GOVERNOR INDORSES "GIFT GRAIN" DRIVE

Commends Illinois Farmers Upon Campaign to Supply Food for Starving of Near East Countries

Governor Small has indorsed the campaign to send gift grain and grain products from the farmers of Illinois in conjunction with those of other states to the starving orphans and widows of the Bible lands. In a letter the governor wrote to Frank I. Mann of Gilman, Illinois, the chairman of the Illinois Agricultural committee of the Near East Relief, he said that the pitiable condition of the women and children of the Near East is such that the grain campaign in this state would meet with success.

"The plan of your committee to solicit donations of surplus grain in Illinois to feed these starving people has my hearty approval", wrote Governor Small. "We, in this country, know little of starvation, and we cannot easily realize what it means to see women and children suffering and dying for want of food. If you can bring this terrible situation in the Near East vividly to the attention of our people, I have no doubt of a ready and generous response by them to your appeal."

O. D. Center, formerly member of the College of Agriculture of the University of Illinois and more recently the farm adviser with the McLean County Farm Bureau, has been engaged by the Agricultural committee of the Near East Relief to enlist the interest of the farmers throughout the state in the gift grain campaign.

"Practically all the elevators will receive and load this grain free", said Mr. Center, "the mills will grind it for less than cost, the railroads will haul it to the seaboard free of all costs, and the Near East Relief which has been incorporated by the United States Congress, will transport and distribute the food. Knowing the farmers of Illinois as I do, I believe that they will give liberally to this cause."

Committees are being organized in all counties to conduct the grain campaign among farmers while in the towns cash contributions are being solicited.

Create \$7,500 Fund For Tree Planting

Experts Figure that Massachusetts Legacy Will Amount to \$250,000 in 90 Years

The statement has been made in bank advertisement that if \$1 had been placed at compound interest in the year 1 it would have grown by now to a sum larger than all the money in the world.

Such a statement must have caught the eye of Alfred V. Lincoln, of Charlestown, Mass. His will provides that \$7,500 of his estate must be set aside at compound interest for 90 years or until the year 2011. Then the total will be drawn out to plant many trees in Mr. Lincoln's home town.

At 4 per cent compound interest money doubles in 17 years and 246 days. In 90 years, Mr. Lincoln's original \$7,500 will amount to about \$250,000. Shrewdly invested by trustees, it may turn into millions.
