Benefits of a Village Plan

"When people begin to feel the ties which bind them together as citizens, and which attach them to the place which they inhabit, when they understand that their prosperity, their dignity, their happiness are bound up with the welfare of the city; when they learn to cherish their home town, their love for which unites with and intensifies their love for the nation, this expansion of civic consciousness is not the least of the benefactions gained from the adoption of comprehensive programs for future civic development.

There's your story, Harry. By the by, "Little Nell" lost part of his "winnings" when his "cream shade" Easter bonnet met up with one of the pre-April showers. No report as yet on the wicked gloves.
