

## ARDEN SHORE NEEDS TOLD IN NEW APPEAL

Toys, Dress Goods, Baby Carriages, Bathing Suits, Bats and Balls and a Piano Among Necessities

Arden Shore, now in full swing providing a providential "breathing spell" for mothers and children of Chicago's tenements, is experiencing an increasing need for equipment and paraphernalia essential to adequate conduct of the summer camp.

"The nurse in charge of the camp hospital", reads an appeal penned to the Winnetka Weekly Talk, "wants a small sterilizer and rubber articles suitable for hospital use.

"The Kindergartners need more chairs and the little folks would like to have some soft rubber balls, a toy engine and some railroad track—that would be just about heaven for them.

"The group of undernourished girls want very much some pieces of colored organdie, silks and worsteds; also some raffia. These girls can not indulge in all the active sports of the camp and a little fancy work makes them happy while they are resting under the trees.

### 'Boyville' Calls

"The boys in 'Boyville' have a lot of wants—balls and bats, horizontal bars, and for quiet hours competitive games, copies of Huckleberry Finn, Tom Sawyer and the Tarzan stories.

"In the Babyfold they need more baby carriages, and on the beach there is always a cry for more bathing suits and bath towels.

"The camp also needs beds, sta-

tionery, bath tubs and, last but not least, a piano. The old one is almost beyond repair."

Arden Shore directors wish, through the columns of The Lake Shore News, to express their thanks to the many friends of the camp for the generous response in the past to appeals for special needs. Articles that are no longer needed in the homes often bring untold happiness to these poor people who have few comforts and scant pleasure in the humdrum tenement existence.

Mrs. Bruce MacLeish, 85 Wentworth avenue, Glencoe, Phone Glencoe 186, will receive communications and attend to the disposition of gifts.

## EXTRA SPECIAL ANNOUNCEMENT

# 10,000 MILE GUARANTEE HYDRO-TORON TIRES

This guarantee is not only backed by the factory, it is our personal guarantee as well. All adjustments will be taken care of direct, there will be no need of the tires being send to the company and no waits for the proper fixing of your claims.

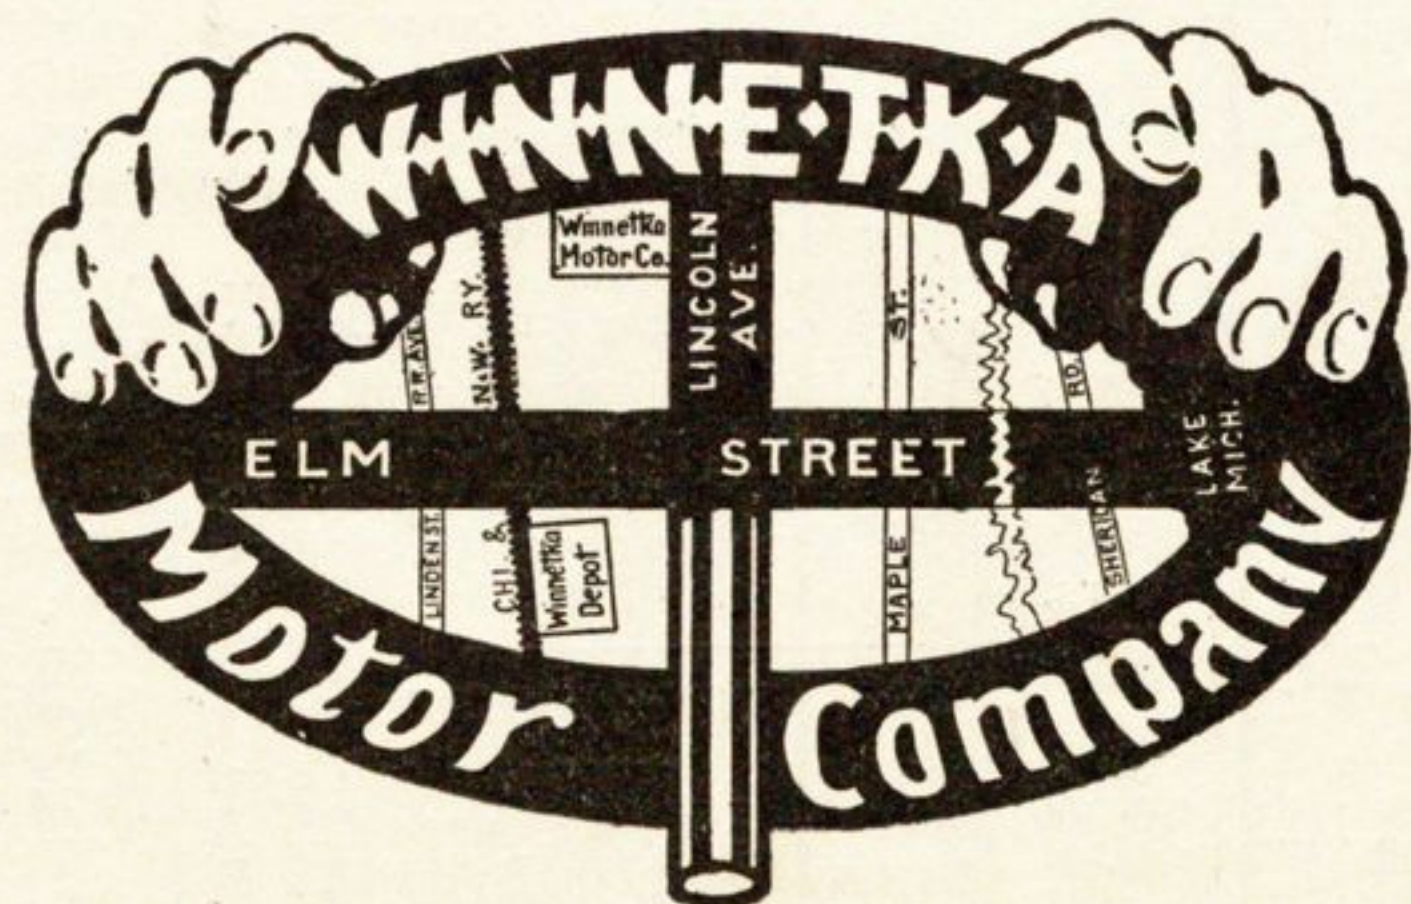

The strength of these tires is greatly increased by the TORON (no rot) process, a chemical treatment that prevents oxidation.

It is known that after an ordinary tire has been run 5000 miles the cotton fabric in it, even if the best quality, drops fully 33 1-3% in strength. A HYDRO-TORON tire with every layer a 5949 layer will have its strength pulled down less than 7% in 5000 miles. The fabric in the ordinary tire goes bad at 2000 to 3000 miles, at 5000 miles the TORON fabric is almost as good as new.

There is more rubber in HYDRO-TORON tires. The process makes for a greater percentage of rubber in the fabric, and between the fabric layers, making a better holding power, and cutting down the possibility of rot still more.

This is an eventful week! Pageants of Progress remind us how much has been accomplished since the Mayflower brought the little band of Pilgrims to the wilderness of a new world three hundred years ago. Time flies!

KIDDIE NOOK is also celebrating this week by repeating the remarkable sale which has proven so popular during the past week. Some very pretty dresses, rompers, and many articles of value to the children, will be offered at prices which may never be possible again! Here are a few, for instance:

- Colored Organdies - - - - \$2.95
- Best Imported Organdies - - 4.95
- Devonshires - - - - - 3.95
- Peter Pan and Imported Gingham 4.95

This may be your last opportunity to secure some of these exclusive garments for "Almost Nothing." Time Flies.
