

## Activities of North Shore Clubs

by Ruth Risley

**A**LLEN D. ALBERT, Past President of the International Association of Rotary Clubs, will speak before the members of the Wilmette Woman's Club and their husbands and friends next Tuesday evening at the clubhouse at eight o'clock on "Community Work." This is to be an open meeting and an urgent invitation is extended to the entire village to take advantage of this splendid opportunity to become better informed on Community Work in general.

The hosts and hostesses will include Mrs. Helen Gage, Mr. and Mrs. Henry B. Gates, Dr. and Mrs. Donald M. Gallie, Mr. and Mrs. Wallace Kerr and Mr. and Mrs. John Clark Baker.

The program of the Winnetka Woman's club for Thursday, March 24, is in charge of the Music committee. They have secured the services of Zetta Gay Whitson, violin; Elizabeth Olk-Roeklk, 'cello, and Violet Martens Link, piano. Mrs. Guy Stuart Bailey, soprano, will sing with Mrs. Lawrence L. Doty at the piano. This promises to be one of the most delightful musicales of the year.

The Young Ladies' auxiliary of the Wilmette Woman's club will be in charge of the program to be presented before the club at its meeting on Tuesday evening, April 5, at the clubhouse. The members are now busily engaged in rehearsals for a short playlet, the name of which as yet has not been announced. Mrs. John S. Stevens is chairman of the Auxiliary, and other officers include Miss Katherine Winship, president; Miss Winifred Reinboth, vice-president; Miss Helen Bell, secretary; Miss Gladys Kuelzow, treasurer; Miss Grace Hess, chairman, Program committee; Miss Norreh Lyons, chairman Philanthropy committee, and Miss Florence Wray, chairman Social committee.

Of interest to all university women is the announcement that Dallas Lore Sharp will give the annual Phi Beta Kappa address in Harris Hall, Northwestern university, on Friday evening, May 6, at 8 o'clock. His subject will be "Education for Authority."

Readers of the Atlantic Monthly, as well as the owners of his sprightly books, "Rook and Meadows," "The Hills of Hingham," "The Lay of the Land," and "The Whole Year Round," have long recognized his intellectual charm, and the depth and inspiration of his cultural message.

The Phi Beta Kappa address, which is open to the public, always brings together a choice audience, which will assuredly not be disappointed this year in Mr. Sharp.

At the meeting of the Tenth District Federation held on Thursday at the Woman's Library club of Glencoe, Mrs. James A. Campbell, retiring president of the Rogers Park Woman's club was elected president of the

district; Mrs. Dwight C. Orcutt of Glencoe, was elected vice president-at-large, and Mrs. Clark of the Bronson Circle of Rogers Park, was elected recording secretary.

There was an exceptionally large attendance at the meeting and following the usual business session, a delightful program was enjoyed.

The Woman's Library club of Glencoe will hold a business meeting on Thursday, March 31, at two-thirty o'clock. A group of musical selections by Miss Kathryn Greene and Mrs. John W. Hansel, Jr., will be presented.

Mrs. Maurice H. Lieber of Winnetka, will speak before the members of the Rogers Park Woman's club on next Tuesday afternoon on "The Educational Department of the State."

The North Shore Golf club is being attractively redecorated this month, in order to be in readiness as soon as the entertaining season opens. The club will be open for players on April 1.

### NORTH SHORE ATTORNEY NAMED BRUNDAGE AID

William Lister, for six years city attorney of Evanston, and well known throughout the north shore as the nemesis of the so-called "blind-pig" operators, has been appointed assistant attorney general under Edward J. Brundage, attorney general for the state of Illinois.

Attorney Lister gained distinction in this vicinity through his application of adjunctive remedies employed to enjoin the sale of intoxicating

liquor within the prohibition territory in and surrounding Evanston. He is a member of the legislative committee of the Illinois Firemen's association and chairman of the judiciary committee of the national Firemen's association. The firemen's pension laws now on the statute books of Illinois are a product of his service.

# What Does Your Money Buy?

Production costs on all machinery are figured on a basis of price per pound.

This fact is seldom advertised and the buying public is never so advised.

The quality of vital materials in the FORD CAR are seldom equalled and have never been surpassed in any other car, barring none. The materials in the best French car, which is looked upon as the finest or highest priced, were not (according to their own engineers) of better grade than those of the FORD CAR.

This accounts for the extremely small depreciation of the FORD while excessive price or poor materials must account for the extreme depreciation in one thousand to three thousand dollar cars.

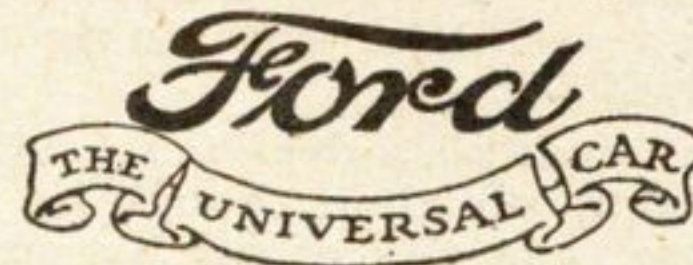

For your own satisfaction figure PRICE PER POUND for car VALUES and your good judgment will convince you of the folly in buying "In-betweens"—imitations of higher priced cars.

## NEW GLENVIEW HOME NEARS COMPLETION

Clubhouse Will Be Ready for Occupancy May 1; Approximate Reproduction of Former Structure

According to information received from the contractors, the new Glenview Golf club now being erected on the site of the structure which was destroyed by fire late last spring, will be completed and ready for the formal opening May 1.

The erection of the new building has advanced very rapidly since the work began last August. It will be as nearly as possible an exact reproduction of the former structure. It was the desire of the members that it should be so built.

### Old English Style

The style of architecture is old English. In the main dining room on the first floor the exposed trusses are of huge oak timbers, and on the outside of the building will also be exposed oak timbers. At the front entrance there will be erected a small porch, the material of which is from the old frigate "Constitution," of the war of 1812.

On the first floor of the east wing of the building are the men's locker rooms, showers and dressing rooms. There will be room for 400 lockers, and some fifty or sixty private shower rooms. The dining room and the kitchen occupy the first floor of the north wing. On the first floor will also be a large lounging room and a cafe, to be used on special occasions and at times when the main dining room is not needed.

### Family Apartments

The upper floor has family apartments, and bachelors' quarters. There are eleven apartments for families and seventeen single suites.

One of the points of unusual interest is the immense kitchen with all modern mechanical appliances, steam tables and electrical appliances. The club will have its own refrigerator system for making its ice and for cooling its store rooms.
