

**Some "Do You Knows" Worth Consideration**

**Secretary of Grosse Point Health Center Tells Just What Those Christmas Seals Are Buying**

"Do you know that for three years Christmas seals have made possible in our own community a great piece of general health work?"

The question, propounded by Mrs. D. H. Maxwell, secretary of the Grosse Point Health Center, is one worthy of the consideration of every resident of New Trier township.

"Do you know," Mrs. Maxwell continues in a communication directed to the editor, "that the Chicago Tuberculosis institute depends entirely upon the sale of these penny stamps for a whole year's work in fourteen districts similar to the Grosse Point Health Center? Do you know how far-reaching this work is and how much more so it could be if given more hearty support?"

"More nurses are needed. Each should have her efficiency more than doubled by having her own Ford."

"Buy more seals this year with real appreciation of what they mean."

**Portable Grinder.**

A portable electric grinder for the machine shop, designed to be moved over the work, has the power of one-eighth to one-half horsepower placed above the work out of the operator's way. The spindle is bored with a five-sixteenth-inch hole to receive an adjustable shaft for interior grinding and the use of interchangeable grinding wheels adapts the little machine to a wide range of work.

**WILMETTE VIOLINIST WINS PRAISE FROM MUSIC CRITICS**

The audience that attended the recital given by Milan Lusk at Kimball Hall last Thursday, enjoyed a rare artistic treat. Mr. Lusk who is well-known from his former concerts, was warmly greeted by his numerous admirers, and when he finished the first movement of the d'Ambrosio concerto, the young artist was accorded tremendous applause. As the program continued the enthusiasm increased. Some of the criticisms of the Chicago dailies are as follows:

Edward Moore in the "Chicago Tribune": "Milan Lusk appeared last night before an audience that was enthusiastic with justification. He plays firmly, understandingly, with all the technique necessary, and with warm feeling." Herman Devries in the "American": "The young violinist combines pronounced ability with a most engaging and unassuming personality, and plays very artistically. He has a tone that is suave and pleasing, decided understanding of the violin and its possibilities as a medium for expression." Maurice Rosenfeld in the "Daily News": "Mr. Lusk showed a technic which is of a commendable degree of advancement."

**A FULL PROGRAM**

F. L. Streed, village manager of Kenilworth, leaves Saturday to attend the annual home-coming at the University of Illinois over this week-end. Next week Manager Streed will attend the sessions of the National City Managers' association, which meets in convention at the Great Northern hotel, Chicago, early in the week.

**WINTER TOPS FOR AUTOS "CHARLEY" READY WITH**

These chilly—soon quite frigid—days would make riding in open cars most uncomfortable, if not quite impossible, were it not for such sympathetic souls as Charles R. "Charlie" Petersen, who holds forth in the automobile top manufacturing and repair business at 1203-1205 Washington avenue, just back of the Wilmette State Bank.

Winter tops are Petersen's specialty. They are the kind that insure warmth and coziness in the open car and are ideal weather inclosures. He is on the job himself, which means expert work on every "job."
