

Victoria Reopens With Stock Plays

The beautiful Victoria theater on Chicago's North Side, located at Belmont and Sheffield avenues, under the management of Frank A. P. Gazzolo, will be the home this season of a permanent resident stock company, an institution which has regained its old time favor.

Only the latest "Loop" successes will be presented with a weekly change of play. Admission prices have been reduced to pre-war levels. Sunday, Thursday and Saturday matinees are on the program.

Starting Sunday matinee, October 2, the Victoria theater resident stock company will be seen in "Adam and Eva", a new comedy of American home life that had its Chicago premiere at the La Salle theater last season.

The company includes Jack Stuard, Rose Dean, Arline Althoff, Eugene McDonald, Milton Kibbee, Margaret Leonard, Harry Dickeson, Willard Kent, Elma Cornell Hall, Fannie Stanley, Oyah Fox, Bob Jones, and Willis Hall.

A few of the plays to be presented are "Smilin' Through", "Turn to the Right", "The Passion Flower", "The Sign on the Door", "Transplanting Jean", "The Tiger Rose", "Mama's Affair", "Smooth as Silk", "May Time", "Up in Mabel's Room", "The Guest of Honor", "Experience".

RETURN FROM EUROPE

Among Americans returning home from Europe this week were Mrs. W. L. Martin, John S. Martin and Briton Martin of 812 Ash street; who arrived at New York Wednesday on the White Star liner Olympic from Southampton and Cherbourg.

DUBRUEIL'S NEWEST EATING HOUSE ON THE NORTH SHORE

What is perhaps the north shore's most dainty and elaborate eating place opened this week at 620 Davis street, Evanston, under the very satisfactory name DuBrueil's.

Of elaborate appointment DuBrueil's possess that desirable quality sought by restaurant habitués but which, sad to relate, is too often entirely lacking. Reference is to that something called "atmosphere". There is atmosphere about the place that holds one and inevitably calls one back for another taste.

Coupled with the "atmosphere" is some real wholesome food coming from a cuisine presided over by Rupert Stark, formerly pastry chef at Theobold's, and Henry Ellerbee, chef of the Chicago Beach hotel.

Leon J. and W. A. DuBrueil are the proprietors. The former was manager of the catering department the Cooper-Carlton hotel and the latter a leader in the candy and confectionery business in Evanston.

GRIDDERS IN SCORELESS TIE

New Trier Township High school gridders battled the strong Waukegan High eleven to a scoreless tie Saturday. New Trier outplayed the upper north shore lads at every stage of the combat but a soggy field and a drizzling rain, which made the pigskin too slippery to handle effectively, kept both squads out of the scoring column.

Miss Harriot Houghteling, daughter of Mrs. James L. Houghteling of Hubbard Woods, arrived in the village this week from St. Anthony, Newfoundland, where she spent the summer with Dr. and Mrs. Wilfred Grenfell.

An Explanation

By The Master Plumbers of Evanston,
Wilmette and Kenilworth

A Plain Statement of Facts in the Controversy
Between the Master Plumbers and the
Plumbers Union

In Violation of the arbitration award of Judge K. M. Landis, the Plumbers Union has refused to permit its members to work at the arbitrated wage scale, has called a strike in Evanston and has announced that "Never in the future" can union plumbers work for Evanston Master Plumbers who have elected to stand by Judge Landis' decision.

The union gave us until last Saturday noon, September 17, 1921, to sign up at the old wage scale of \$1.25 per hour, they to ignore their agreement to abide by Judge Landis decision. All but one Evanston master plumber refused to be coerced or intimidated.

It is important that the public be acquainted with the facts that it may co-operate with the master plumbers in bringing about lower prices and normal American conditions in the building trades.

WHY PLUMBERS' WAGE WAS FIXED AT 95c

Judge Landis fixed the plumbers' wage at 95c per hour, somewhat lower than the wage for other skilled labor, because the plumbers refuse to allow any but union plumbers to do the rough, unskilled labor attendant upon the installation of plumbing. Their rules require that none but union plumbers shall carry plumbing materials into buildings and do other similar unskilled labor. This condition does not apply to other skilled laborers. The Bricklayer, for instance, has his brick and mortar brought to him by a lower waged hod carrier. Judge Landis justly ruled that for this sort of work the plumbers are not entitled to pay as skilled laborers. After making allowance for the average amount of unskilled labor they do he fixed their pay at 95c. He gave them until Nov. 1 to revise their rules with the understanding that he would readjust their wages when they did so.

HOW YOU CAN HELP LOWER PLUMBING COSTS

When the Master Plumbers and the Plumber's Union agreed to enter into the arbitration of the building trades situation they both bound themselves in honor to accept the award. The union is insisting on the same wage scale that prevailed before the arbitration.

We are asking the public to help us uphold Judge Landis' decision, enforce American principles of fair play and bring down the cost of plumbing. We ask you to support us in our refusal to be dictated to, or intimidated by the Plumber's Union — we want you to realize that we are fighting YOUR battles for lower prices, as well as our own.

We ask you to be patient in our temporary shortage of labor. Above all we ask you not to destroy the effects of the Landis decision by giving your support to any master plumbers who have surrendered to the union and joined with it in its scheme for making the public pay abnormally high prices.

We ask you to study the facts and act as enlightened American citizens should act. With your support, we can give you assurance that we shall soon resume operation with full forces and in accordance with the Landis decision.

These are the Master Plumbers that are upholding Judge Landis' ruling.

Dependable Repair Work

Dependable repairs are those repairs that are never in evidence after they are once taken care of. Careless and defective work shows itself soon, usually at the most inopportune times. Have you ever had the misfortune of getting miles and miles away from a garage and have a carelessly put together job come apart again? That is one of the consequences of poor work.

A good job is fully guaranteeable, and every job that leaves this place carries a warranty with it that it is done well and that it will stand up. This means that you can drive away and forget the new part that has just been put in, or the repair that has just been made.

Drive in and let us look your car over. Our expert men can diagnose its trouble immediately.
