

**JUNIOR RED CROSS AIDS CITIZENSHIP IN ILLINOIS.**

That the boys and girls of today who are to be the men and women of tomorrow are learning the value of good citizenship not only in their own communities but throughout the world, is shown by the \$210,123 members enrolled in the 850 Junior Auxiliaries of the American Red Cross here in this state. More than five million pupils in the public, parochial and private schools of the United States are enrolled in this great organization.

Here in Illinois a number of other Junior activities have been carried on with the help of the teachers. More than 880 toys were made by Juniors in Champaign, and sent overseas to children's schools in the devastated regions. Dixon made a feature of the work in civics.

Hot lunches were provided from Junior funds in Granite City and Pinckneyville. This work is considered a great help to nutrition service, which is another Red Cross activity often carried on in the schools. Milk was distributed in schools in Petersburg and financed by the Juniors.

In many of the Chicago schools the sick and unfortunate among the service men as well as inmates of children's hospitals and various institutions have become the especial interest of the different schools. Programs have been provided for the patients by the Juniors, concerts and story hours arranged for their amusement. A number of garments were made by the children for hospital use of convalescent ex-service men.

Activities for this year in Illinois are well under way. Schools are enrolling as auxiliaries to carry on the various objects. To carry on this work and increase its scope as well as the many other vital community services which the Red Cross chapters are rendering in their communities is one of the objectives of the Annual Roll which opens on November 11, Armistice day, and continues until Thanksgiving.

**Motorists Admire New Dodge Sedan**

**Dodge Brothers Add Notable Refinements to Already Popular Closed Car**

Disc wheels, cord tires, the latest custom windows and straight sweeping body lines are some of the features of Dodge Brothers improved sedan, which is now attracting much attention at the salesrooms of the Winnetka Motor Co., Dodge Brothers dealer.

In this unusually attractive car Dodge Brothers seem to have considered the motorist's every desire in design and in comfort features. Cleanly chiseled body lines, which flow squarely backward from the cowl, strike the observer with their simple beauty. The windows are square-cut in design and further enhance the straight, graceful silhouette of the body. Considerably lower, the whole ensemble in its outward appearance immediately impresses one with its dignity and harmony of design.

The disc wheels are done in black enamel with cream stripe and hide from view the springs and other underneath parts. The disc wheels may be removed with facility, and are easily cleaned.

In the interior appointments, the sedan leaves little to be desired. Delicately striped mohair velvet is used in upholstering the wide, commodious rear seat. In front is a deep, wide, solid seat with rounded sides, also trimmed in the striped material. The four doors, which permit easy entrance and exit from any part of the sedan, are upholstered with plain gray mohair velvet in a soft fawn-gray.

The windows in the doors and body are garnished with natural black walnut and are of polished plate glass. The body of the car is equipped with Yale locks, affording additional protection against theft and insuring the safe-keeping of bundles and other articles when shopping.

Other notable refinements are weather strips inside the doors, as an extra protection in unpleasant

weather, anti-rattles on the windows and a body heater connected with the exhaust.

**Jaw Pressure 534 Pounds.**  
Those who study these matters say that the average human jaw can exert a force of 534 pounds.

Life is not a product, but a growth, and graces are fruits and not the output of a factory. The soul is not made perfect at a bound.—Exchange.

**Celebrating Derby Night.**  
On Derby night the waiters in one of the fashionable restaurants in London are dressed as jockeys and the head waiter as a bookmaker.

**Bill Jones--**

has a splendid Touring Car and when the cold winds of autumn flirled around the open car, he realized the comfort and luxury of an enclosed body. After but little investigation, he commissioned us to build a winter enclosure. He selected one of our several models and made but one stipulation, which was that he must have a simple, compact, dignified job of good lines and best workmanship. "A job" that must be as good, in every way, as his car.

We delivered the car last week. You may be interested in seeing the photograph or a number of other cars that are in work right now—come in—we'll be glad to show them to you any day, and take your order for putting a winter enclosure on your car.

**A "Mysterious" Force**

**E**LECTRICAL ENERGY, that mysterious force which starts your motor, lights your lamps, provides your car with other conveniences that add to the pleasure of motoring, is supplied through the power house of your automobile—the Storage Battery. Whether the power supplied is sufficient to meet the requirements of your electrical system, giving efficient lighting service and instant starting power, will depend to a great extent upon the construction of the battery.

**A Battery of Unusual Construction**

The COOPER Battery is built to give the maximum service. Its heavily plated plate of a special composition enables it to stand a heavy discharge without breaking or buckling, and further assures you in the terms of a guarantee that it will render satisfactory starting and lighting service for a longer period than the ordinary battery.

For the sake of safety, if for no other reason, you should have your battery inspected every 15 days. Stalled on a railroad crossing, or without lights on a dark road, etc. are misfortunes that may befall you at the most critical moment. Take advantage of the service we offer.

Buy a COOPER Battery and buy guaranteed results.
