

AUTOCRACY BEHIND CAPITAL LABOR WAR

Men's Club Told Domination of Both Classes by the Few is Responsible for Present Difficulties

William A. Hadley, 913 Oak street, founder and head of the Hadley Correspondence School for the Blind, gave an interesting description of his work before the meeting of the Winnetka Men's club at Community House Thursday evening of this week. Mr. Hadley expressed sincere appreciation of Winnetka's splendid response to the appeal for funds to make possible the permanent establishment of the school.

Dr. Sam Atkinson, speaker of the evening, talked entertainingly and instructively on the subject, "The Point of Contact."

Autocratic control of both Capital and Labor, was held responsible by Dr. Atkinson for all the ills underlying the seemingly endless war between Capital and Labor.

There should be no differences between Capital and Labor, he declared. Assumption of power and the domination of Labor by a few radical speakers who seized power while the union man was busy working to win the war, has brought organized labor to its present sorry plight, he said.

Chicago was described by the speaker as the hot-bed of radicalism. It is the headquarters of the largest radical publications in the world, Dr. Atkinson said of the so-called "soap-box" orator. His perfect mimicry of the "curb-stone" philosopher provoked a storm of applause.

"The greatness of Theodore Roosevelt," said Dr. Atkinson in concluding his address, "was that he found a 'Point of Contact' with everybody and anybody. If only that 'Point of Contact' can be found as between the warring factions of Capital and Labor, the greatest problem before the American public will have been solved."

Dr. Atkinson, who is now on the lecture platform, was formerly business manager for the Allied Amusements corporation of Chicago, in which capacity he was in charge of the labor agreements for more than 400 theaters. He is a recognized authority on Labor conditions.

Preceding the address, F. S. Banta entertained with a group of songs. The next meeting of the Winnetka Men's club is scheduled for January 26.

Christmas Cheer? Arden Shore Lads Need Warm Shoes

Does anyone want to help give the Arden Shore boys a Merry Christmas? If so some stout shoes and boys' clothing would be most welcome.

John K— is sixteen years old and is "over the top" in weight. He wants to get a job but his clothes are so shabby that he is afraid no one will take him. John has no home, no father or mother, no one in the world in fact, who belongs to him. He is willing and eager to work and he is well and strong now after his weeks at the camp. In order that he may remain so, he will be kept at Arden Shore until he can be suitably placed, but some better clothes would help him quite a lot. Can anyone give John some clothes or a job?

There are three other boys who will be ready to leave in about a month. They also, have no homes and no families. Can anyone help them to find jobs?

Many of the boys need shoes. The camp budget does not allow for shoes and the boys' parents are supposed to provide them but some of these other boys have no parents and some have parents so very poor or with so many children that it is a hard task to find shoes for all of them.

One of the best things a boy gets at Arden Shore is his exercise and play out of doors. For this heavy shoes are a necessity.

The boys are from 14 to 16 years of age, but many of them are small for their years. New shoes or those slightly worn will be most gratefully received.

Please send to Mrs. John Bullen in Glencoe, Mrs. John Montgomery in Winnetka, Mrs. Mark Cresap in Kenilworth, Mrs. Joseph J. Siddall in Wilmette. Or notify any of these women and articles will be called for.
