

## Social Happenings in Winnetka & Hubbard Woods. by Ruth Risley

**D**ID ever a summer rush so fast as this one has? Already the foliage is getting that haggard, middle aged look which precedes the coming end of this lovely season and the advent of the time when we may expect winter's blasts, coal famines and colds in the head. That most unwelcome of flowers, the goldenrod, is in thick bloom along the roadside, and many of our hay fever subjects have hastened away to more northern climes.

There is still the possibility of a long hot September before us, to counterbalance the cool summer that has been our portion up to now.

The coming presidential campaigns are looming up on the horizons of even the most indifferent of us. For the first time in our history, women will be an important factor in the election, not only as voters, but in the machinery of the various political parties.

They have proved themselves good orators; they are zealous workers in the routine of office drudgery; their long experience in women's clubs has taught them how to organize effectively. Mrs. Frank Fuller, Mrs. Harold Ickes, Mrs. John Clark Baker, Miss Emily Larned, Mrs. Gordon A. Ramsay, are some of those of their sex who will take a hand in promoting the cause of one or other of the principal candidates this autumn.

The opening meeting of the Winnetka Woman's club will be held on Thursday, October 7, under the auspices of the Civics and Philanthropy department. "Platforms and Policies of our Political Parties and Presidential Candidates" will be the subject under discussion.

### Girl Scouts Back From Herring Lake

Report Wonderful Time at Christ Church Camp in Michigan; Plan Improvements At the Camp

During the last week the Girl Scout Troop of Winnetka returned from their two weeks at Christ church camp at Herring Lake, Mich. The girls are enthusiastic over the time they had. Under the leadership of Miss Margaret Clinch they spent the mornings learning scout craft; the afternoons hiking, swimming, boating and fishing; and their evenings about a camp fire, telling stories and reading. Mrs. Henry R. Hale, Mrs. Harold S. Delay, Mr. and Mrs. William S. Carey, and the rector of Christ church accompanied the girls, making in all a party of seventeen. It was a rare experience and every one of the party was greatly benefited.

This was the third group of Winnetka campers occupying the Christ church property this summer. On July 1 Boy Scout Troop No. 2, under the Rev. Ashley Gerhard, scoutmaster, went into camp, returning to Winnetka July 20. There were 27 in the party, and the boys of the troop made great strides in developing their scouting organization.

These boys were followed on July 21 by the choir boys of the parish. John Rankl, choirmaster, had the assistance of Charles Lewis Day, Alfred V. Horsman, Mrs. William S. Carey and Mrs. Martin Thorsen. The 35 campers who made up this group spent two weeks at Herring Lake, enjoying a never-to-be-forgotten time.

Arrangements have been made for still further enlarging and improving the facilities of this Winnetka camp, so that it gives promise of serving the young people of the community next summer more largely than ever before. A large fireplace is to be built in the main building, new cots and sleeping quarters are to be provided, and at least two additional boats purchased.

## Classify Yourself

We have found it convenient to classify prospective Ford owners according to their knowledge of the car; its usefulness, adaptability, riding comfort, etc., and again according to the amount of energy we must expend before they buy a New Ford Car. The Grades follow:

A—Present Ford owners and their intimate friends who actually know the car will buy nothing else; no effort on our part required.

B—The next door neighbor or acquaintance of a Ford owner, "people of means" or those who now own several cars, are easily convinced and appreciate the value of the Ford.

C—The man who has never had a car, and invariably is misled by the saletalk of the imitation car salesman. When he learns from Ford owners and hears of Ford Service, he forgets the other car unless the information comes too late.

D—"D" stands for many things, but in our case it represents the class who know within themselves that they should drive a Ford but as yet they do not. They are trying to support an "Imitation" or an "In-between," or with false pride and meagre income they deceive themselves, trying to deceive their friends. When they see through that folly, it means the delivery of another Ford car.

In which class do you belong?
