MISCELLANEOUS
ATTENTION OWNERS OF OIL BURNING HEATING PLANTS.

We have a number of steel tanks, suitable for storage and supply of oil-burning heating plants in 1000-2000 and 3000 gal. sizes. These tanks are complete with fittings for installation. We will install same at a minimum cost; a large tank will simplify your fuel problems and enable you to buy in larger quantities which means a saving in the price of fuel. If several parties interested could arranged for purchase and installation at the same time they would effect a considerable saving in the cost of installation.
