INDIAN HILL AFTER IMPROVED STATION

Appoint Special Station and Train Service Committee To Hasten Improved Train Facilities

The Indian Hill Improvement association began its winter activities under auspicious circumstances at a meeting held in the New Trier High school last Monday night. The mess hall of the school was filled with an enthusiastic growth which promises well for a successful year for the association.

The committee chairmen and committee members were announced. In addition to the previous committees, an important new committee has been formed called the Station and Train Service committee. The Indian Hill district has for a long time felt the need of improved station facilities, and the formation of this committee has as its main objective the accomplishment of this long felt need. It is improbable that a permanent structure will be erected until the question of track elevation or depression is finally settled, though in the meantime the community hopes for an improvement over the present inadequate station facilities. The accomplishment of this purpose will doubtless be one of the main activities of the association during the coming season.

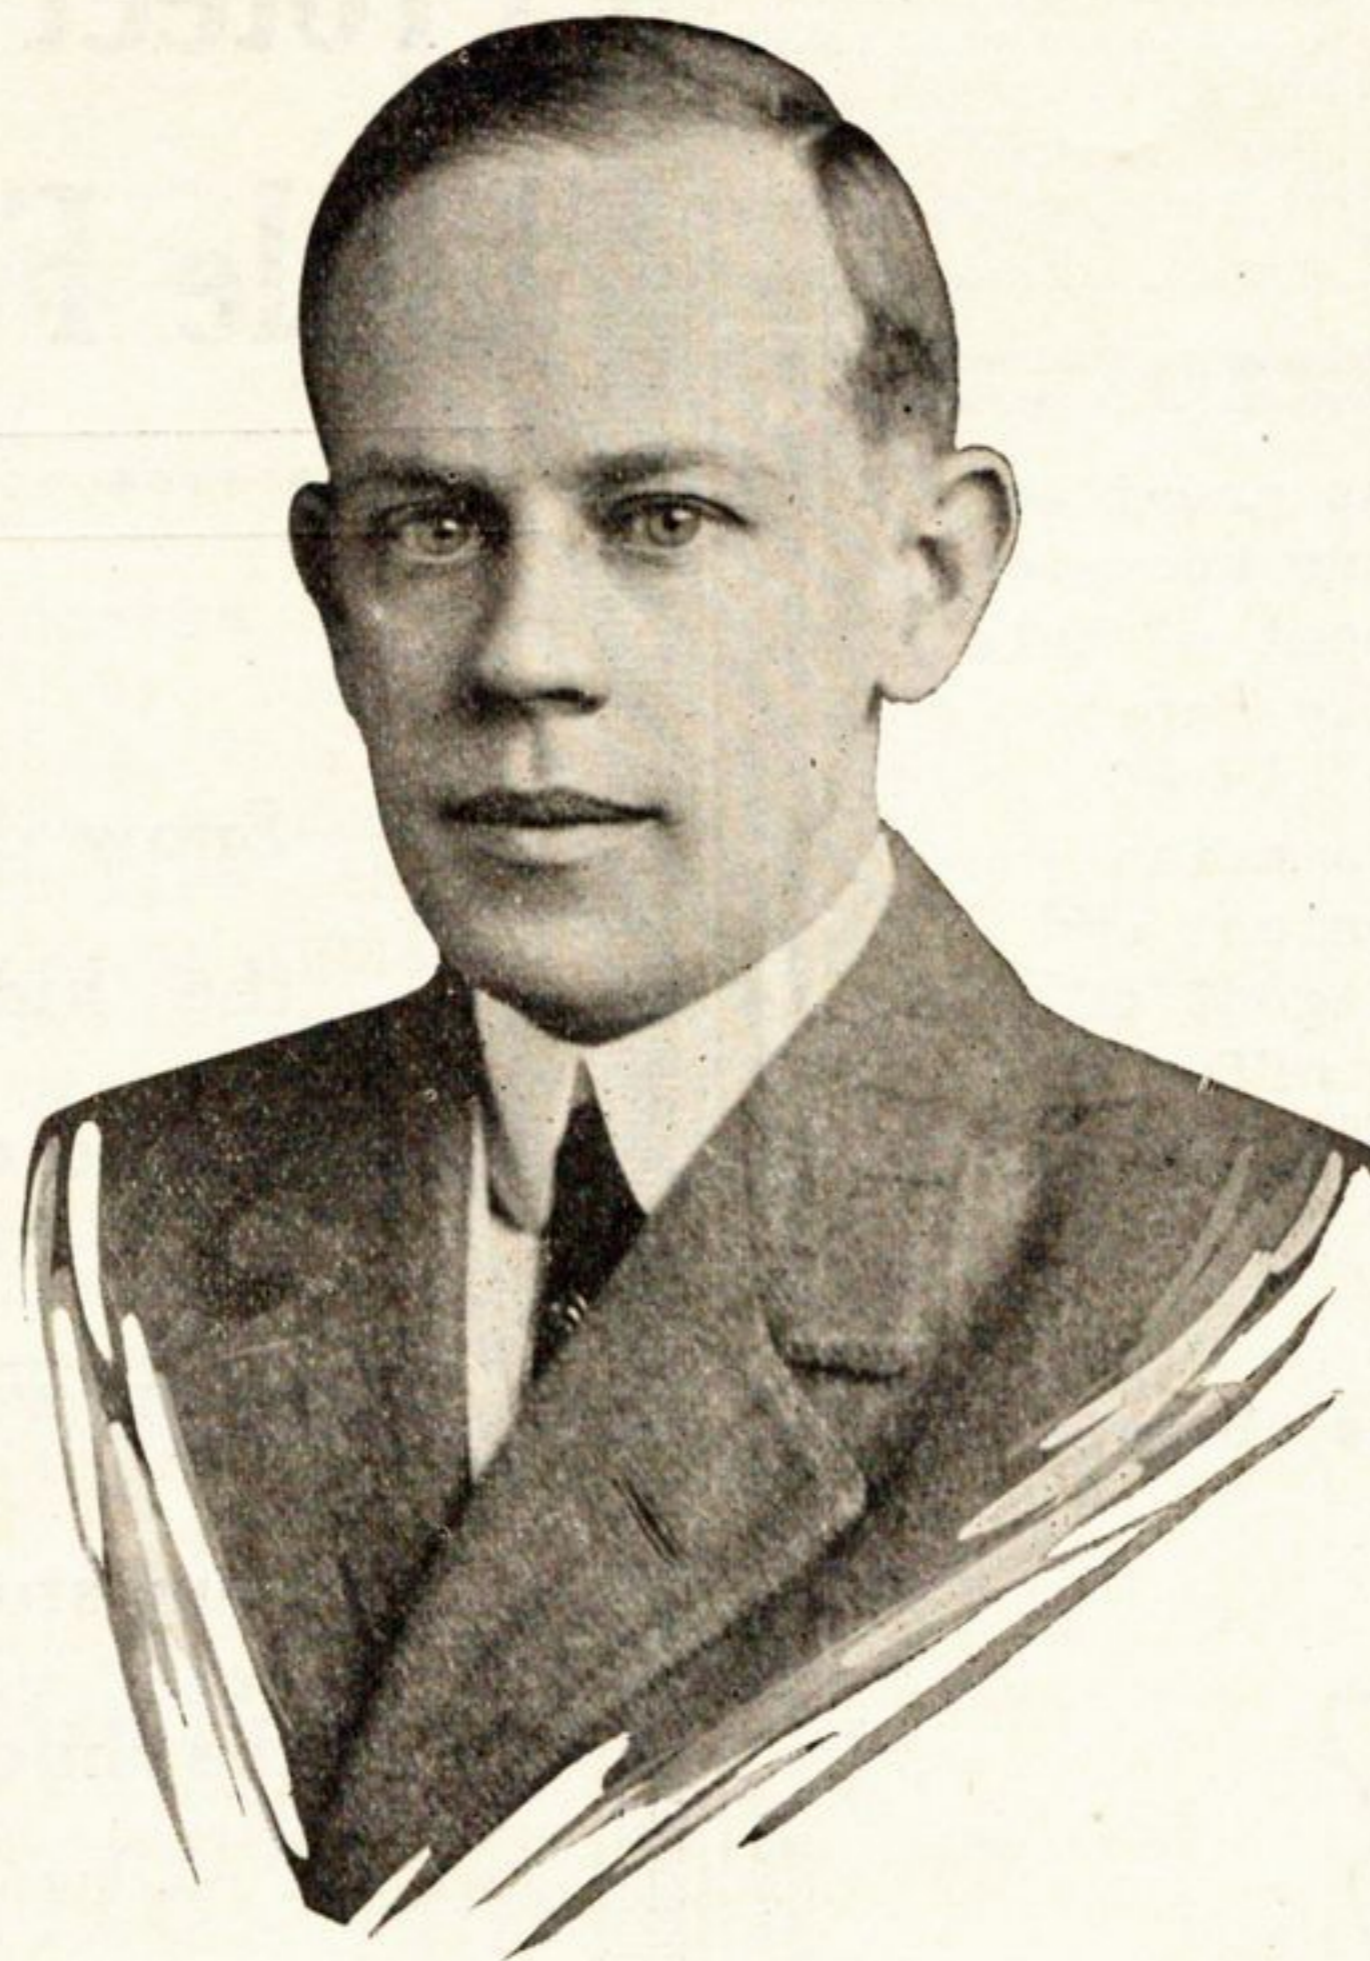

Hear Village Leaders

George D. Wolf, one of the first presidents of the Indian Hill Improvement association, was present and gave an interesting talk on the early work of the association. Village trustee Pierce also gave a short talk

George Woodruff, Financial Expert, To Discuss Disarmament Conference

George Woodruff

George Woodruff, president of the First National Bank of Joliet, and a nationally known financial expert and author of authentic surveys of financial and economic conditions both in this country and abroad, is to speak before the Winnetka Men's club Thursday evening, November 17, concerning some of the problems facing the World Disarmament Conference which opens in the Pan American building at Washington on Armistice Day. All the men of Winnetka are invited to hear this address which promises to be one of the most interesting on the club's season program. Reservations are to be made without delay for the dinner which precedes the speaking program.

os the principal problems now before the Village council.

The Membership committee during the meeting launched an active campaign to enroll all of the residents of the Indian Hill section as members of the association, and concluded its work of the evening with a very encouraging showing, having signed up practically all those in attendance. This committee expects to give everyone in the district an opportunity to join in the association's activities, and the officers are confident that at the conclusion of their efforts the Indian Hill Improvement association will be, in point of number, as well as influence, one of the most representative organizations of its kind on the entire north shore.

Hear Musical Program

In the course of the evening's program, the association was favored with several musical numbers. Mrs. C. Russell Small and Mr. W. A. Snyder each sang several selections, with Mrs. Robert Smith as accompanist, and two young women from New Trier High school, Miss Catherine Grandquist, with her violin, and Miss Winifred Mickey, at the piano, added greatly to the evening's entertainment. At the conclusion of the business session refreshments were served and there was an enjoyable social hour in which dancing provided the diversion.

His "Graven Image."

It is quite true that some people adhere so strictly to their own reading of Biblical laws that they refuse to have their photographs taken. These very particular people insist that Exodus 20:4—"Thou shalt not make unto thee any graven image, or any likeness of anything"—forbids the taking of photographs or the painting of portraits.

PUBLIC SCHOOLS GET COMMONWEALTH FUND

Local Schools Awarded \$3,500 to be Used in Conducting Scientific Research Work in Certain Courses

SECURE SPECIAL WORKER

Dr. Charles S. Pendleton, Noted Educator, to Make Exhaustive Study of History Instruction

The Commonwealth Fund of New York has given \$3,500 to the Winnetka public schools to be used in conducting a scientific investigation in regard to the teaching of history and geography to the children of the elementary grades.

The Commonwealth Fund, like the Carnegie Fund, is a large endowment from which grants are made to universities for the purpose of furthering scientific research. The Winnetka public schools are the only public schools in the country to receive aid from this fund.

The grant specifies that the money shall be used to employ a research worker in the field of history and geography teaching and a clerk to aid in the detail work.

Secure Eminent Educator

Superintendent Washburne, after consultation with prominent educators at both Columbia university in New York, and the University of Chicago, has succeeded in securing for this work Dr. Charles S. Pendleton, formerly a member of the faculty at the University of Wisconsin in charge of the training of English teachers. Dr. Pendleton is a lecturer and writer on educational subjects and is considered one of the ablest men in the state in this type of research.

"The grant," said Superintendent Washburne, "is a tribute to the intelligent and painstaking labor of a group of our teachers who since the beginning of last year have been spending one evening a week in seminar research. They have been trying to discover what facts in history and geography are alluded to in periodical literature with sufficient frequency to justify them being taught in the elementary schools. Over 50,000 allusions covering a range of 15 listed by this group of teachers."

Dr. Pendleton and his clerk will carry on this research in co-operation with the teachers, removing from them the burden of much clerical detail. The outcome of the work will be published at the end of a year.

Towns Need Eye Opener.

Said a New York state business man the other day: "There is hardly a town in the country that does not need to have its eyes opened to the kind of work its newspapers do, week in and week out, and year in and year out, with rarely if ever a word of public appreciation and backing."
