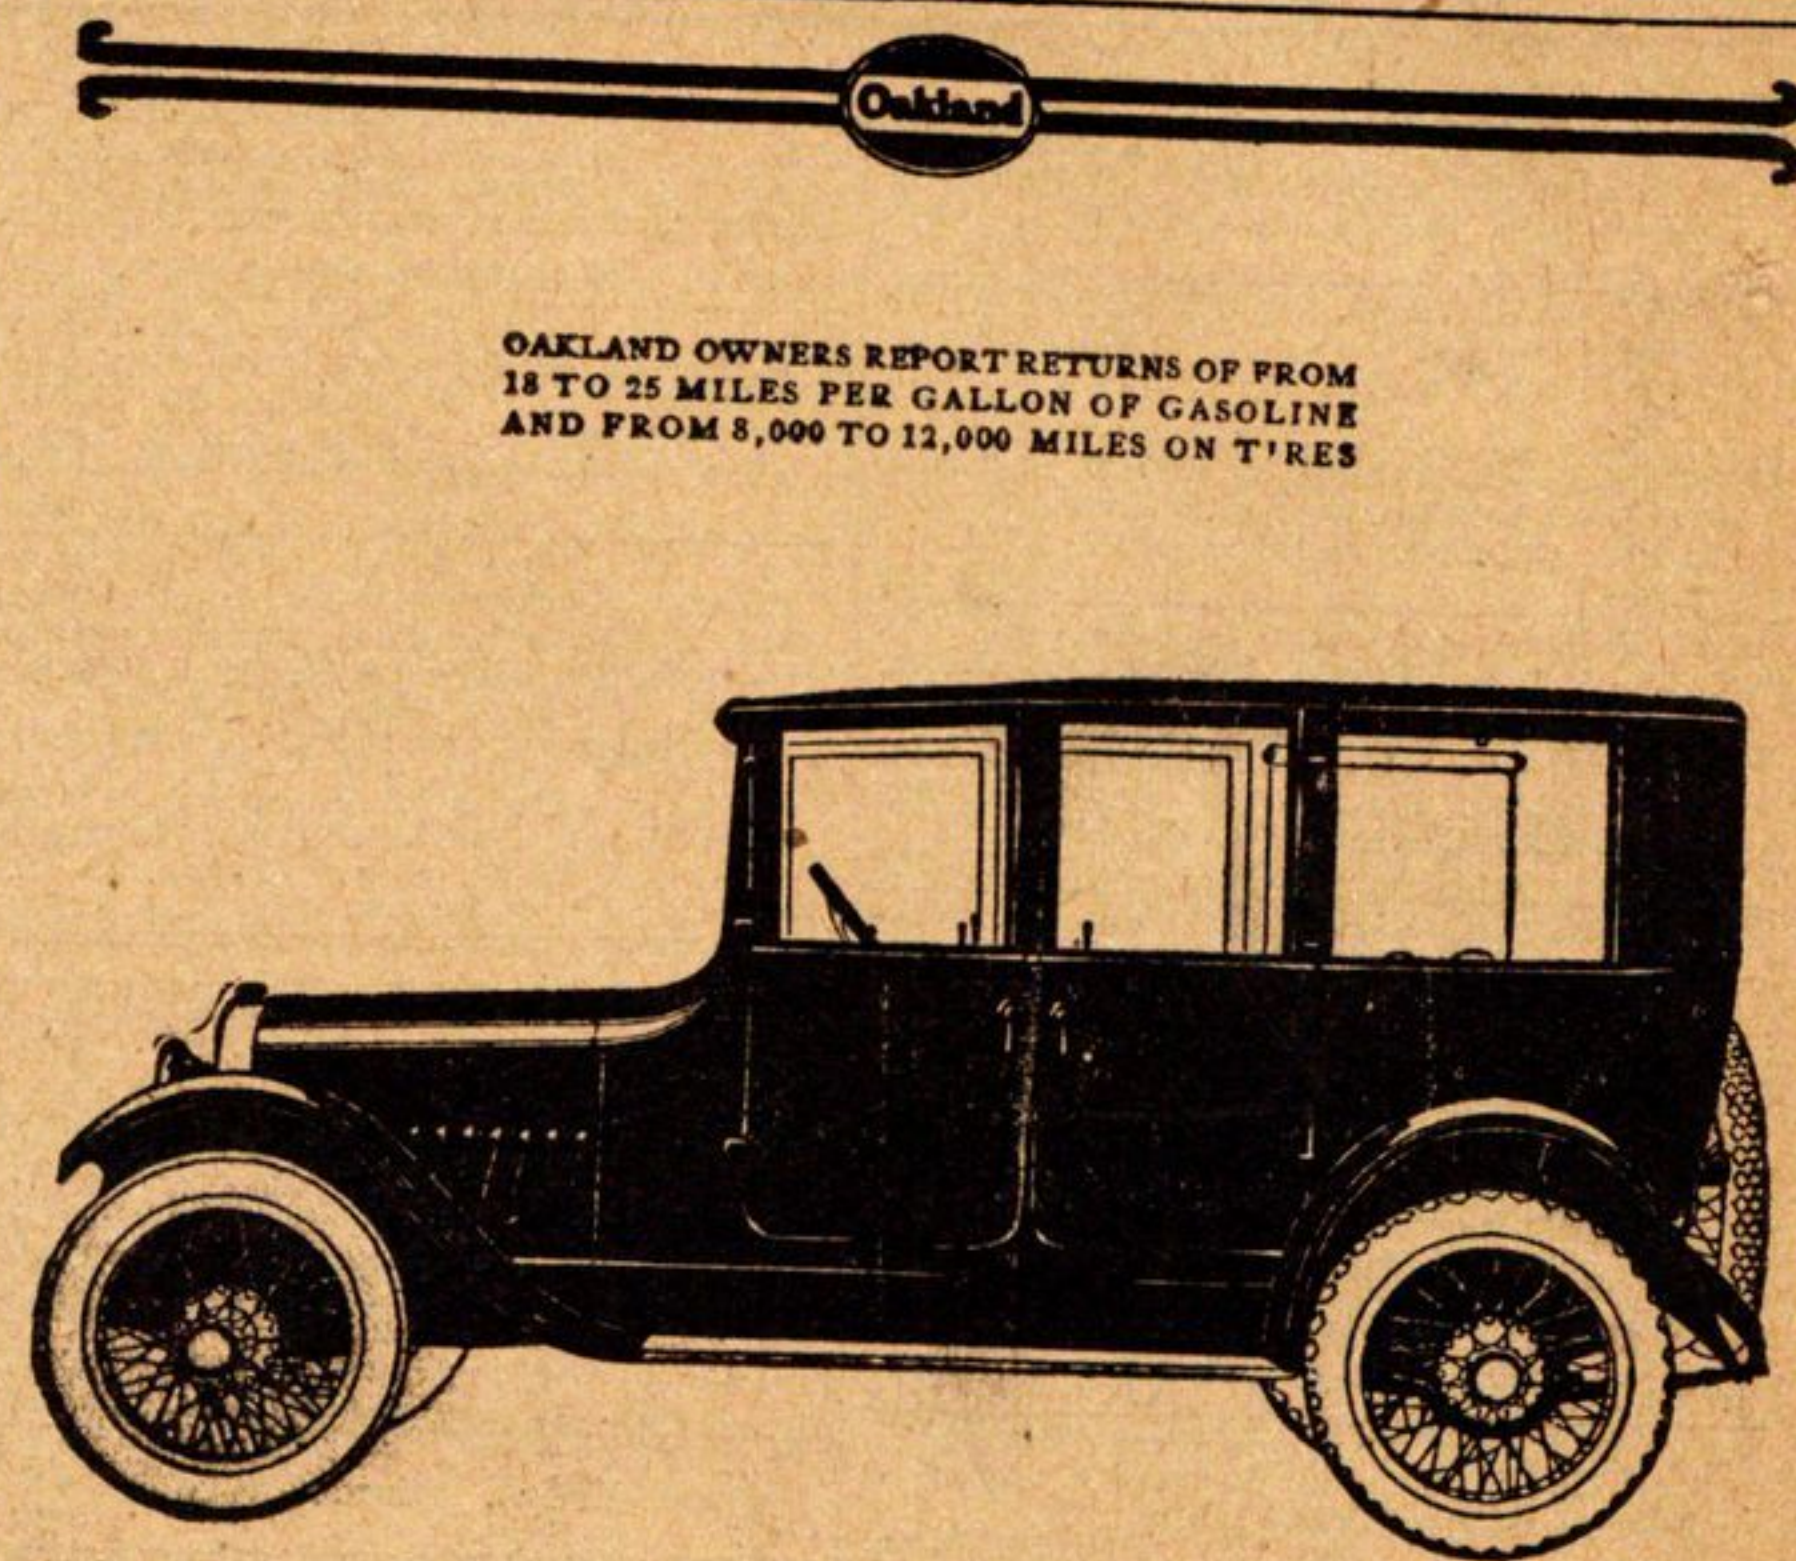

2. The applicant must be in as good health as at the date of discharge or resignation, or at the expiration of the grace period, whichever is the later date, and so state in his application. This allows many to reinstatement up to as late a date as January 1, 1921, without medical examination.

In regard to the reinstatement of insurance lapsed or canceled on or after July 1, 1920, the regulations provide that such action may be taken.

(a) Within three calendar months, including the calendar month for which the unpaid premium was due, provided that the applicant is in good health and so states in his written application.

(b) After three months, including the calendar month for which the premium was due, and within six calendar months, provided that the applicant is in as good health as at the time of application for insurance and so states in his application for reinstatement, and further, that he substantiates his application by a short medical certificate, made at the applicant's expense by a reputable physician licensed to practice medicine.

(c) After six months, and within eighteen months, including the calendar month for which the unpaid premium was due, provided that the applicant is in good health and so states in his application for reinstatement, and further provided that such application is substantiated by a report of a full medical examination, made at the applicant's expense by a reputable physician licensed to practice medicine.

OAKLAND OWNERS REPORT RETURNS OF FROM 18 TO 25 MILES PER GALLON OF GASOLINE AND FROM 8,000 TO 12,000 MILES ON T'RES

**EVEN** if you have time for only a brief visit to our salesroom, you can become well acquainted with the Oakland Sensible Six Sedan.

For it takes just a few minutes for inspection to grow into appreciation of the extraordinary value this car exhibits.

Plain to the most casual view are its strength, balance, roominess and the practical excellence of its refinements and equipment.

This attractive Sedan is the same reliable Oakland of years past, made better through heavier construction and advanced design.

The cars we are now showing preserve Oakland's traditional high power and complete economy in combination with a stronger chassis of longer wheelbase.

Their advantages in performance, reliability and low operating cost are as distinctive as they are satisfying.
