

Arcanians Announce Great Open Meeting

To Hear Supreme Vice Regent at Social Gathering at Community House

Monday evening, December 19, at 8:30 o'clock the Winnetka council No. 1131, Royal Arcanum, will hold a big open meeting in the Assembly room at Community House.

This meeting is to be the biggest social affair for the council this year and the program promises to be most attractive. It is the hope of Royal Arcanum leaders that every local member will make a special effort to do his part in the activities. The families and friends of Arcanum members, and others interested are especially invited to be present.

The principal speaker of the evening is to be Richard E. Kroepf, Supreme Vice Regent of the Royal Arcanum, who will have as his subject, "The Royal Arcanum."

Following this address the council and its guests will be entertained

with motion pictures, loaned by the Sinclair Oil company, describing "The Development of the Oil Industry."

Other features of interest are planned, including refreshments.

Prior to the meeting the council will meet in brief business session in Rooms 9, 10 and 11 at 7:30 o'clock when a new class of members will be formally admitted.

Officers of the council announce that on Thursday evening, December 29, the special and final meeting of members will be present and a uniformed degree team will be there to give the full degree to all the men admitted in December.

"CALL OF THE NORTH" IS NEXT COMMUNITY PICTURE

Jack Holt, besides appearing in his first Paramount star picture, had also the honor of breaking virgin soil for location scenes at Mammoth Mountain, California, fifty miles north of Bishop. The picture is "The Call of the North" and a reproduction of a Hudson Bay Trading post was constructed in the heart of the mountains,

on the shores of one of the many beautiful lakes which abound.

The mountains form a background of eternal snows and are lofty. The country is almost primitive, though a hotel is located where the company made its headquarters. Many Indians were employed as extras, while two specially trained Indian actors, Chief Lighthouse and Big Tree, the latter a full blooded Seneca, took part in some of the scenes.

The picture will be shown at the Community House next Friday evening. "The Call of the North" is from

the George Broadhurst play of the same name and Stewart Edward White's novel, "Conjurer's House," adapted for the screen by Jack Cunningham.

There will be two shows; at 7:15 and 8:45.
