

**LECTURE  
ON  
CHRISTIAN SCIENCE**

BY  
Clarence W. Chadwick, C. S. B.

Clarence W. Chadwick, C. S. B., of Omaha, Nebraska, member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass., delivered a lecture on Christian Science, Monday evening, January 23, under the auspices of First Church of Christ, Scientist, Wilmette, Illinois, in the church edifice, Central Avenue at Tenth Street.

The lecturer was introduced by Mr. J. W. Panushka who said:

"Friends: It is my privilege this evening, on behalf of the members of this church, to extend you a cordial welcome. Jesus said, 'Come unto me, all ye that labour and are heavy laden, and I will give you rest.'"

Through the universal appeal of Christian Science, giving mankind a better understanding of the Bible and man's relation to God, many are seeking and finding that freedom and rest which Jesus promised.

For the purpose of correctly informing the public regarding Christian Science and the life of its discoverer and founder Mary Baker Eddy, a Board of Lectureship was instituted by Mrs. Eddy, as one of the activities of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., of which this Church is a branch.

The speaker of this evening is a member of this Board, and comes to us well qualified by experience and authority. I take pleasure in introducing Mr. Clarence W. Chadwick, C. S. B., of Omaha, Nebraska, who will address you on the subject, "Christian Science: Religion made Practical."

Mr. Chadwick spoke as follows:

**"CHRISTIAN SCIENCE: RELIGION MADE PRACTICAL"**  
GOD IS LOVE

Some of the terms employed in

Christian Science to define Deity to human consciousness are Love, Truth, Life, Spirit and Mind. To one trained to believe in a God of wrath and vengeance, these synonyms for God, when studied in the light of Christian Science, reveal an entirely new sense of heaven and earth and man.

Love's invitation, given to the world through Christ Jesus twenty centuries ago, "Come unto me, all ye that labour and are heavy laden, and I will give you rest" (Matt. 11:28), is reiterated today in the Christian Science text-book, "Science and Health With Key to the Scriptures," by Mary Baker Eddy, the Discoverer and Founder of Christian Science. It comes with healing in its wings, revealing the sacred mission of Christ Jesus, to teach and to demonstrate the lesson of divine Love. If we would become acquainted with the Father, we must learn to love, for what saith the Scripture? "Beloved, let us love one another: for love is of God; and everyone that loveth is born of God, and knoweth God. He that loveth not knoweth not God; for God is love" (1 John 4:7-8).

**THE SAVIOUR**

Mrs. Eddy's teachings have thrown so much light upon the life and mission of the great Saviour of men, that the whole world rises to call her blessed. She says in substance to her followers: "If you profess to love him, keep his commandments." Then she explains, in unmistakable terms, how we are to prove our obedience.

When once asked whether she believed in the atonement of Christ, she replied: "I do; and this atonement

becomes more to me since it includes man's redemption from sickness as well as from sin. I reverence and adore Christ as never before" (Misc. p. 96).

**DEMONSTRATION**  
Demonstration is the power of divine Love made practical to humanity. One cannot grasp the meaning of scientific demonstration nor be-

come a successful practitioner until one learns how to feel and to express love for all mankind. The true Christian Scientist strives to abide in a healing consciousness, one character-

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.
