

RED CROSS IN FOURTH ROLL CALL CAMPAIGN

Annual Drive For Funds Begins on Armistice Day, November 11, and Terminates on Thanksgiving Day

The Department of Home Service which last year helped the families of 32,535 needy soldiers and sailors. These men crossed the seas for you.

The Department of Disaster Preparedness. Three times in less than one year this department showed its ability for quick action. When incendiary fires back of the yards drove 603 people into the streets, the Red Cross furnished 1,079 garments and administered food and money to start anew. After the race riots, when 20,000 colored men were temporarily idle, the packers offered to underwrite expenses, if the Red Cross would distribute supplies. The quick relief given not only kept many from starvation, but did much to quiet unrest of 20,000 idle men. When a tornado struck Melrose Park and vicinity, the Red Cross appropriated \$10,000 for first relief, opened stations and co-operated with the local committees in the furnishing of food, clothing and shelter, and later helped in the distribution of \$243,683.87. Through this co-operation many homes were rebuilt which otherwise would have been lost. In case of fire, flood or any other disaster this department is ready to serve your city.

Through the Teaching Center department thousands of Chicago and Cook County women have learned how to care for their sick, in an emergency. The Department of First Aid with its Sanitary training department and classes in water first aid may save the life of one near to you. The Bureau of Junior activities aim is to train children for citizenship through service. Your dollar membership will help in all this work.

Vote to Re-Elect

P. J. CARR

Democratic Candidate for

Trustee Sanitary District of Chicago

Election Day - Nov. 2, 1920

Public sentiment should be aroused in the interest of P. J. Carr, Democratic candidate for Trustee of the Sanitary District of Chicago. Inasmuch as he was one of the staunchest supporters of all projects in which our community was vitally interested, especially in the building of the Lake Front Park and the turning of same over to our village. Improvements in the Wilmette Harbor, also construction of the North Shore Intersecting sewer from Glencoe to connect with the channel at Wilmette.

Mr. Carr has visited our community many times during his term of office, and has taken a keen interest in our welfare. This should entitle him to the support of all the citizens in our immediate locality, irrespective of partisan politics.

Some of the accomplishments of Mr. Carr during his six year term as Trustee of the District include:

Reduction of typhoid rate to 1.4 per hundred thousand.

Reduction of lighting cost \$95.00 per arc light.

Closed Bubbly creek and opened 39th street.

Passed ordinance for bridges at California, Crawford, Cicero and 72nd avenues.

Built sewage plant at Calumet, Morton Grove and Des Plaines.

Reduced Sanitary District tax levy.

Championed ordinance compelling packers to pay their share for sewage disposal.

Advocated sewers in all Chicago suburbs.

Mr. Carr's platform for re-election contains, among other things, a pledge that if elected he will not vote for the issuance of bonds by the Sanitary District without first submitting same to the people for a referendum vote; further that he will continue to work in the interest of better street lighting, good drinking water and a reduction of the tax levy of the District to a minimum.

SIX YEARS OF HONEST, EFFICIENT AND ENERGETIC SERVICE WELL PERFORMED SHOULD ENTITLE TO RE-ELECTION P. J. CARR AS TRUSTEE OF THE SANITARY DISTRICT OF CHICAGO.

ROAD IS OBSCURED BY BURNING LEAVES, TWO AUTOS COLLIDE

Six Northwestern university students escaped with only a few minor injuries from what might have been a serious accident when the automobiles in which they were riding collided in Sheridan road, near Foster street, Evanston.

L. P. Couffer, together with Marie Fisher and Duncan Rockhold, were driving south on Sheridan road between Library place and Foster street. Elizabeth Cutler, Edith Huey and Henrietta Calkins were driving north. There was considerable traffic on the street and at that point there was a heavy smoke from the burning of leaves along the side. Both drivers were apparently blinded by the smoke and a head-on collision resulted.

There were no serious accidents

Torrens Facts

Things You Ought to Know About the Torrens System

WHY

JOSEPH F. HAAS

SHOULD BE RE-ELECTED

RECORDER OF DEEDS AND REGISTRAR OF TITLES

Soon after Joseph F. Haas was elected Recorder of Deeds and Registrar of Titles, he found that the Torrens system was being conducted for the benefit of a small coterie of men who were the recipients of rank favoritism. They claimed to be friends of the Torrens system, but their friendship was based upon what they could get out of it and not on what they could do for it. That these men are willing to spend thousands of dollars in trying to

defeat Joseph F. Haas for re-election only brings up the query "How much more do they expect to gain for themselves by his defeat?"

These men who pose as "friends" of the Torrens system in 1918 went before the County Board and asked that no appropriation be made for the newspaper advertising therefore considered essential for extending and promoting the Torrens system. A private monopoly could ask for no better friends than these men who have made it possible for it to advertise in the daily papers every day, while the Torrens system cannot spend one penny upon such advertisement. The only advertisement which the system receives today is the ability to deliver the goods.

The boom years of the last democratic administration were from 1913 to 1916. Taking the six months period ending June 1, 1913, as a starting point and the six months period ending May 31, 1920, for comparison, it will be found that the number of documents filed during those six months periods has jumped from 4276 to 8983, the number of certificates issued has jumped from 2626 to 4882, the number of transfers from 1903 to 3308, the consideration for those transfers from \$3,034,624.87 to \$5,023,782.00 the number of trust deeds filed from 1444 to 2567, the amount secured by those trust deeds from \$3,070,960.81 to \$8,863,414. In other words the work of the office is nearly double, while it has been handled in a manner that has secured the commendation of the Chicago Bureau of Public Efficiency.

If work is done carelessly or negligently it will be reflected in payments from the indemnity fund. \$1,285.67 has actually been paid out of the indemnity fund for errors during the last administration, as compared with \$52.75 paid out for errors during the administration of Mr. Haas. In addition thereto there are claims aggregating several thousands of dollars now pending for errors made during the last administration, on which payments will have to be made. Compare this with the \$52.75 paid out during this administration.

During the seventeen years and eight months in which the Torrens system was in existence prior to this administration 67,572 documents were registered. During the three years and ten months of the administration of Mr. Haas 54,896 documents have been registered. In addition 2544 decrees have been entered. In only eight cases have the rulings of examiners of title under Mr. Haas ever been disturbed by court order. In the opinions rendered by the Supreme Court of Illinois at the June, 1920, term, the Supreme Court either allowed re-hearings or modified its own opinions in nearly one-third of the cases decided by it. In view of this the record of Mr. Haas and his assistants is a remarkable one. He is proud of his record and justly so.

What Joseph F. Haas stands for is for security of the registered owners and the indemnity fund of the county of Cook. He does not stand for carelessness and negligence merely to allow certain real estate brokers to earn fat commissions.

to any of the occupants of the cars, but both cars were badly damaged.

"You ought to read the newspapers and get a different opinion." "Opinion! Good Lord, man, I have three already."

Save Cook County!

Michael L. Igoe, candidate for State's Attorney, will drive criminals from Cook county, and thereby diminish crime. He will smash organized vice and root out neighborhood temptations which are a menace to our boys and girls.

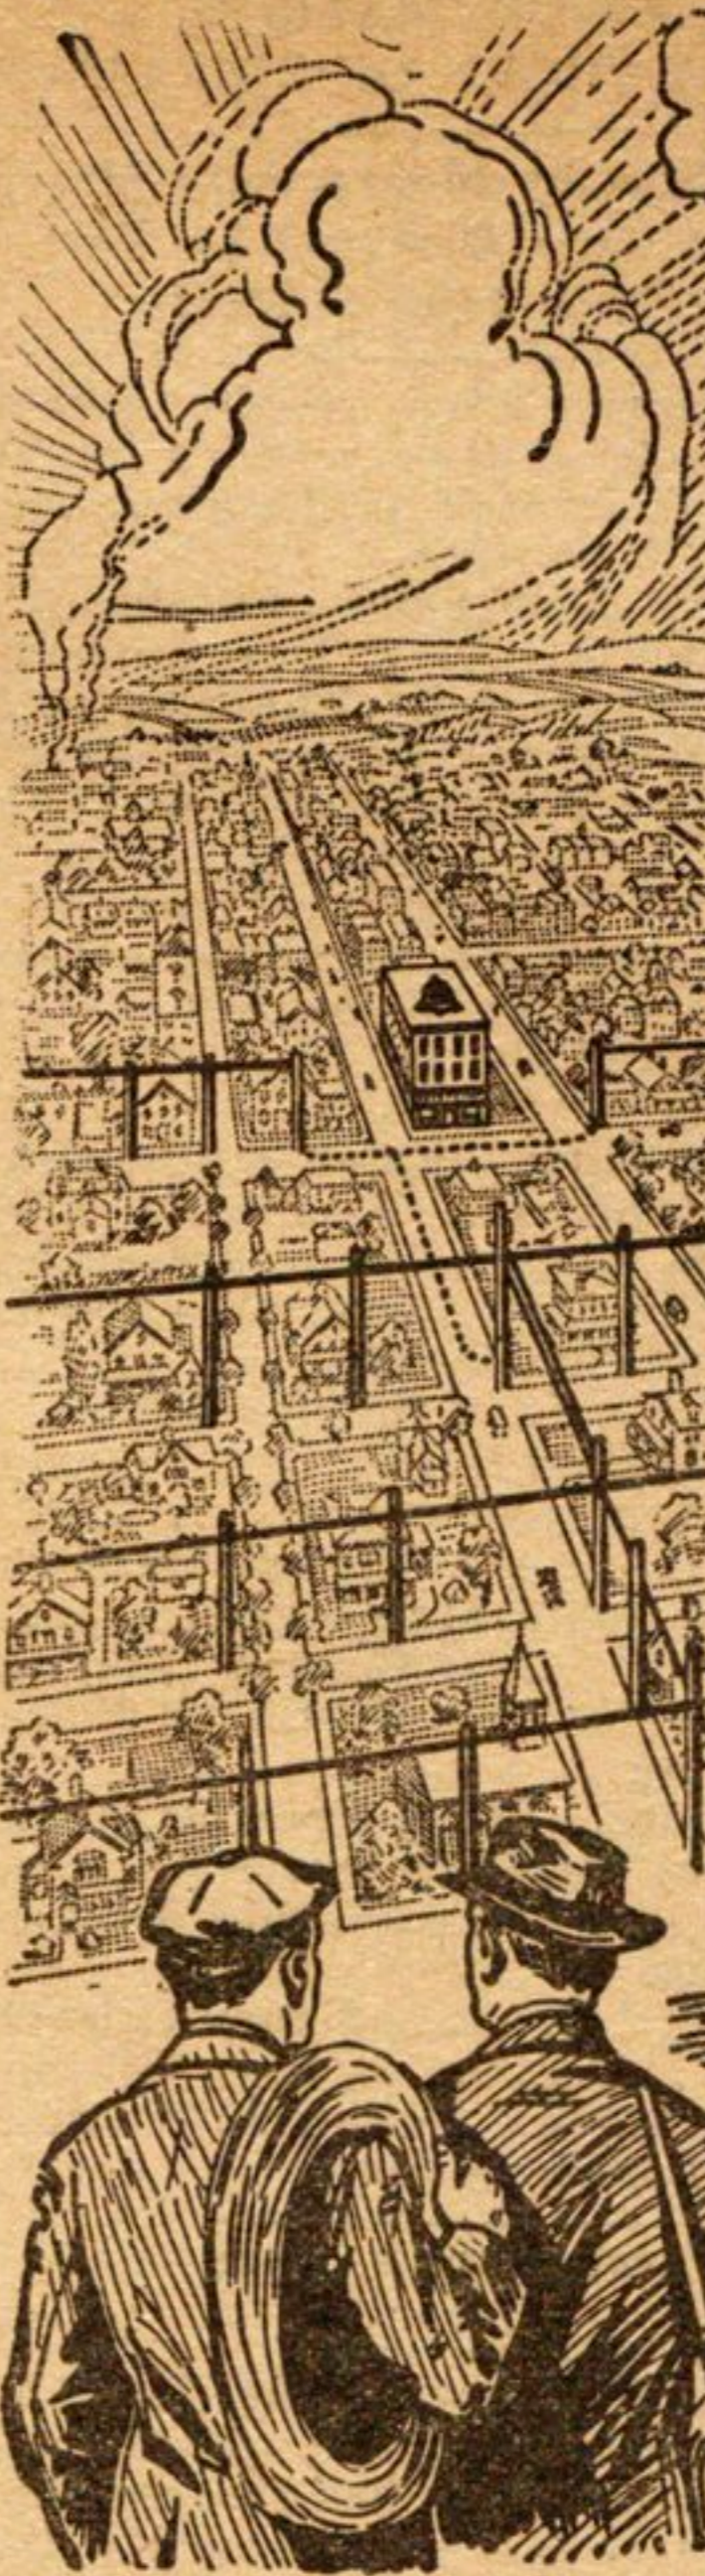

Chicago is facing a very grave moral crisis. Our men and women must decide by their ballot whether crime shall be suppressed, criminals punished, and wastrels in public office held to strict accountability for their acts.

Do you want the forces of evil that are responsible for the appalling vice and crime conditions in Cook county to seize control of the machinery of the criminal law? That is exactly what they propose to do if they should be successful in electing their candidate for State's Attorney.

Your sole reliance for the maintenance of law and order, during the next four years, will be your State's Attorney. If he should be the creature of the forces that are responsible for our existing misfortunes, then, indeed, our situation will be hopeless.

Is it not a matter of enlightened self interest, therefore, that you vote for the candidate who is free from evil alliances, and who is pledged to employ all of the great powers of the office for the safeguarding of the loved ones in your homes and the protection of your civil rights and property. Let us save Chicago by voting for Michael L. Igoe for State's Attorney.

How It Grows

WHEN fifteen telephones are added on a street on which there are 100 telephone users, an additional distribution cable may be necessary.

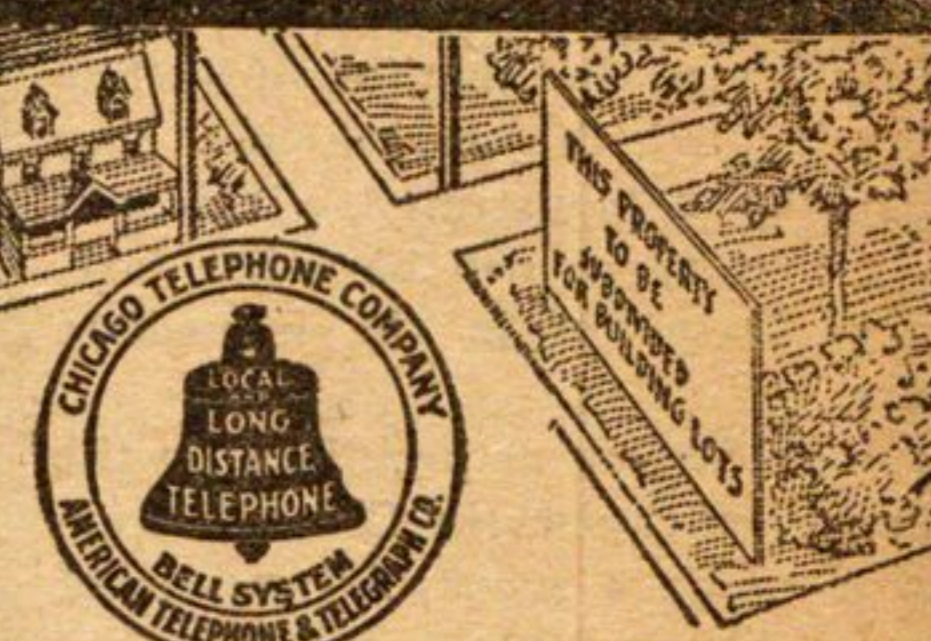

When the same thing happens on six or eight nearby streets, served from the same cable terminal, there must be new main cables from terminal boxes to the exchange.

Such increases from several localities soon call for additions to switchboard and terminal room facilities.

Finally a new exchange, with its costly equipment, must be built, and extensive re-distribution made of the outside plant.

These are some of the elements which enter into the cost of supplying telephone service to growing communities.
