Report Successful Year

The superintendent, Miss Belle Ferrer, reported a most successful summer season. On account of the excessive heat in the city the breezes of Lake Michigan, the rest, good food, and most of all the bathing, were appreciated more keenly than ever.

The girls in the nutritional department of the camp, made the greatest gain recorded in any nutritional camp during the summer. This gain in many cases was as high as 700 per cent. The boys at the camp now are trying hard to beat the record established by the girls in the summer.
