

LOCAL ALUMNI FOLLOW ILLINI-OHIO CONTEST

Anxious State University Should Take the Laurels in Season's Big Football Event

Scores of Illinois University alumni, residents of the north shore, are looking forward keenly to a critical event in the history of the Athletic department of the school when the strong Illini eleven meets the Ohio University squad in the big game of the season which will determine whether Illinois will share championship honors with the Ohio and Wisconsin state universities.

The largest crowd that ever witnessed a football game at the University of Illinois will see Illinois and Ohio state fight it out for the Big Ten championship. This game will mark the close of one of the hardest fought pennant races that the western gridiron has ever furnished.

Ohio Has Clean Slate

Ohio comes to Illinois with a clean slate having conquered Purdue, Chicago, Michigan and Wisconsin while the Indians forced Iowa, Minnesota, Michigan and Chicago to bow to defeat only to lose to Wisconsin at Madison Saturday in a spectacular game which ended with the score of 14 to 10 in favor of the Badgers.

The winner of the game will be marked as the Conference champions and will justly be granted the laurels that are accorded to a great football team.

Ohio, rested, reorganized and in perfect condition as a result of an off week will have the advantage. Jack Wilce has had two weeks to get new formations and plays drilled into his squad and has also had the advantage of seeing the Zuppkeites cut loose with all they had Saturday at Madison. The entire coaching staff at Ohio was present at this game and they should have an exact idea of what the Suckers can do.

Well Matched Squads

Between the two teams there is little to choose. Both have become famous in the use of the forward pass and the Walquist to Carney combination will be matched with one equally good, Workman to Stincomb. Walquist is more accurate than Workman but the Buckeye wonder is unequalled with the length of his passes, passing 45 and 50 yards with ease. Stincomb while not as heavy as Carney is faster and has a great reputation of snapping passes.

The lines are about equal in weight and both are capable of putting up a wonderful defense. Captain Huffman, the big Buckeye tackle, is one of the best forwards in the game and it was his terrific smashing through the opposing lines that has brought victories to the Scarlet and Gray. He won the Michigan game almost single handed, slashing through their line blocking Steketee's punt and falling on the ball for an Ohio touchdown.

The game will be a hard, vicious one, Ohio wishing to secure revenge for the trimming they received last year and Illinois backed by an enormous crowd, with the championship at stake, will fight to the very end. Ohio is sending 2,000 rooters and a 100 piece band to encourage their team, and enthusiasm is at a very high pitch at Columbus over the game.

GOLD PRODUCTION INCREASES DURING 10 YEARS IN CANADA

Ottawa.—Gold to the value of \$63,107,416 has been taken from the mines of northern Ontario in the past ten years, according to a government report. The increase in output in a decade has been remarkable. It was \$35,539 in 1910 and approximately \$10,000,000 in 1919. Production this year, it is expected, will be greater than last. Experts declare there is from \$70,000,000 to \$100,000,000 worth of ore in sight in properties now under operation.

Gold production of the Porcupine district alone since 1910 has been \$59,650,461. That of the Kirkland lake district since 1913 has been \$3,456,955. Dividends paid by the mines of these two districts in the last two years have been \$16,816,535, of which the Porcupine mines have paid \$16,240,598.

One mine in the Porcupine claims a more reservation of \$40,000,000 and its development is still in its infancy. One of the leading mines in Kirkland lake is recovering an average of nearly \$25 a ton from the ore treated. Among the newer and promising mines are those at Boston creek, Shining tree, Beaverhouse creek, Bourke's siding, Lightning River, Fort Matachewan and Munro.

WELL GUARDED

Two army trucks surrounded by a large guard to troops passed through the streets of Portland, Oregon, and the general belief was that gold was being shipped to Japan. It turned out that the trucks contained 2,000 quarts of whiskey for military hospitals in California.

STATEMENT

of the Treasurer of the Village of Winnetka for the Fiscal Year ending March 31st, 1920, of all moneys received by the Village of Winnetka in the discharge of its governmental or municipal functions and paid out by such Treasurer for the Village of Winnetka in the discharge of governmental or municipal debts and liabilities.

MANY a good capable man passes a whole lifetime without ever learning the VALUE OF DRESSING WELL.

When you go to hunt work, the very first thing the man you ask for a position sees and judges you by, is your CLOTHES.

How else can he first judge you?

They are the sign to him of your success or failure; no man wants to hire a failure.

This is a serious, earnest talk we wish to make to deserving men, whether they order their clothes from us or not.

We make good "Nifty" clothes.
