

News of the North Shore Golf Clubs

by Everett Wilson

BOB-O-LINK GOLF CLUB was the host to the Woman's Western Golf association last Wednesday in a one-day tournament. A large number of woman golfers from the middle west were entered. The qualifying round of the golf club championship for women was held on the preceding day. The second round of the Club Championship Clock trophy will be completed Saturday. A match play event—eighteen holes, $\frac{3}{4}$ handicap—will conclude the week's program.

The first round of the President's trophy is scheduled for Saturday at the North Shore Golf club. This unusually fine trophy will be hard to win in view of the keen competition which has featured recent events at the North Shore club. The E. B. Shapker trophy will be knocked down to the strongest bidder on the same day.

The final round of the Park Board cup will probably be played on Saturday or Sunday of this week at the Winnetka Playfield Association. The second round of the August class Tournament will be held on Saturday and Sunday. A large entry is expected for the Martin Challenge cup on August 20.

The sixth Annual Tam 'O Shanter event was held this week at Westmoreland. Fully thirty foursomes started out in the qualifying round which was held on Wednesday. Qualifiers will be divided into flights and the winners in each flight will be awarded appropriate prizes of golf equipment. On Saturday there will be the weekly fellowship cup in addition to the St. Andrew's Trophy and the second round of the Angus cup. The Angus cup was won last year by J. D. W. Archer.

The Sunset Tournament will be held at Skokie on Friday, August 12. This event is played over the second nine holes with one-half of three quarters deducted from the combined handicaps of each team of two players. The first round of the Club Championship tournament will be played on Saturday; Match play, 18 holes, no handicap, five flights.

"TWO PERCENT AMERICANS"

After reviewing a parade in Cleveland, Ohio, recently in which the United States flag was carried, John G. Emery, national commander of the American Legion, made a statement in which he scored "the two-percent Americans" who fail to remove their hats when the colors are passing.

Seat Sale Heavy For Tennis Matches

Big Gallery to Witness Jap-India
Matches at Onwentsia Turf Courts
at Lake Forest

With the big event a week off, more than half of the accommodations of about 4,000 seats have been disposed of for the Japan-India semi-final round match of the Davis cup tennis series, which will be held on the turf courts of the Onwentsia club, Lake Forest, Aug. 18 to 20. Both the two Japanese aces, Zenzo Shimidzu and Schiyi Kumagae, and the India team are in Chicago.

Zenzo Shimidzu fell ill with a touch of ptomaine poisoning in New England last week, but last reports described him as almost in shape, and sure to be at his best in the matches with India.

The seat sale for the Japan-India western Davis cup headquarters, 1506 matches is being conducted by the Mallers building, 5 South Wabash avenue, Chicago. The series seats are transformable, and can be used by a different person each day.

DONT ORDER YOUR COAL

Don't assume the worry of added dirt and labor.
There's a BETTER WAY to heat your home. Use

KLEEN-HEET

No labor — No Coal — No Ashes

—the latest and best oil-burning appliance. It creates and radiates pure, clean heat without the need of a bit of attention. It's absolutely safe, too — approved by the National Board of Fire Underwriters — and it's cheaper than coal-burning.

BREAK THE SHACKLES

that have chained you each winter to the drudgery of furnace care. Forget your troubles — save yourself or your women folks the nuisance of furnace tending — get in line with Progress and heat your home the easy and correct way.

AUTOMATIC CONTROL

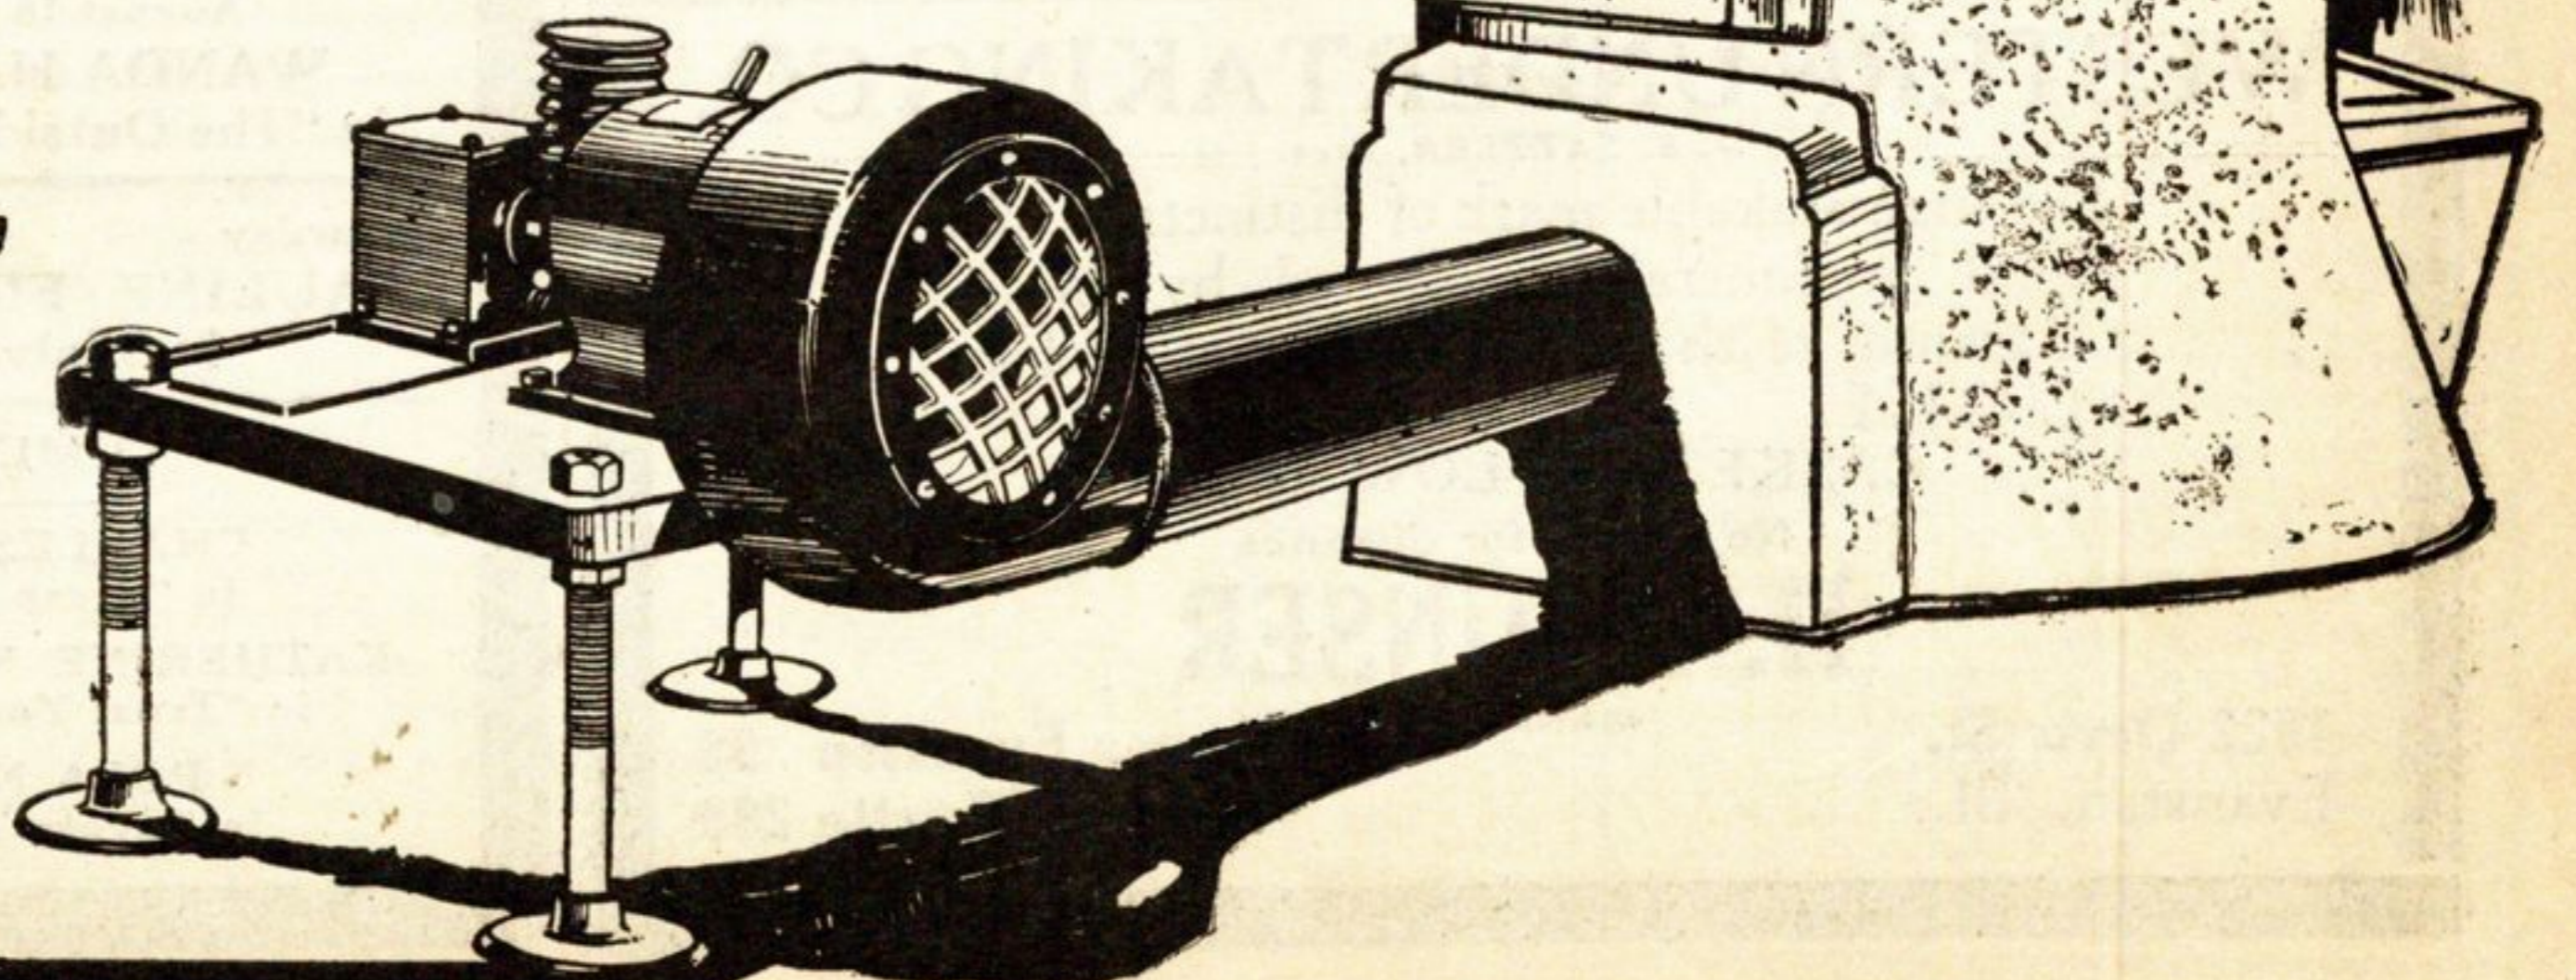

KLEEN-HEET is as easy to control as the electric light. Just turn the thermostat indicator to the degree of temperature you desire and that heat will be constantly maintained for days or weeks or months. It operates ENTIRELY AUTOMATICALLY!

If you operate your own heating plant and are "fed up" on the dirt and labor of a coal burning equipment—write us for the story of KLEEN-HEET.

Winter will soon be here—call, write or phone TODAY.
