**SENTIMENTAL**

*A dollar never becomes sentimental—but it gives good service to the thrifty.*

A DOLLAR never becomes sentimental. It says "good bye" as smilingly as it says "hello". The thrifty man imprisons his dollars in a savings bank and keeps on adding to the balance. They earn a good rate of interest for him and when he is ready to make a real investment he is certain we can give him real disinterested advice.

Back of this new standard of prices is a bit of history. Last September the Franklin cut its price drastically. A remarkable sales record followed. For months past Franklin business has required normal capacity production. Since December last, there has not been on hand at the factory at any one day more than three days' production of cars.

This favorable situation has effected economies which make possible the present revision, thereby creating a new opportunity for purchasers, and again emphasizing the proven advantages of Franklin performance—

20 miles to the gallon of gasoline; 12,500 miles to the set of tires; 50% slower yearly depreciation
